LOCATION:

The property is located on the established Guildford Road Industrial Estate, a strategic location well positioned to serve Hayle, St Ives and Penzance. Enviaible access to the A30 trunk road which in turn connects with the M5 providing an excellent base for logistical operations. Guildford Road Industrial Estate is home to a variety of businesses including Rigibore, RB Sails, Chenpump, BHGS, Citrus Print Solutions, Kernow Oils, Hayle MOT & Services, Terrill Bros (Founders) etc.

PREMISES:

The premises sits within a fenced and gated compound. The majority of the curtilage is laid to concrete/hard standing with some landscaping to the perimeter. The property presents as 3 primary areas:

Reception/office/staff welfare section

A light, airy and inviting reception area with a large glass frontage provides a welcoming customer experience and offers direct access to the adjacent boardroom or offices/welfare areas and internal door to the workshop beyond. The majority of the offices and rooms have natural light via either external windows or roof lights.

Workshops 1&2

A large generally unencumbered floor plate with 2 x roller shutter doors sits beneath a twin apex sheet profile roof.

The external walls are of block construction and the frame primarily of steel portal construction*. A generous proportion of translucent roof sheets and windows to the rear of the property assist with natural light. Currently 3 x internal workshop areas are present to provide independent areas for specific tasks, these could potentially be removed by a purchaser. The workshop provides direct access to welfare areas with lockers, crib room, toilet and handwashing facilities. A pit is present although currently boarded over.

*A small section of the original 'AtCost' concrete portal frame remains.

Workshop 3

Accessed from the adjacent workshop, this is the most modern part of the building and provides a large unencumbered floor plate with a lower density of uprights supporting a wide span with a single central apex. 2 x Roller shutter doors provide vehicular access. The external walls are of block construction and the frame of steel portal construction. A generous proportion of translucent roof sheets and a large window section to the rear of the workshop assist with natural light.

Heating

The offices are heated via a wet (radiator) system powered by a newly replaced oil fired boiler.

SCHEDULE OF ACCOMMODATION:

The property provides the following approximate areas:

Workshops 1&2

8,125 sq ft (754.9 sq m)

Roller doors 5m x 3m

Workshop 3

10,624 sq ft (987 sq m)
