A further door leads from the kitchen into the utility room where there is a window to the side and door leading to the rear garden, along with space for an American Fridge Freezer. Back through the entrance hall a door gives access to the sitting room which has been extended to create a much larger room and has an inset wood burner and French doors leading to the rear paved terrace, at the foot of the sitting room twin doors lead into a study area with window to the side and into the conservatory beyond which is of uPVC construction and also has French doors leading to the rear terrace.

To the first floor there are four bedrooms with bedroom one having dual aspect windows overlooking the rear garden whilst bedrooms two and three are both double rooms with uPVC windows and bedroom four is a single sized room, which has two roof lights to the side elevation. ### Externally

To the front of the property there is an area of raised lawn with off street parking provided upon the gravel driveway, double gated access leads to the side of the property which intern leads to the former single width garage which has been converted to provide a storage space, which in our opinion could be converted to create a work from home office space (subject to required consents being obtained).

To the immediate side and rear of the property there is a paved terrace with steps leading down to the rear garden which is mainly laid to grass with some established tree and shrub planting. To the foot of the garden is a further area of paving which extends to the full width of the rear garden, with a timber constructed shed located upon.
