DEDICATED AND EXPERIENCED COMMERCIAL PROPERTY EXPERTS

Orbit Developments is the commercial division of The Emerson Group and was established in 1971 by Peter Emerson Jones. Since then, the company has grown to be one of the country's largest private commercial property developers and investment management companies, operating in the North West and South East of England and the USA, with an extensive portfolio of over 250 buildings across 7.5 million sq ft.

A PROFESSIONAL APPROACH

The Managing Director of Orbit Developments, Tony Jones, heads up an experienced team that manages a seamless provision of all services direct to our clients. In the UK alone we have just under 3 million sq ft of office space to rent and we pride ourselves in providing high quality offices to let.

LARGE PROPERTY PORTFOLIO

Our Orbit Southern team provide offices to let in the South East of England, including offices in Redhill, Brentford, Egham and directly opposite Heathrow Airport.

The Orbit Southern portfolio totals circa 450,000 sq ft and consists of 32 commercial buildings across 12 sites located throughout the South East of England, all within easy access of the M25.

OUR CUSTOMERS ALWAYS COME FIRST

We aim to meet the individual requirements of our clients by working together to adapt our properties to suit specific requests and create tailored packages.

We have a dedicated in-house property management team who are responsible for the day to day management of the portfolio and liaison with our clients. Our larger multi-let buildings and business parks have building managers working within the facilities management team who are based on site providing immediate client facing support.
