WELL PLACED & WELL CONNECTED

Prologis Park West London is an established and well-managed logistics park, in a prime location.

It is strategically positioned to access the major consumer markets of West and Central London, Heathrow Airport and Thames Valley. Two units are available now, DC5 (194,433 sq ft) and DC6 (143,053 sq ft).

Flexibility coupled with a prime location, first-class build quality and best-in-class sustainability is a desirable, and highly rare combination. Prologis Park West London DC5 and DC6 offer a unique opportunity to occupy West London's best connected and highest specified space on flexible lease terms.

Sally Duggleby
Vice President, Head of Leasing

COOL EARTH

To make a real difference and ensure we play our part in reducing carbon emissions for the long-term, we mitigate five times the unavoidable embodied carbon emissions in our buildings. We do this by working with Cool Earth, a charity that works with local people in Papua New Guinea to halt deforestation and climate change.

Through our partnership with the charity Cool Earth, your building helps protect acres of rainforest, in Papua New Guinea.

EXCELLENCE IN DESIGN & CONSTRUCTION

Prologis, a market leader in industrial logistics property.

As high-specification builds become more commonplace within modern distribution centres, pushing the boundaries in terms of customer-centric design is becoming more important than ever before. Staying ahead and remaining a leader means ensuring that our products are constantly evolving.

In a bid to continually push for the highest construction standards, Prologis are driving innovation that truly exemplify sustainable development methods and processes. Focusing on enhanced design aesthetics as well as functionality has led to space-making details becoming our norm. This focus elevates our warehouses from spaces that are purely used for work, to ones that can be enjoyed by employees too.

Incorporating the specific needs of our customers, from requests such as for more natural light and restroom facilities, with market leading net zero construction methods, means our buildings have set a new standard in the Industrial & Logistics sector.

OFFICE LED LIGHTING

Smart LED lighting in the offices ensures only active areas are lit when required, helping to reduce energy consumption.

RAINWATER HARVESTING

Helping to reduce the use of non-potable mains water, recycling natural rainwater.

15% ROOF LIGHTING

Rooflights maximises natural light, and reduces the need for artificial lighting.

ALL ELECTRIC BUILDING

All electric building allows for zero carbon operation.
