Introduction

Our Comments

Alistair's comments...

Welcome to this beautiful four-bedroom, L-shaped home, crafted from charming Cotswold stone and set on a generous corner plot. From the moment you step inside, you'll appreciate the space and natural light that fills every room.

The heart of the home is the triple-aspect kitchen and breakfast room – it's bright, airy, and perfect for everyday living or weekend entertaining. There's also a separate dining room featuring a lovely bay window, ideal for family meals or special occasions. The lounge is a cosy and inviting space, with double doors that open directly onto the rear garden. The garden itself is low maintenance, with faux grass making it easy to enjoy all year round.

Upstairs, you'll find four comfortable bedrooms and two well-appointed bathrooms, providing plenty of space for family or guests.

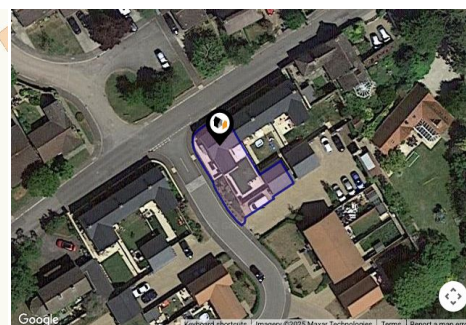

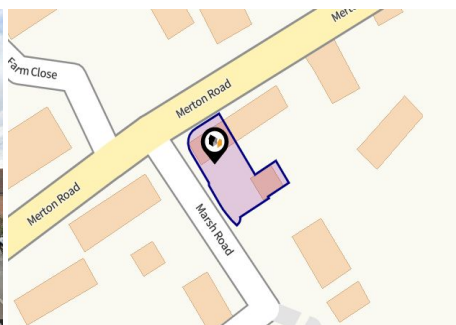

One of the standout features is the double garage, complete with electric doors – a practical and secure addition.

Best of all, the property is offered chain free, so you can move in with less hassle.

This house would be a joy to live in – full of character, light, and comfort – and I'm sure it will make a wonderful home for its next owners.

Please note there is a small maintenance fee of approx £300 per year.

Property Overview

Property

Type:	Terraced	Tenure:	Freehold
Bedrooms:	4		
Floor Area:	1,259 ft ² / 117 m ²		
Plot Area:	0.08 acres		
Year Built :	2017		
Council Tax :	Band D		
Annual Estimate:	£2,464		
Title Number:	ON335372		

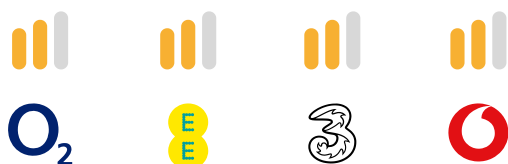

Local Area

Local Authority:	Oxfordshire
Conservation Area:	No
Flood Risk:	
• Rivers & Seas	Very low
• Surface Water	Very low

Estimated Broadband Speeds (Standard - Superfast - Ultrafast)

Maps

Coal Mining

This map displays nearby coal mine entrances and their classifications.

Mine Entry

- ✕ Adit
- ✕ Gutter Pit
- ✕ Shaft

The Coal Authority has records of over 175,000 mine entries within the UK captured in the National Coal Mining database, derived from sources including abandonment plans, geological and topographical plans.

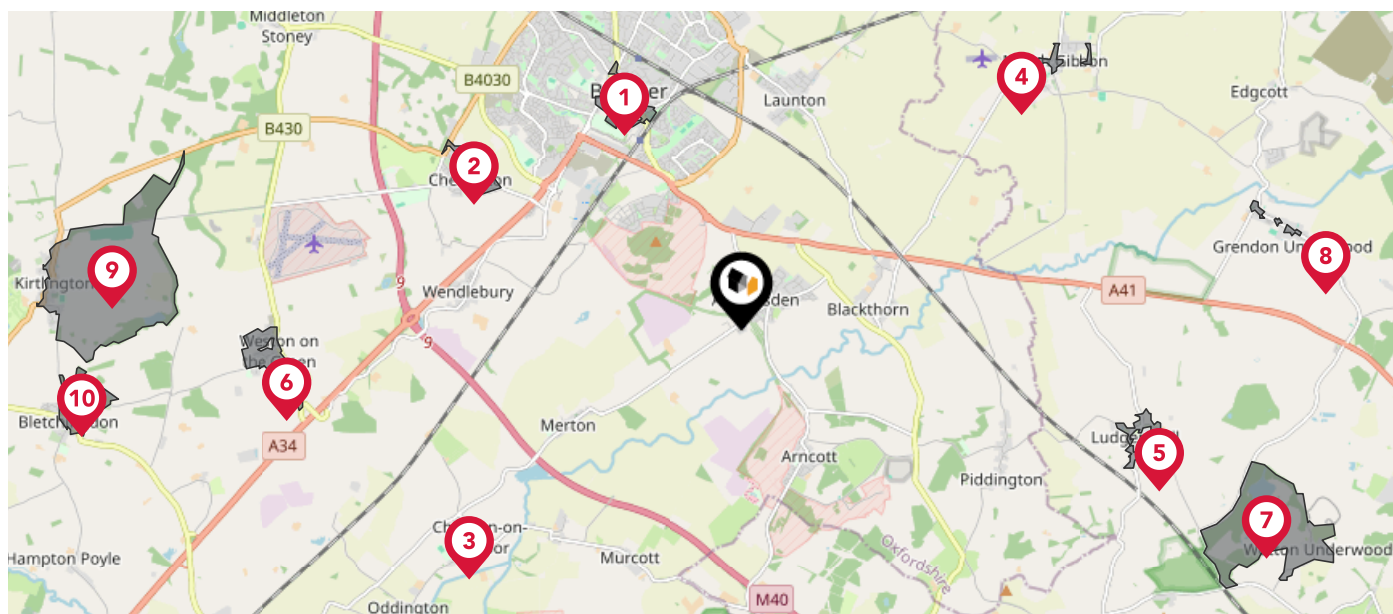

Coal mining activity is recorded as far back as the 13th century, but prior to 1872 there was no requirement to deposit abandonment plans. It is therefore believed there may be many unrecorded mine entries of which the Authority has no information or knowledge. These entries do not, therefore, appear within the Authority's national dataset as shown on this map.

Maps

Conservation Areas

This map displays nearby official conservation areas. Every local authority in England has at least one conservation area. Most are designated by the Council as the local planning authority, though Historic England and the Secretary of State also have the power to create them.

Maps

Rail Noise

This map displays the noise levels from nearby network rail and HS1 railway routes that affect this property...

Rail Noise Data

This data indicates the level of noise according to the strategic noise mapping of rail sources within areas with a population of at least 100,000 people (agglomerations) and along Network Rail and HS1 traffic routes.

The data indicates the annual average noise levels for the 16-hour period between 0700 - 2300.

Noise levels are modelled on a 10m grid at a receptor height of 4m above ground, polygons are then produced by merging neighbouring cells within the following noise classes:

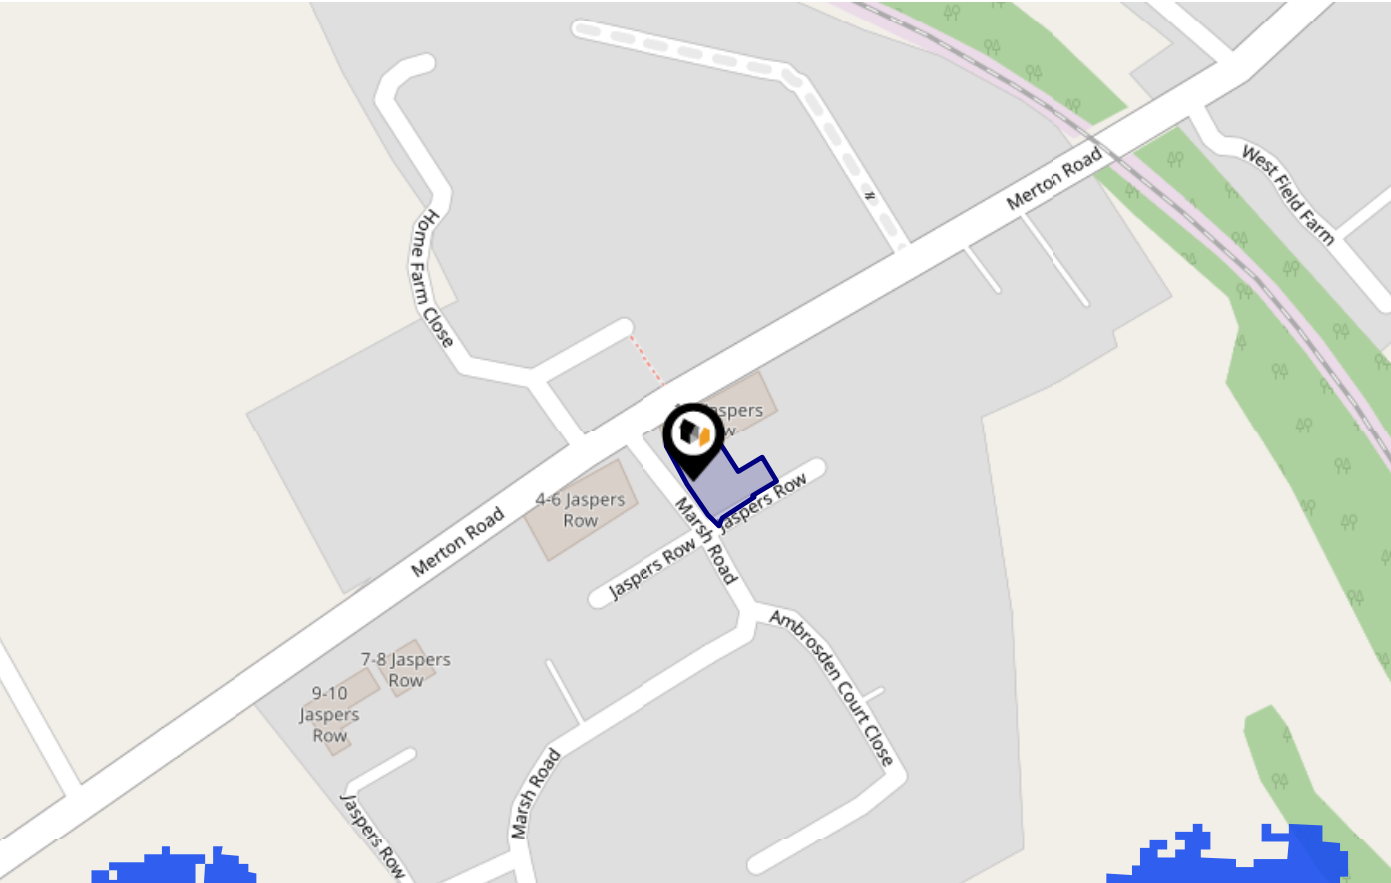

5		75.0+ dB	
4		70.0-74.9 dB	
3		65.0-69.9 dB	
2		60.0-64.9 dB	
1		55.0-59.9 dB	

Flood Risk

Rivers & Seas - Flood Risk

This map shows the chance of flooding from rivers and / or the sea, taking into account flood defences and their condition.

Risk Rating: Very low

The map does not contain sufficient information for it to be used to determine flood risk to individual properties, but it does give you an indication of whether your area may be affected by surface water flooding at this risk level.

- High Risk** - an area which has a chance of flooding of greater than 1 in 30 (3.3%) in any one year.
- Medium Risk** - an area which has a chance of flooding of greater than 1 in 100 (1.0%) in any one year.
- Low Risk** - an area which has a chance of flooding of greater than 1 in 1000 (0.25%) in any one year.
- Very Low Risk** - an area in which the risk is below 1 in 1000 (0.25%) in any one year.

Chance of flooding to the following depths at this property:

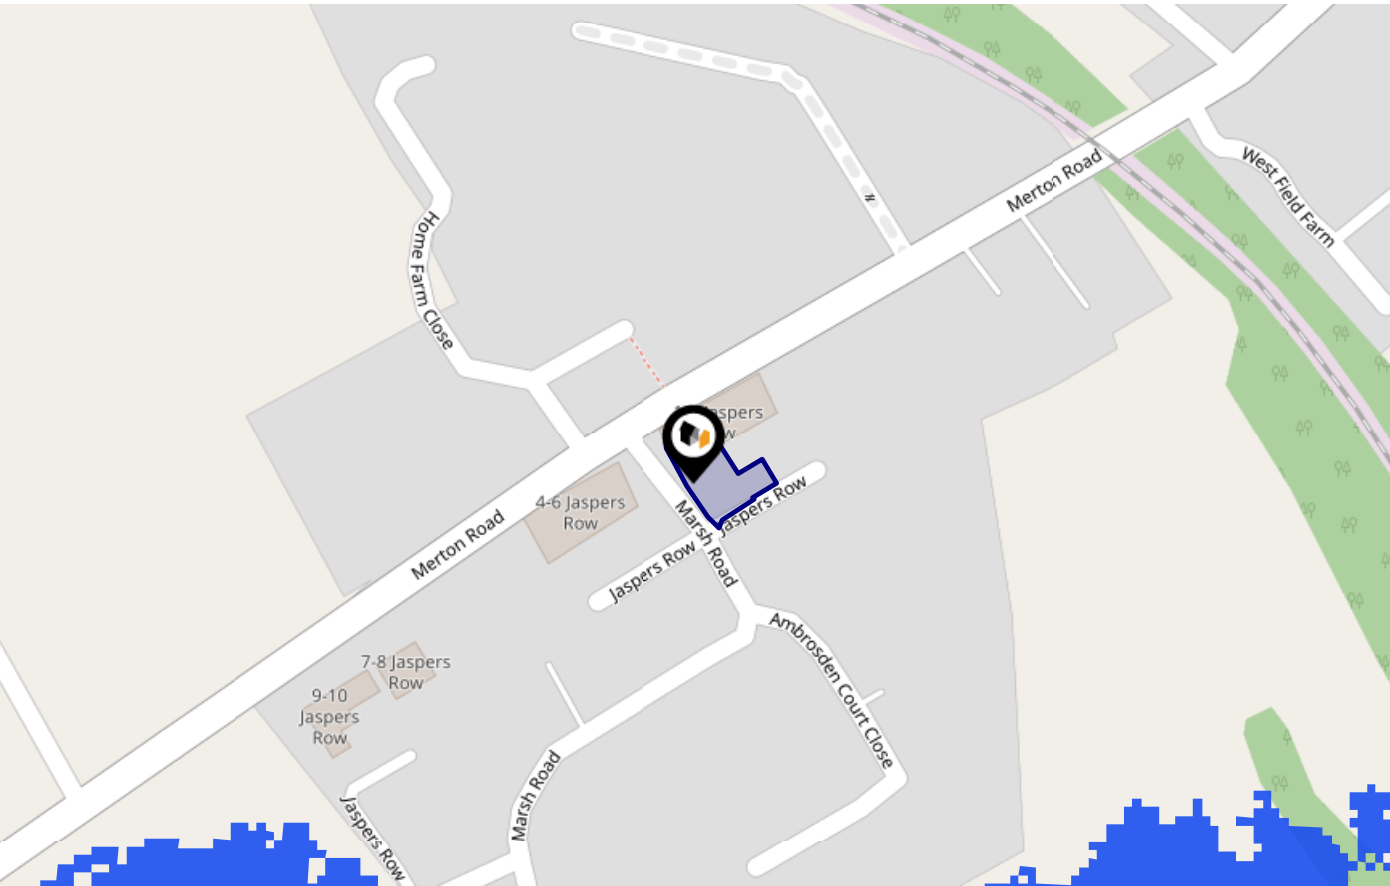

Flood Risk

Rivers & Seas - Climate Change

This map shows the future chance of flooding from rivers and / or the sea **between 2036 and 2069**, taking into account flood defences and their condition. The government climate change models cannot predict exactly when the chance of flooding will go up. It could happen at any time during the time period.

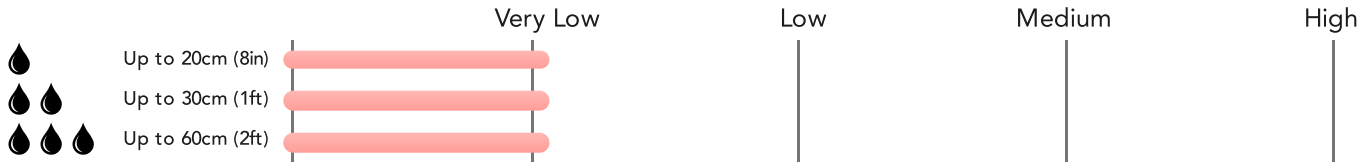

Risk Rating: Very low

The map does not contain sufficient information for it to be used to determine flood risk to individual properties, but it does give you an indication of whether your area may be affected by surface water flooding at this risk level.

- Power Pylons
- Communication Masts

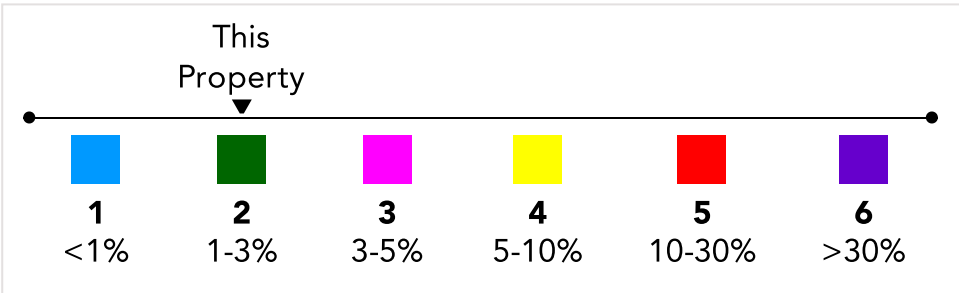

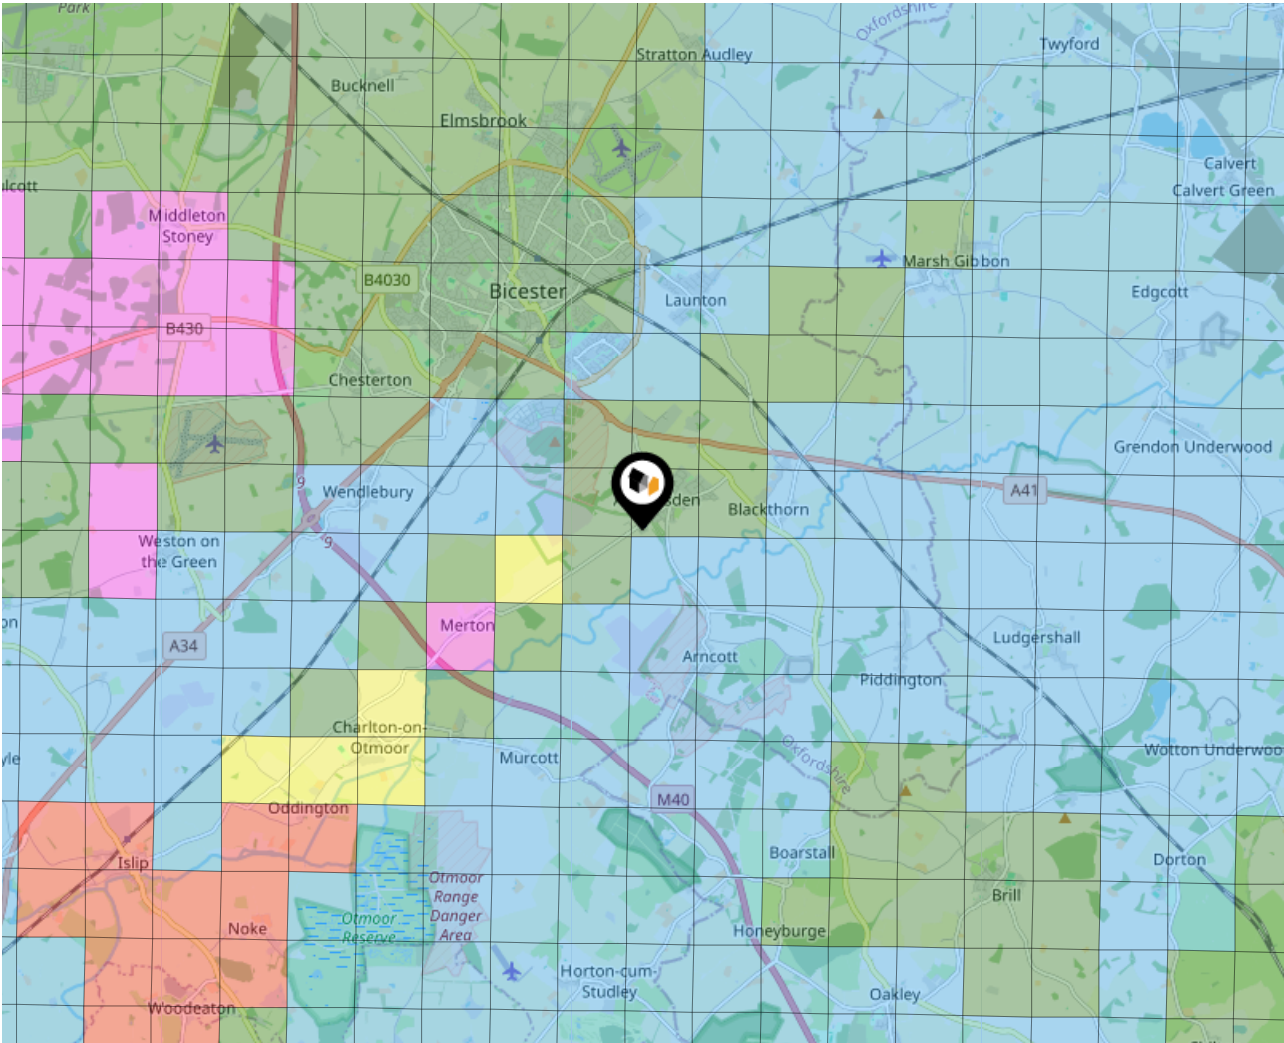

Environment

Radon Gas

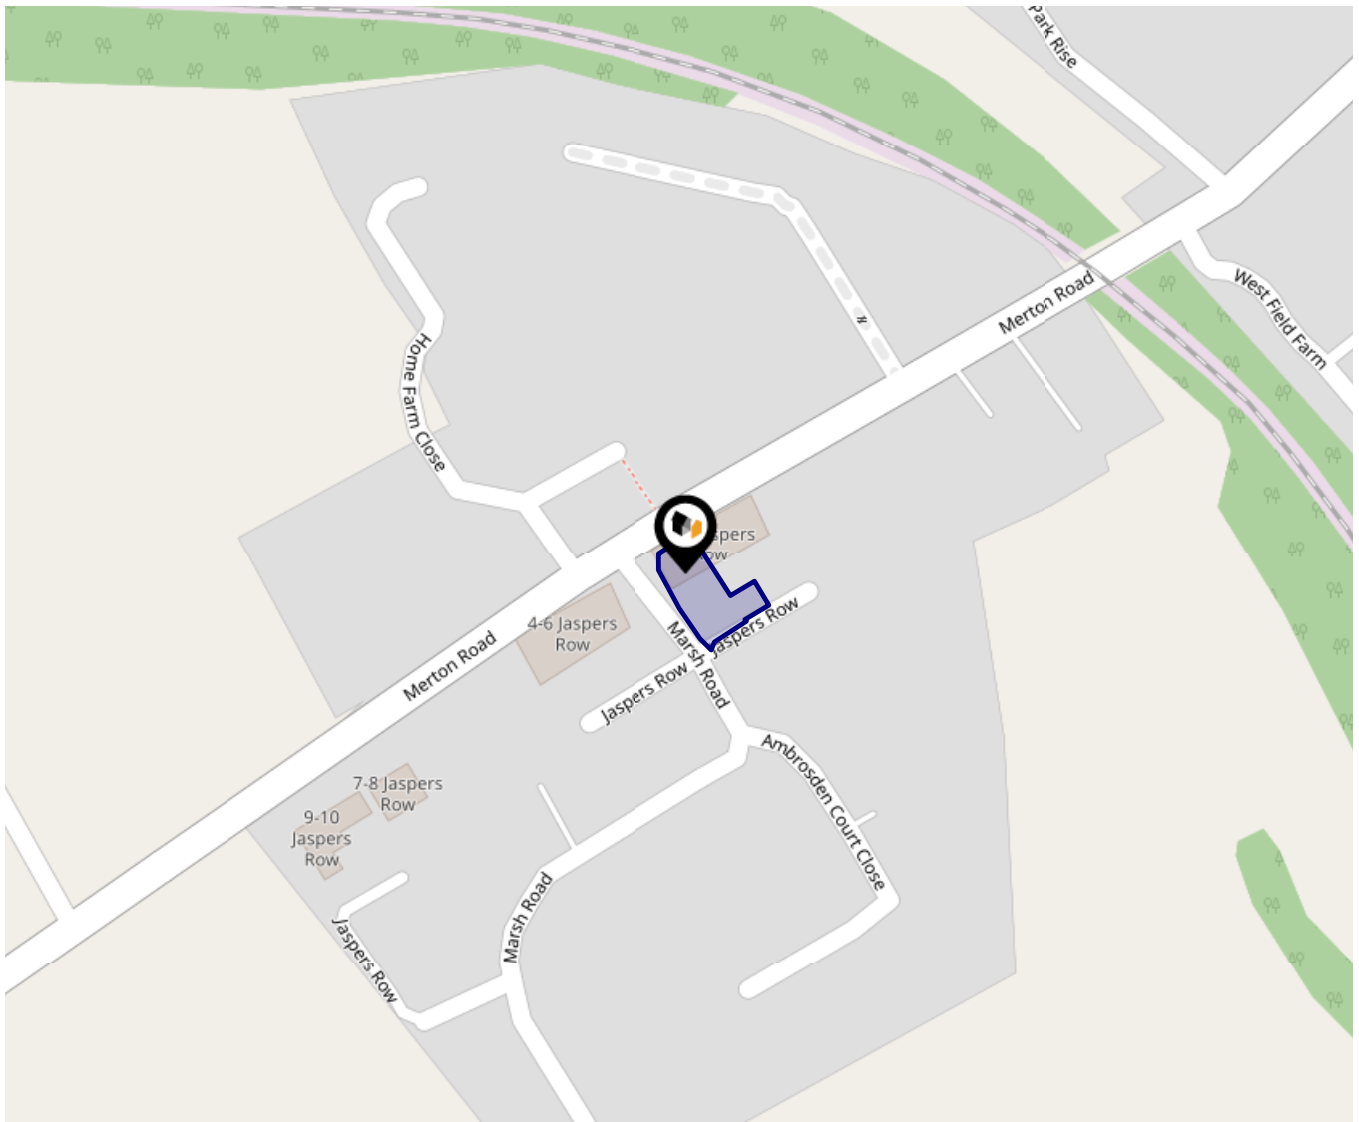

What is Radon?

Radon is a natural radioactive gas, which enters buildings from the ground. Exposure to high concentrations increases the risk of lung cancer. The UK Health Security Agency (UKHSA) recommends that radon levels should be reduced in homes where the annual average is at or above 200 becquerels per cubic metre (200 Bq/m³).

Local Area

Road Noise

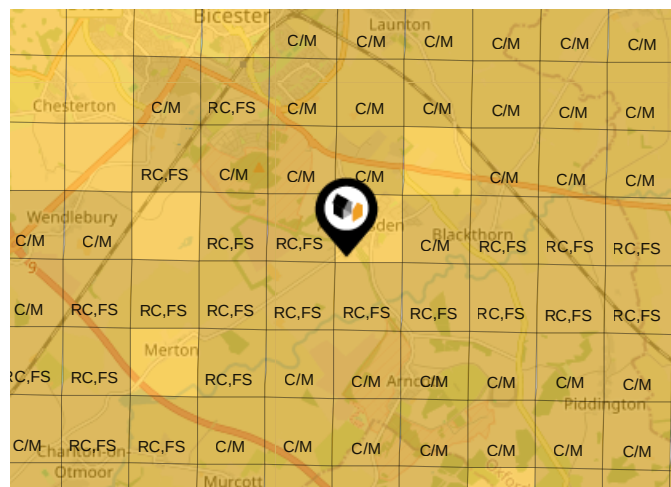

This data indicates the level of noise according to the strategic noise mapping of road sources within areas with a population of at least 100,000 people (agglomerations) and along major traffic routes. This indicates a 24 hour annual average noise level with separate weightings for the evening and night periods.

Noise levels are modelled on a 10m grid at a receptor height of 4m above ground, polygons are then produced by merging neighbouring cells within the following noise classes:

- 75.0+ dB
- 70.0-74.9 dB
- 65.0-69.9 dB
- 60.0-64.9 dB
- 55.0-59.9 dB
