Introduction

Our Comments

Seller's comments...

I loved living in my two-bed cottage in rural Oxfordshire for its perfect blend of charm, peace, and community. The cottage itself held character—cosy rooms, lovely sunlight and Otmoor on my doorstep. With great links to Oxford, Bicester & London the village was still quiet, surrounded by rolling countryside and birdsong. There was a real sense of community too - friendly neighbours, local pubs, village fetes - that made you feel connected. I will be sad to go but hope it can be as special for the next owner as it was for me.

Agent's comments...

Upstairs are two comfortable bedrooms, complemented by a well-fitted bathroom.

Outside, the property enjoys a private courtyard garden, ideal for low-maintenance outdoor living, along with the rare benefit of two allocated parking spaces.

With its character, charm, and peaceful village position, this cottage makes an ideal home for those seeking a countryside setting without compromising on access to nearby towns and amenities.

Coal Mining

This map displays nearby coal mine entrances and their classifications.

Mine Entry

- ✕ Adit
- ✕ Gutter Pit
- ✕ Shaft

The Coal Authority has records of over 175,000 mine entries within the UK captured in the National Coal Mining database, derived from sources including abandonment plans, geological and topographical plans.

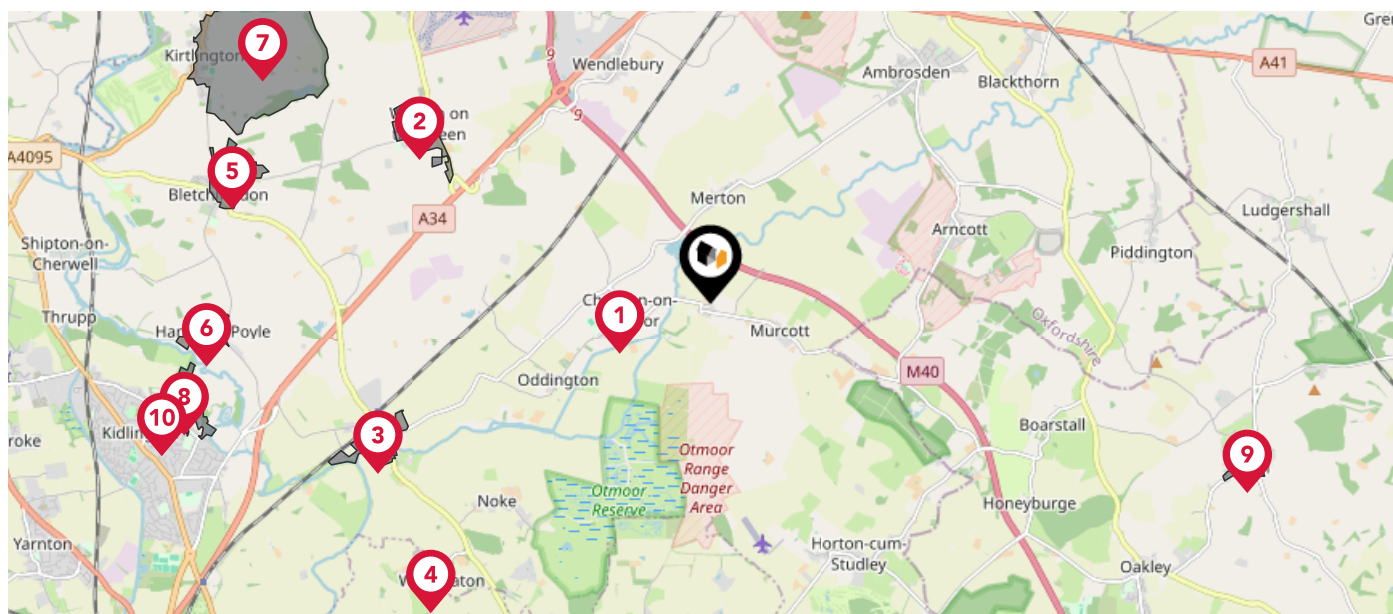

Coal mining activity is recorded as far back as the 13th century, but prior to 1872 there was no requirement to deposit abandonment plans. It is therefore believed there may be many unrecorded mine entries of which the Authority has no information or knowledge. These entries do not, therefore, appear within the Authority's national dataset as shown on this map.

Rail Noise Data

Noise levels are modelled on a 10m grid at a receptor height of 4m above ground, polygons are then produced by merging neighbouring cells within the following noise classes:

5		75.0+ dB	
4		70.0-74.9 dB	
3		65.0-69.9 dB	
2		60.0-64.9 dB

What is Radon?

Radon is a natural radioactive gas, which enters buildings from the ground. Exposure to high concentrations increases the risk of lung cancer. The UK Health Security Agency (UKHSA) recommends that radon levels should be reduced in homes where the annual average is at or above 200 becquerels per cubic metre (200 Bq/m³).

Avocado Property Testimonials

Testimonial 1

I was on the market with a local agent for nearly 10 weeks, I was recommended Alistair by a work colleague, He sold my property close to the asking price in less then 2 weeks. If you want a personal professional service, Alistair is definitely the guy to call, would highly recommended - Christine Corcoran

Testimonial 2

We decided to sell our property and chose to use Alistair and Avocado as they offered a different type of approach to selling. Alistair provided a far more personal and hands on service than we had experienced with high street agents previously. He steered us through a difficult chain and gave us sound advice on a daily basis, with real time facts. We would highly recommend him for his commitment throughout the journey - Maggi Wells

Testimonial 3

We moved our house sale from a high street estate agent to Alistair after he was highly recommended. We decided to move agent as we felt our house was not being seen as much as had hoped for. Alistair was great through the whole process. We couldn't recommend him any more, he made what could be a very stressful time very easy. Thank you - Emily Parker

Testimonial 4

We have recently bought a property through Alistair. His service was a breath of fresh air in comparison to many of the high street brands that we had bought and sold properties through in the past. He was efficient, reliable and trustworthy. We would recommend him without hesitation. - Holly
