Skadar Lake National Park

St. Ilija, Boka Fjord

THERE IS A PLACE WHERE THE SUN STREAMS DOWN FROM DRAMATIC MOUNTAIN RANGES, GLANCING OFF THE SAILING BOATS THAT FLIT ACROSS THE CRYSTAL-CLEAR WATERS OF THE ADRIATIC SEA.

A place where you are never more than a stone's throw away from a stunning national park, a glittering lake, a piece of living history, or a meandering river. A place that invites you to reconnect with nature and immerse yourself in culture, embark on new adventures and enjoy precious moments of escapism.

And this place is the tenth smallest country in the world: Montenegro.

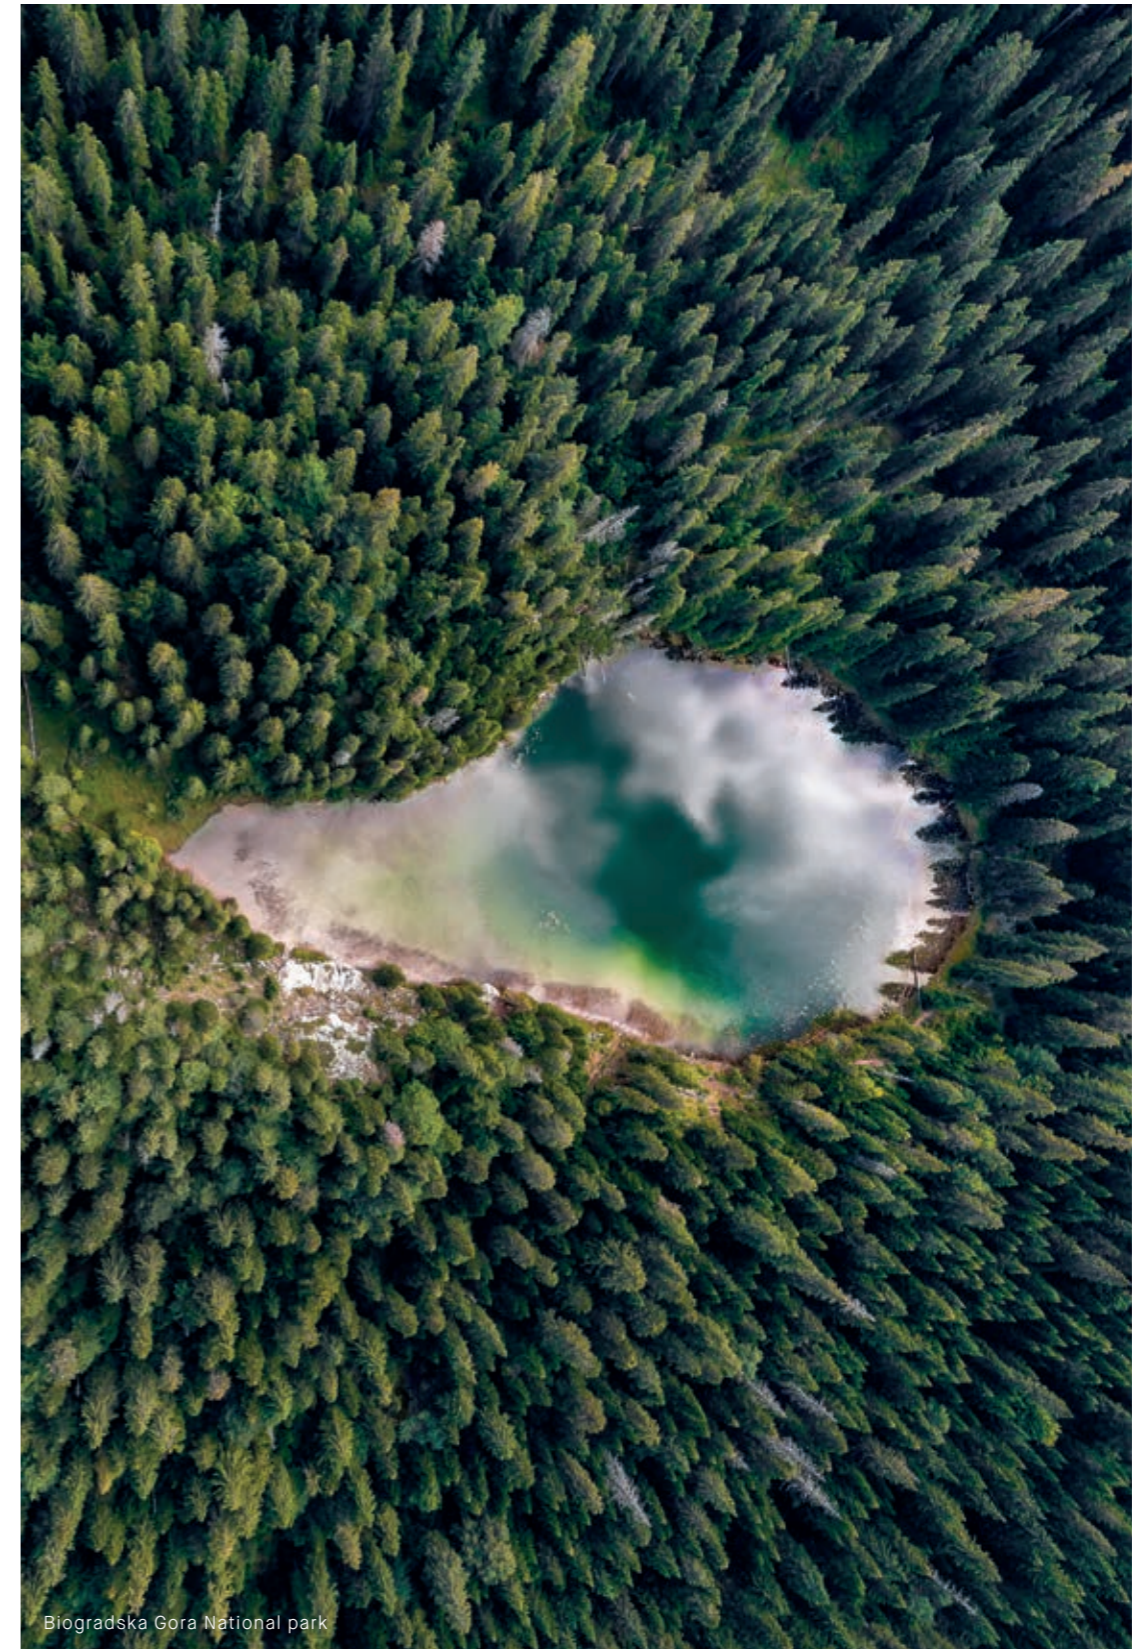

Suisicko Lake

MONTENEGRO IS ABUNDANT
IN NATURAL WONDERS AND
BIO - DIVERSE TERRAIN
INCLUDING FOUR UNESCO
WORLD HERITAGE SITES
AND FIVE NATIONAL PARKS.

For such a small country, Montenegro is home to an incredibly diverse range of attractions, terrains, and sites of natural beauty. Within its borders you will find the world's second deepest canyon, one of Europe's only three remaining rainforests, Europe's largest vineyard and the largest lake anywhere in the Balkans.

As the old saying goes: the best things come in small packages.

Biogradska Gora National park

HARMONY WITH NATURE SITS AT THE HEART OF THE MONTENEGRIN WAY OF LIFE.

In the ancient sandy bays and pristine waters, the centuries-old olive groves, the red roofed and white stone-walled historic villages dating back as far as 168 BC and the beautifully preserved 15th Century churches and fortresses, you find the real Montenegro: a simple and traditional lifestyle, virtually untouched by the passage of time.

Montenegro's people are stewards of this history, and they quite rightly take pride in preserving both the natural and man-made wonders of the region.

THE LOCATION

THE BAY OF KOTOR.

Surrounded by commanding cliffs and interspersed with bay and coves, the breath-taking beauty of the Bay of Kotor has to be seen to be believed.

The Bay of Kotor

THE MEDITERRANEAN'S ONLY FJORD IS EVERY BIT AS STUNNING AS IT SOUNDS, ITS PICTURESQUE MEDIEVAL TOWNS CASTING GLITTERING REFLECTIONS IN THE COBALT BLUE SEA.

The 'Boka fjord', as it is known locally, is connected by scenic, snaking roads which pass through opportunities to explore island monasteries, classical Roman citadels, relics of Venetian rule and extraordinary eateries. All of which sit on the shores of one of the world's most beautiful fjords.

A place quite unlike anywhere else in the world.

Dobrota, The Bay of Kotor

THE LOCATION

LUŠTICA BAY.

Montenegro's spectacular Luštica Peninsula — the largest of its kind in all Montenegro — sits between Boka Bay and the Adriatic Sea. And nestled in this idyllic stretch of land is Luštica Bay: a cosmopolitan and vibrant destination in which to live, dine, shop and sail.

With its beautiful, secluded surroundings, it feels like a remote hidden gem. Yet Luštica Bay is positioned deceptively near to Tivat International Airport and offers fantastic travel connections to popular destinations in the rest of Montenegro: from the neighbouring Boka Bay and beyond. Truly the best of both worlds.

LUŠTICA BAY

THE VISION.

Luštica Bay is already a flourishing community, a place where locals have long savoured the natural beauty of the peninsula. And now the bay is set to become a 690 hectare resort — roughly double the size of New York’s Central Park, and four times bigger than Monaco — which blends seamlessly with its surroundings. Only 10% of the land will be built up, creating a town that embraces the charm and feel of the Montenegrin traditional village, powered by future-forward vision.

CONTEMPORARY CONVENIENCE IN A TRADITIONAL SETTING.

If a lively waterfront Riviera lifestyle is what you crave then Marina Village hosts a wealth of attractions with the marina itself at its heart. Providing an elegant and tranquil harbour for yacht owners, the marina is the pinnacle of design, encompassed by five-star hotels, fine-dining, events and an array of unique boutiques. All set within the captivating architectural grace of a traditional Montenegrin fishing village.

As part of the wider masterplan for Luštica Bay the town of Centrale has been designed to offer all the conveniences you would expect in a modern town: a buzzing piazza, verdant parks, restaurants, a school, a bank, medical care and emergency services, sports facilities, wellness treatment centres and destination shopping. A place where everyone can feel at home with luxurious facilities around every corner.

Waterfront living, redefined.

Food is a way of life in Montenegro. Its people take pride in the wealth of organic produce that can be found on these shores, and in the historic diversity of their national cuisine.

Gastronomic delights abound here in Luštica Bay too, of course, with freshly line-caught fish, including sea bass and Dover sole, delicately prepared just a stone's throw from the waters in which they were caught. Dished up alongside artisan bread from a family-owned bakery and traditional local delicacies from any of the number of exceptional restaurants in the bay. And what better accompaniment to a meal this delicious than a fine wine from Europe's largest vineyard? Montenegro's own Plantaže Winery offers red, white, rosé and sparkling wines to delight the palate of connoisseurs and enthusiasts alike.

FIND YOUR FAVOURITE PLACE TO SOAK UP THE SUN, SWIM, GET LOST IN A BOOK AND ENJOY THE VIEWS.

Luštica Bay's five beaches, each with their own unique character and all accessible by Luštica Bay's charming water taxi, mean everyone can find their own idea of paradise.

For those looking to kick back and relax with family and friends, Chedi Beach is the perfect setting. With a laid-back beach bar offering cool refreshments and al fresco bites, you may never want to leave.

Marina Beach is for anyone who feels more at home on a paddleboard than a sun lounger. With a smorgasbord of watersports activities and sporting pursuits, thrill-seekers will delight in their newest aquatic adventure. Whether that's snorkelling, kayaking, or even taking a jet ski out for a spin, pulses are sure to be set racing.

LUŠTICA BAY'S FANTASTIC BEACHES HAVE SOMETHING FOR EVERYONE

Almara Beach is the place to be for the young, and the young at heart. Here, live music and DJs set the pace for a waterfront party, with bustling bars offering up delicious cocktails to keep you dancing all the way to sunset.

With pure white sands and nestled against a dramatic vertical bluff, 21 Beach Club is a little strand of heaven. Its secluded cabanas which look out across the waters to the Marina Village are the perfect place to relax and unwind.

SAIL AND SWIM
IN THE ADRIATIC.
SAVOURING EACH
SUNRISE AND SUNSET
OVER THE CRYSTAL
BLUE SEA.

The open sea, which lies at the heart of life in Luštica Bay, is every bit as changeable as it is beautiful. Tranquil waters in sheltered coves make for perfect beach days for paddlers and swimmers. Yet thrill-seekers will find plenty to set their pulses racing in the deeps, too, with watersports such as sailing, paddle-boarding and diving. And the view of the Adriatic stretching all the way to the horizon means a fresh scenic tableau each and every day, offering drama and moments of stillness in equal measure — something that can only be found on the open seas.

The Montenegrins have a saying which is perfectly suited to the feeling of being awestruck by natural beauty: *divno*.

It means, simply: that's amazing. And when you visit the Peaks, it will quickly become part of your vocabulary, too.

DESIGN AND DETAIL

FUTURE HERITAGE

Working with timeless values — light, quality materials, a site-specific approach and spatial generosity — designs from local architecture firm NRA Atelier and renowned architects Block722 have created a boutique residential neighbourhood with serenity at its heart. With a creative vision anchored on the local vernacular, translating the traditional materials and building techniques of Montenegro into pared down, contemporary forms, they have recognised local heritage with modern design. Homes formed with natural materials at their core, including stone and wood, to create secluded, private gateways. A nature-rich family escape; a modern, refined space for entertaining; or all of the above, thanks to their layered architecture and level of design sophistication.

With the outstanding natural beauty of The Peaks such an important feature of the location, the homes have been designed so that nature is always within touching distance. Serenely swaying grass beds and cultivated shrubberies sit alongside trees which are indigenous to the region, generously drooping shade over quiet courtyards. The effect of this proximity to nature is that the man-made structures blend seamlessly into the environment, providing luxury accommodation without impacting on the environment that makes this place so special.

CRAFTED INTERIORS

Care and quality is second to none, with lots of outdoors options – from paved terraces to planted gardens with native species. Crafts-based, balanced interiors are conceived to gently support and enhance the life taking place within the villas – stealing the spotlight only through their poise and quiet luxury. Inside, bespoke furniture, earthy colour tones, more natural materials, soft fabrics and a generous scale further highlight this nod to context.
