welcome to a unique mix of retail,
commerce, cuisine & creativity.

“Fitzrovia is perfect for us and our staff. It’s a central location with everything we need on our doorstep; the creativity and buzz of the district has been a real stimulus to our business. Our staff enjoy the breadth and range of amenities and transport connections on offer in the local area. GPE manages our building which ensures a great level of service. Our advice to new occupiers? Get in quick!”

Michelle Aitcheson
SVP & Head of Human Resources,
Lionsgate UK

“We’ve been in Fitzrovia since 2004. It’s highly unlikely we’ll ever leave...Fitzrovia has a natural buzz – fantastic shops, cafés, restaurants and an eclectic mix of independent and chain stores. It’s well connected; its proximity to Regent’s Park gives us breathing space. The Make team never fails to be inspired. It’s unique in London.”

Ken Shuttleworth,
Founding Partner,
Make

“We chose Fitzrovia as it’s a fantastic location – it’s well connected making it easy for people to commute in. The choice of cafés, bars and restaurants is incredible and we have the convenience of having one of London’s best shopping destinations just round the corner. The location helps attract and retain talent too.”

Grace Bentley,
HR Manager,
Northzone

outperforms the industry
average of +6.8.**

*Net Promoter Score is the willingness
of our occupiers to recommend
GPE – scores are between a minimum
of -100 and a maximum of +100.

**2023/24 NPS score.

life with gpe

At GPE, we live by our four core values to make sure that we deliver sustainable nurturing spaces for your business to thrive.

Greater choice

Our customers and their desire for choice drive every decision we make at GPE. From where our properties are located to how they are managed. We unlock the potential for thriving, sustainable communities to experience great choice in London's most exceptional places.

Driving innovation

We embrace change and champion technology to drive performance, environmental efficiency and create more healthy and sustainable communities. Enjoy contactless access with sesame, our workplace app, plus other features depending on your needs.

Trusted Partners

We believe in the power of people and partnerships to create exceptional, climate-conscious places that deliver for our customers. Our efforts allow our customers to make more of every day, so they can focus on their business while we get on with the rest.

Future London

Seamlessly managed, tech-savvy buildings with memorable welcome experiences, plenty of space for agile working and designed with London's future in mind. We are building a sustainable legacy for this great city and committing to London's future, creating space for a thriving economy with positive social impact at the very heart of it.

1 Occupancy

Air Conditioning

- Fresh Air Provision: 12l/s per person @ 10m² / person.
- Cooling Provision: 10m² / person with an additional 10W/m² available via chilled water circuits for future tenant enhancements.

Lifts

- Capacity is provided via 3 x 1,000kg / 13-person passenger lifts located in the central atrium.
- Good's lift capacity: 13 persons / 1,000kg.

Toilet Provisions (building wide)

- Toilets are accessed via communal lift cores on each level.
- The provision across the whole building at an occupancy of 10m² / person inclusive of accessible WCs.

Means of Escape

- Level 1 and Level 2: 6.25m / person.
- Further details are set out in the fire strategy review by Fire Engineers JGA Jensen Hughes dated March 2021, available upon request.

2 Air Conditioning

Draft Specification

- Return perimeter heating, chilled water pipework and displacement systems for open plan configuration.
- Perimeter heating consists of trench heaters, LPHW pipework and 2-port motorised valves serving each zone (4 zones).
- Air displacement systems comprise supply air ductwork extending out from each core and aluminium floor swirl diffusers within the raised access floor.

Control of Displacement System

- All air ventilation system that provides cooling and ventilation is served by four air handling units at roof level.
- These feed dedicated supply and return air ductwork within each core riser.
- The supply air is discharged into the pressurised floor plenum and exits via adjustable swirl diffusers.
- The distribution of air from each air handling unit is split by floor void barriers.
- Space heating is via a perimeter heating system, fed from flow and return LPHW pipework distributed in the floor void to each trench heater.

Design Criteria

- Internal Winter Condition: 20°C +/- 2°C.
- Internal Summer Condition: 24°C +/- 2°C.

System Hours of Operation (core hours)

- 7am to 7pm Monday to Friday exc. bank holidays.

Control (BMS)

- The building wide Heating Cooling + Ventilation system is controlled by a central BMS (Trend 963) with head end located within the Landlord's Area.
- This regulates the thermal comfort levels on each floor automatically, responding to changes in outside ambient and on floor temperatures.
- A single space temperature sensor is provided to each zone of perimeter heating.
- The Trench heater branch valves are modulated via a PI control loop from the BMS to maintain the space temperature set point.
- The perimeter LPHW valves are enabled when the temperature drops below the designated floor area temperature set point and also in an Optimizer Heating Boost condition, Frost condition and during a Valve Exercise routine.

3 Electrical

Small Power rate per m²

- Small Power (BCO) 2019 is 20W/m².
- Lighting (BCO) 2019 is 8W/m².
- Spare capacity on the floor is 5W/m² small power and 7W/m² lighting.

Mechanical Services rate per m²

- BCO 2019 is 5W/m².

4 Lighting

- Lighting to the open plan office floor comprises LED 45 Lichtkanal recessed fittings supplied by Fagerhult.
- Lighting control is using the Fagerhult “Organic Response Technologies” system with each linear run incorporating a control node which houses motion, infra-red, and BLE sensor.
- The system provides daylighting and movement sensing, with local control available via the Sesame App.
<https://www.fagerhult.com/pl/lighting-control/organic-response/how-it-works/>
- Lux Level are 300-500 lux at desk level. Emergency lighting when operated will provide 0.5 lux.

5 Finishes

Office

- Perimeter walls: painted plaster – white RAL 9003.
- Ceilings: painted plaster – white RAL 9003.
- Perimeter includes full height glazing with blinds to the building exterior.

Toilet

- Wall and floor tiles: Domus EME range.
- Perimeter walls: green paint RAL 6028.
- Ceilings: painted plaster – white RAL 9003.
- Walnut fluted panel.

6 Structural Grid

- The building is set out principally on a 7.5m x 7.5m and 7.5m x 6m grid.

7 Floor Loading

- Typical floor loading is 5 kN/m² (4.0+1.0 partitions) live load.
- Superimposed dead 1.0 kN/m² (raised floor and services).

8 Generally

- Floor to ceiling height is 2,835mm.
- Existing raised floor has an overall build-up of 445mm, tile thickness is 35mm, Service void is 415mm.

9 Passenger Lifts

Lift speeds

- 1.6m/s.

Finishes

- Metalwork PPC RAL 9005 30% gloss.
- Walnut fluted panel.
- Silver mirror panel safety backed .
- Port 4 destination control.

10 Sustainability

- Ska Gold Certification.
- EPC Rating B.

11 Building Security

The on-site team at Wells & More (45 Mortimer Street) includes:

- Occupier Services Manager and FM resource (cleaning / maintenance);
- Reception service during core office hours; and
- 24-hour security.

12 Other Information

No. of cycle spaces

- Two tier rack spaces: 30.
- U shaped stands: 8.
