BLOOR HOMES

1969

THE YEAR WE
STARTED MAKING
DREAM HOMES A REALITY

At Poppy Fields, we are not only able to offer you a stunning location, we are also dedicated to building quality new homes that stand the test of time.

Visit one of our developments built 10 years ago and see how the community has developed along with the landscaping and house type designs. As one of the leading privately-owned house builders in the country, our success is based on strong traditions of quality, value for money and a genuine desire to build homes that give our customers years of pleasure.

The company is still owned by John Bloor who is actively involved within the day to day running of the business to ensure the high quality we pride ourselves on is achieved on all our homes.

Our approach to the design of every new location we produce goes far beyond the provision of superior homes for today's varied lifestyle. We make every effort to conserve the natural balance of each location including the conservation of wildlife and the preservation of natural features.

Care and consideration is also taken to ensure that the environmental impact of every new home we build is kept to a minimum.

Whichever home you choose, you will find that our homes with their high specification, provide not only maximum comfort, but greater freedom of movement.

Plus, reserve a Bloor home in the early stages of construction and you will have the freedom of choice to select from our range of finishes for your kitchen, bathroom and en suite facilities.

Once reserved, you will be able to take advantage of "Your Choice" which allows you to choose additional fixtures and fittings to personalise your new Bloor home, or upgrade to a higher specification from the standard range used on this development at an extra cost.

We are proud to be building at Poppy Fields in Lower Stondon bringing quality homes and developing communities.

Poppy Fields is perfectly placed for you to enjoy peaceful village life whilst being close enough to those essential larger town amenities. Everyday life is well catered for within the village itself with independent local shops, doctors surgery, post office, hairdressers and a variety of other locally run facilities.

Lower Stondon itself is positioned in an area of rich history, being located near to RAF Henlow which produced aircraft in the 1920's and 30's and became one of the largest maintenance units in the country, serving many front line aircraft through the war.

The aviation backstory is something that runs throughout the area and something which we have honoured and reflected within the development of Poppy Fields. Those who have a very keen interest can take a look inside the RAF Signals Museum and immerse yourself further in the fantastic heritage of the surrounding area.
