Stunning Eco-Friendly 4-Bedroom Detached Home with Exceptional Design & Features

Welcome to High Meadow in King's Newnham View, this beautifully presented, and energy-efficient four-bedroom detached home within a small private development on the edge of Church Lawford, first occupied in 2016 and meticulously maintained by the original owners. Combining cutting-edge eco credentials with premium interior finishes, this residence offers both comfort and sustainability in equal measure.

Marketed originally as an "Eco Home," it benefits from a Mitsubishi Ecodan air source heat pump, underfloor heating throughout the ground floor, double-glazed UPVC windows, and integrated roof-mounted solar panels (eight on each elevation), all designed to minimize your carbon footprint and energy bills.

Kitchen / Dining Area:

The heart of the home is a spectacular kitchen/dining space featuring Burbidge contemporary painted timber cabinetry, luxurious quartz work surfaces, and a host of top-tier Neff appliances, including an induction hob with downdraft extractor, combination microwave oven, warming drawer, and integrated fridge, freezers, and dishwasher. The space is enhanced with thoughtful details like a pop-up power socket in the island, Belfast Villeroy & Boch double butler sink, integrated larder cupboard that has oak drawers and shelves with PIR sensing LED lights and designer lighting across three zones. Ceramic flooring runs seamlessly through the hallway, utility, cloakroom, and garden room.
