What our customers say

This image includes upgrades at an additional cost

“ At Prince’s Quay, I was buying into a lifestyle. Having lived in New York for almost 10 years it was important for me to purchase a property which reflected the cosmopolitan lifestyle I was leaving behind.

apart from my work colleagues on video calls. It’s fair to say they now feel like my extended family. ”

Sustainability the Cala way

Cala has a rich heritage originally dating back to 1875. We started building homes in the 1970s and, for over 50 years, have been creating high quality, sustainable new homes and communities. However it is not just what we do, but the way we do it that matters to Cala.

Thinking sustainably is at the heart of everything we do; from identifying the right sites, through creating a safe, healthy and fulfilling working environment, to taking a sensitive approach to development and delivering communities that meet local requirements.

As part of our sustainability journey we are aiming to reduce our paper usage by 90% across the company, including the customer journey, which is why we are aiming for online only brochures at our developments.
