UNCOVER A RICH AND FASCINATING HERITAGE WITH A LITERARY TWIST

Some would say it’s the town’s literary heritage which really put Sevenoaks on the map. H.G. Wells wrote The Time Machine in Sevenoaks, both Charles Dickens and Jane Austen lived here for a while, and Knole was the childhood home of the author, poet and garden Vit Sackville-West.

Quinton Court itself is built on the former J. Salmon printworks, once the UK’s foremost postcard publishers. The company’s most beloved work was painted by A.R. Quinton, who specialised in watercolours of classic English scenes – and inspired the name of this development.
Presenting a striking new addition to London Road, Quinton Court is designed to be harmonious with Kent’s traditional local architecture.

Thoughtful landscaping helps to create a warm and welcoming atmosphere, including a stunning communal garden with a designed water feature providing a tranquil setting to sit and relax.

Every home benefits from secure underground car parking, offering convenient access in a dry environment. Cycle spaces and electric charging points are also available.

The building itself draws on the historic context of the area by using materials such as red brick, render and stone and slate detailing. The range of buildings that compose Quinton Court create an intriguing, generously detailed façade that boasts a rare balance of characterful heritage and a contemporary finish.

Each floor is layered with bay windows, terraces or balconies and carefully considered architectural detailing. The building’s approach features elegant trees, box hedges and trailing ivy, whilst ornamental shrubs introduce some vibrancy to either side of the imposing formal entrance, welcoming you home.

GREEN LIVING AND SUSTAINABLE DEVELOPMENT IS TOP OF OUR AGENDA

As a company, we are committed to reducing energy, water and waste on our construction sites, in our offices and in the homes that we build. Almost all of our developments are built on brownfield land and we always take care to protect and enhance biodiversity and natural habitats. Our homes include features to encourage sustainable living such as dual-flush WCs, recycling bins and energy efficient white goods.

QUALITY IS AT THE HEART OF EVERYTHING WE DO

At Berkeley, quality takes precedence. From choosing the right location and style of home, to the construction processes we practice, the materials we use and the specifications we put into our homes. A COMMITMENT TO CREATING SUSTAINABLE COMMUNITIES

Berkeley’s homes and developments are not just built for today. They are designed to enhance the neighbourhoods in which they are located permanently. We achieve this through our commitment to excellence in design, sensitive landscaping, sympathetic restoration, and impeccable standards of sustainability. We aim to address the needs not only of our customers but their neighbours and the broader community of which they are a part. It is a long-term view: we want to create exceptional places for people to live, work and relax in, and build communities that will thrive today and for years to come.

From city penthouses to country retreats, modern studio apartments to traditional family homes, you will find the perfect home to match your requirements. Our homes are also built in some of Britain’s most desirable locations from market towns and rural villages to major towns and cities, and countryside to the coast – we build in the locations you want to live.

A COMMITMENT TO THE FUTURE

Over the years, the Berkeley Group has won many prestigious awards for the quality, design and sustainability of its developments. Our Vision is Berkeley’s strategic plan for the business, designed to raise standards higher still. Our goal is to be a world-class business, defined by the quality of the places we create, generating long-term value and having a positive impact on society. We take our responsibilities towards our customers, the environment, our workforce and the communities in which we work very seriously. Our plan for the business has five areas of strategic focus: Customers, Homes, Places, Operations and Our People.

OUR VISION

To be a world-class business, defined by the quality of the places we create, generating long-term value and having a positive impact on society

GREAT PLACES

We seek to create strong communities where people choose to live, work and spend their time and which directly encourage people’s wellbeing and quality of life. These are places characterised by the quality of their design, external spaces, transport and access to jobs and amenities.

HIGH QUALITY HOMES

We aim to build high quality, well-designed homes with low environmental impact, where customers have the opportunity to achieve healthy, comfortable and sustainable lifestyles, now and in the future. Attention to detail in design is paramount to ensure our homes meet the needs of our customers.

EFFICIENT AND CONSIDERATE OPERATIONS

We reduce the impact of the construction process on the local community by registering all of our sites with the Considerate Constructors Scheme. We set targets to reduce water, energy and waste. We work with our supply chain to ensure high quality services and materials are consistently provided.

A COMMITMENT TO THE FUTURE

The safety, health, wellbeing and development of our people is a high priority. We aim to have a positive impact on society through our support of the Berkeley Foundation.

We set up the Berkeley Foundation in 2011. It supports voluntary sector organisations to improve people’s lives in the communities where we work, and last year worked with 49 different organisations and their beneficiaries. Our staff have been instrumental in making the Foundation grow, with over 60% getting involved last year and raising over £935k. They also give their time and skills, for example by mentoring young people to help them become more confident and job ready.

Since its launch, the Foundation has committed over £14.9 million to more than 100 charities and worthy causes. Berkeley Group covers all overhead costs, so all money raised goes directly to charitable causes.
