# The Property

## Sitting Room

The front entrance opens directly into the sitting room, a welcoming principal reception with notably high ceilings for a Victorian cottage of this scale. Engineered oak flooring has been fitted, with neutral décor to the walls. A traditional three-light casement window to the front elevation provides good natural light. The room is centred around an attractive open fireplace with a quarry tile hearth, brick surround and segmental arch. Shaker-style fitted cupboards flank the chimney breast, with oak veneer shelving above, providing useful storage and display space.

## Dining Room

Positioned centrally within the house, the dining room is a well-proportioned space with ample room for a family table and chairs. The engineered oak flooring continues through from the sitting room and a traditional three-light casement window to the rear elevation brings in good natural light. The room retains period character with a feature fireplace incorporating a cast-iron decorative insert and a classically styled pitch pine surround. Bespoke understairs cupboards have also been installed, providing excellent practical storage.

## Kitchen

Situated to the rear of the property, the kitchen is fitted with Shaker-style wall and base units, complemented by oak-effect work surfaces. A large ceramic sink with drainer sits beneath a two-light window overlooking the rear garden, providing a pleasant outlook, and is fitted with a brushed chrome mixer tap with spray hose. Flooring is finished in riven, slate-effect tiles, and a traditionally styled stable door offers direct access to outside.

## Bathroom

The bathroom is situated within the part-vaulted ground-floor side extension and is fitted with a modern three-piece suite comprising a white bath with chrome mixer tap and shower over, a pedestal wash hand basin with chrome mixer tap, and a close-coupled WC. The room is neutrally decorated with large-format, marble-effect ceramic tiling to both walls and floor. Additional features include mechanical extract ventilation, a chrome ladder-style heated towel rail, and a top-hung casement window providing natural light and ventilation.

## The Property

### **First Floor Landing**

The first-floor landing is finished with matching oatmeal cut-pile carpeting and complemented by oak veneer handrails and balustrading. Traditional slatted, ledged doors—hung on a mix of Suffolk hinges and brass lever latches—open to the three bedrooms. A useful full-height storage cupboard provides fitted shelving and matching panelled doors. Walls are decorated in two-tone emulsion, and an attractive butt-and-beam panelling forms part of the approach to the central bedroom, incorporating high-level glazing to introduce borrowed light across the landing.

### **Bedroom One**

A well-proportioned double bedroom positioned to the front of the property, with a three-light window overlooking the street scene. The room is neutrally decorated and features traditional stained pine floorboards, deep-set skirtings, and a retained concrete hearth. Built-in storage is provided by a substantial six-door oak-veneered wardrobe, with matching high-level cupboards above.

### **Bedroom Two**

A further double bedroom located centrally within the house, with a traditional three-light window overlooking the rear garden. The room is finished in light blue emulsion and offers space for freestanding bedroom furniture. Exposed, stained pine floorboards and a retained painted concrete hearth continue the period feel.

### **Bedroom Three**

A single bedroom with a traditional two-light window overlooking the rear garden. The room is finished in emulsion with deep-set skirtings, and retains exposed, stained pine floorboards. A built-in cupboard with a flush timber door provides useful storage and also houses the modern gas-fired combination boiler.

# Grounds

## Front Aspect

Set back from the High Street, the property presents an attractive Victorian façade constructed in roughly hewn, coursed limestone, with contrasting red brick quoins and window reveals.

A wide gravelled frontage provides off-road parking for several vehicles. Close-boarded fencing with a lockable, ledged and braced timber gate gives secure access to the side and rear gardens.

## Side and Rear Gardens

The gravelled side return is bordered by established planting and enclosed by close-boarded fencing. Within this area is a recently installed office pod (available by separate negotiation), together with a separate profiled steel storage unit, creating a useful work-from-home option alongside practical external storage.

The gravelled terrace provides a well-proportioned seating area and benefits from direct pedestrian access to the kitchen via a stable door, lending itself to day-to-day use and informal outdoor dining.

The main rear garden is predominantly laid to lawn, complemented by a raised planter to the right-hand side with established low-level trees and perennial planting. In the far corner, a timber garden shed sits alongside a pergola, providing sheltered space for additional seating.

## Garden Office (Available by Separate Negotiation)

A versatile home office with a durable plastisol finish. The unit is insulated and fitted with power and lighting, with grey ash sheet vinyl flooring. Natural light is provided by two full-height windows, each fitted with integral blinds and incorporating a single opening casement. Access is via a central door with a five-lever locking mechanism, and the office is served by a separate fused electrical supply. Well suited to home working, a studio space or hobbies, and available by separate negotiation.
