REAR GARDEN

The rear garden is a particularly attractive feature and has been meticulously maintained by the current owner since the property was bought back in 1975. Running across the rear of the property is a paved terrace. The elevation is due south east, so the garden is in sunshine through virtually the entire day. The rear garden has a depth of 66' and the rear boundary measures 47' in width. The paved terrace is retained by a low level brick wall and the remainder of the garden has been laid to lawn, bordered with a mature array of shrubs and plants that provide additional interest, colour and privacy. This property has spacious off street parking which leads to a detached single garage fitted with an up and over door.

FRONT GARDEN

This most intriguing property is set far back from the Lane behind a deep lawn and very well tended and stocked flower beds. Established trees provide additional screening and, as previously mentioned, the property is located directly opposite St. Mary the Virgin Church with unique views from all elevations. A wooden gate leads to a pathway that opens conveniently to the Courage playing fields and the Bluebell Wood is just a short walk away.
