# Energy performance certificate (EPC) 84a London Road PORTSMOUTH PO2 0LZ Energy rating Certificate number: 9090-3028-3203-5767-8204 Property type Mid-floor flat Total floor area 88 square metres

# Rules on letting this property

# You may not be able to let this property

This property has an energy rating of F. It cannot be let, unless an exemption has been registered. You can read <u>guidance for landlords on the regulations and exemptions</u> (<a href="https://www.gov.uk/guidance/domestic-private-rented-property-minimum-energy-efficiency-standard-landlord-guidance">https://www.gov.uk/guidance/domestic-private-rented-property-minimum-energy-efficiency-standard-landlord-guidance</a>).

Properties can be let if they have an energy rating from A to E. The <u>recommendations section</u> sets out changes you can make to improve the property's rating.

# **Energy rating and score**

This property's current energy rating is F. It has the potential to be D.

See how to improve this property's energy efficiency.

The graph shows this property's current and potential energy rating.

Properties get a rating from A (best) to G (worst) and a score. The better the rating and score, the lower your energy bills are likely to be.

For properties in England and Wales:

the average energy rating is D the average energy score is 60

# Breakdown of property's energy performance

# Features in this property

Features get a rating from very good to very poor, based on how energy efficient they are. Ratings are not based on how well features work or their condition.

Assumed ratings are based on the property's age and type. They are used for features the assessor could not inspect.

Feature	Description	Rating
Wall	Cavity wall, as built, no insulation (assumed)	Poor
Window	Mostly double glazing	Average
Main heating	Room heaters, electric	Very poor
Main heating control	Appliance thermostats	Good
Hot water	Electric immersion, standard tariff	Very poor
Lighting	Low energy lighting in 67% of fixed outlets	Good
Roof	(another dwelling above)	N/A
Floor	(other premises below)	N/A
Secondary heating	None	N/A

### Primary energy use

The primary energy use for this property per year is 392 kilowatt hours per square metre (kWh/m2).

### Additional information

Additional information about this property:

- Storage heater or dual immersion, and single electric meter
  A dual rate appliance(s) is present with a single-rate supply. A single-rate appliance has been used
  for the assessment. Changing the electricity tariff to an off-peak (dual rate) supply is likely to reduce
  fuel costs and improve the energy rating.
- · Cavity fill is recommended

# How this affects your energy bills

An average household would need to spend £4,106 per year on heating, hot water and lighting in this property. These costs usually make up the majority of your energy bills.

You could **save £2,361 per year** if you complete the suggested steps for improving this property's energy rating.

This is **based on average costs in 2023** when this EPC was created. People living at the property may use different amounts of energy for heating, hot water and lighting.

# **Heating this property**

Estimated energy needed in this property is:

- 8,694 kWh per year for heating
- 1,963 kWh per year for hot water

Impact on the environment		This property produces	5.8 tonnes of CO2
This property's current environmental impact rating is F. It has the potential to be E.		This property's potential production	5.4 tonnes of CO2
Properties get a rating from A (best) to G (worst) on how much carbon dioxide (CO2) they produce each year. CO2 harms the environment.  Carbon emissions		You could improve this property's CO2 emissions by making the suggested changes. This will help to protect the environment.	
An average household produces	6 tonnes of CO2	These ratings are based on assumptions about average occupancy and energy use. People living at the property may use different amounts of energy.	

# Changes you could make

Step	Typical installation cost	Typical yearly saving
1. Cavity wall insulation	£500 - £1,500	£462
2. High heat retention storage heaters	£1,600 - £2,400	£1,898

# Help paying for energy improvements

You might be able to get a grant from the <u>Boiler Upgrade Scheme (https://www.gov.uk/apply-boiler-upgrade-scheme)</u>. This will help you buy a more efficient, low carbon heating system for this property.

### Who to contact about this certificate

# Contacting the assessor

If you're unhappy about your property's energy assessment or certificate, you can complain to the assessor who created it.

Assessor's name Colin Harding Telephone 07802827401

Email colinhard@hotmail.com

# Contacting the accreditation scheme

If you're still unhappy after contacting the assessor, you should contact the assessor's accreditation scheme.

Accreditation scheme Elmhurst Energy Systems Ltd

Assessor's ID EES/029717
Telephone 01455 883 250

Email <u>enquiries@elmhurstenergy.co.uk</u>
