### Property **EPC - Additional Data**

#### **Additional EPC Data**

**Property Type:** Flat

**Build Form: End-Terrace** 

**Transaction Type:** New dwelling

**Energy Tariff:** Standard tariff

Main Fuel: Electricity: electricity, unspecified tariff

Floor Level: Ground floor

**Flat Top Storey:** No

**Top Storey:** 0

**Previous Extension:** 0

**Open Fireplace:** 0

Walls: Average thermal transmittance 0.21 W/m-¦K

Walls Energy: Very Good

**Roof:** (other premises above)

Main Heating: Room heaters, electric

**Main Heating** 

Programmer and appliance thermostats **Controls:** 

**Hot Water System:** Electric immersion, standard tariff

**Hot Water Energy** 

**Efficiency:** 

Very Poor

Lighting: Low energy lighting in all fixed outlets

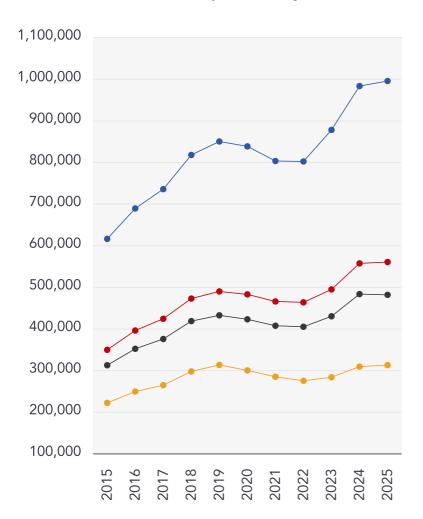

Average thermal transmittance 0.25 W/m-¦K Floors:

**Total Floor Area:**  $75 \, \text{m}^2$ 

## Market **House Price Statistics**

### 10 Year History of Average House Prices by Property Type in SL6

## Maps Coal Mining

This map displays nearby coal mine entrances and their classifications.

#### Mine Entry

× Adit

X Gutter Pit

× Shaft

The Coal Authority has records of over 175,000 mine entries within the UK captured in the National Coal Mining database, derived from sources including abandonment plans, geological and topographical plans.

Coal mining activity is recorded as far back as the 13th century, but prior to 1872 there was no requirement to deposit abandonment plans. It is therefore believed there may be many unrecorded mine entries of which the Authority has no information or knowledge. These entries do not, therefore, appear within the Authority's national dataset as shown on this map.

### Maps **Conservation Areas**

This map displays nearby official conservation areas. Every local authority in England has at least one conservation area. Most are designated by the Council as the local planning authority, though Historic England and the Secretary of State also have the power to create them.

Nearby Cons	servation Areas
1	All Saints, Boyn Hill, Maidenhead
2	Castle Hill, Maidenhead
3	Maidenhead Town Centre
4	Altwood Roadm Maidenhead
5	Furze Platt Triangel
6	Pinkneys green
7	Maidenhead Riverside (inc Boult Lock and Maidenhead Bridge)
8	Bray Village
9	Taplow Riverside
10	Holyport

### Maps **Council Wards**

The UK is divided into wards that are used for local elections to elect local government councillors. Sometimes these are known as 'electoral divisions'. Population counts can vary substantially between wards, but the national average is about 5,500

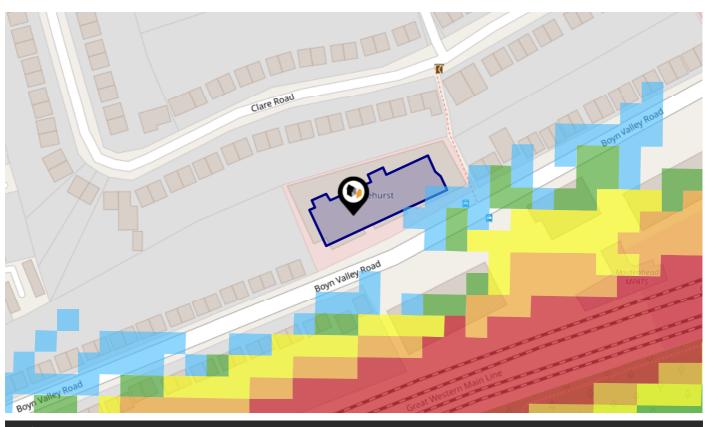

Nearby Council Wards				
1	Boyn Hill Ward			
2	Oldfield Ward			
3	Belmont Ward			
4	St. Mary's Ward			
5	Cox Green Ward			
6	Furze Platt Ward			
7	Pinkneys Green Ward			
8	Riverside Ward			
9	Bisham & Cookham Ward			
10	Cliveden Ward			

### Maps Rail Noise

This map displays the noise levels from nearby network rail and HS1 railway routes that affect this property...

#### Rail Noise Data

This data indicates the level of noise according to the strategic noise mapping of rail sources within areas with a population of at least 100,000 people (agglomerations) and along Network Rail and HS1 traffic routes.

The data indicates the annual average noise levels for the 16-hour period between 0700 - 2300.

Noise levels are modelled on a 10m grid at a receptor height of 4m above ground, polygons are then produced by merging neighbouring cells within the following noise classes:

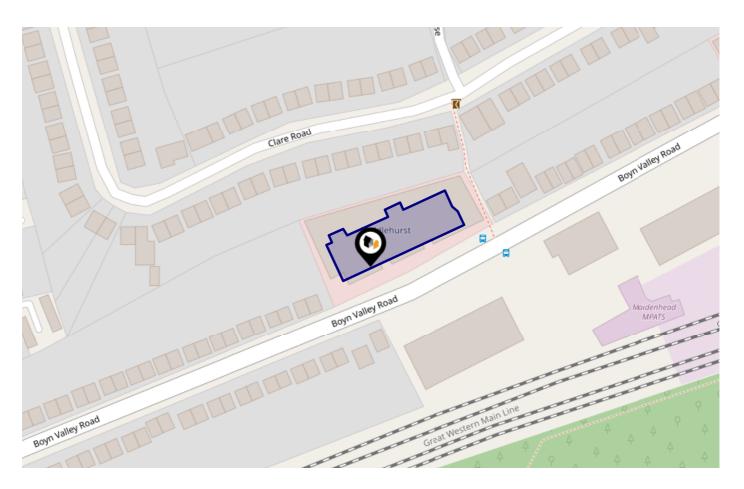

5	75.0+ dB	
4	70.0-74.9 dB	
3	65.0-69.9 dB	
2	60.0-64.9 dB	
1	55.0-59.9 dB	

### Flood Risk

### **Rivers & Seas - Flood Risk**

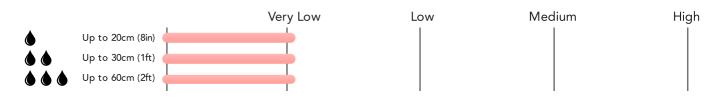

This map shows the chance of flooding from rivers and / or the sea, taking into account flood defences and their condition.

#### Risk Rating: Very low

The map does not contain sufficient information for it to be used to determine flood risk to individual properties, but it does give you an indication of whether your area may be affected by surface water flooding at this risk level.

- **High Risk -** an area which has a chance of flooding of greater than 1 in 30 (3.3%) in any one year.
- **Medium Risk -** an area which has a chance of flooding of greater than 1 in 100 (1.0%) in any one year.
- **Low Risk -** an area which has a chance of flooding of greater than 1 in 1000 (0.1%) in any one year.
- **Very Low Risk -** an area in which the risk is below 1 in 1000 (0.1%) in any one year.

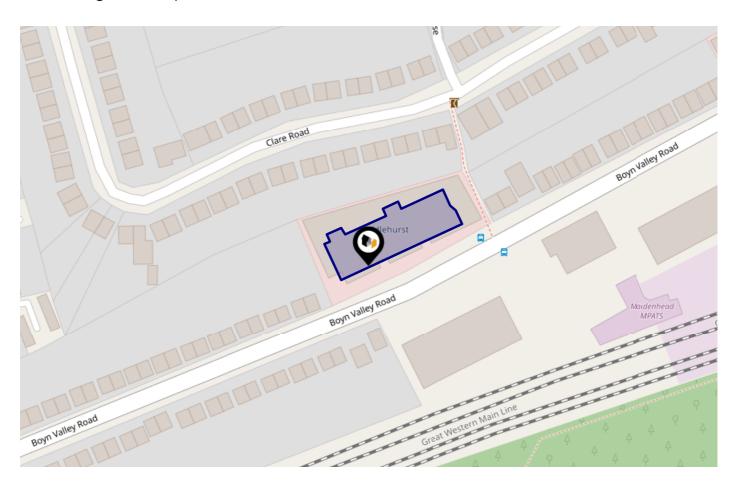

### Flood Risk

### **Rivers & Seas - Climate Change**

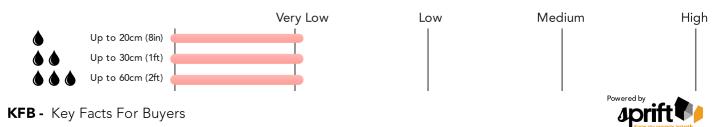

This map shows the future chance of flooding from rivers and / or the sea **between 2036 and 2069**, taking into account flood defences and their condition. The government climate change models cannot predict exactly when the chance of flooding will go up. It could happen at any time during the time period.

#### Risk Rating: Very low

The map does not contain sufficient information for it to be used to determine flood risk to individual properties, but it does give you an indication of whether your area may be affected by surface water flooding at this risk level.

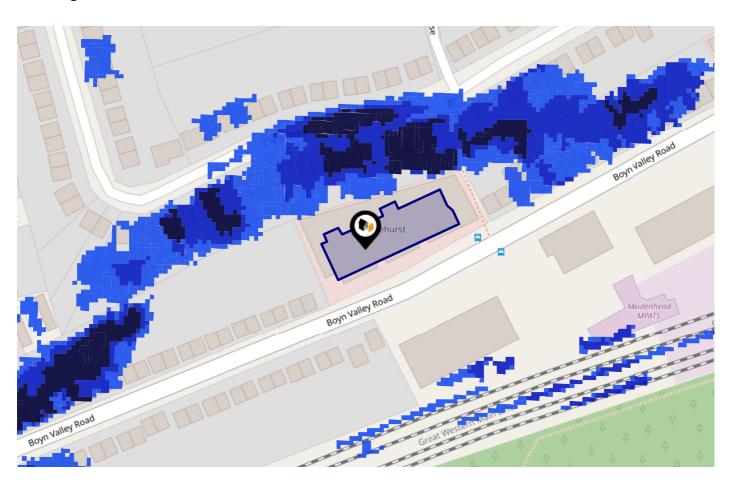

- **High Risk -** an area which has a chance of flooding of greater than 1 in 30 (3.3%) in any one year.
- Medium Risk an area which has a chance of flooding of greater than 1 in 100 (1.0%) in any one year.
- **Low Risk -** an area which has a chance of flooding of greater than 1 in 1000 (0.1%) in any one year.
- **Very Low Risk -** an area in which the risk is below 1 in 1000 (0.1%) in any one year.

### Flood Risk **Surface Water - Flood Risk**

This map shows the chance of flooding where rainwater has nowhere to drain. This kind of flooding can occur far from rivers or seas.

#### Risk Rating: Very low

The map does not contain sufficient information for it to be used to determine flood risk to individual properties, but it does give you an indication of whether your area may be affected by surface water flooding at this risk level.

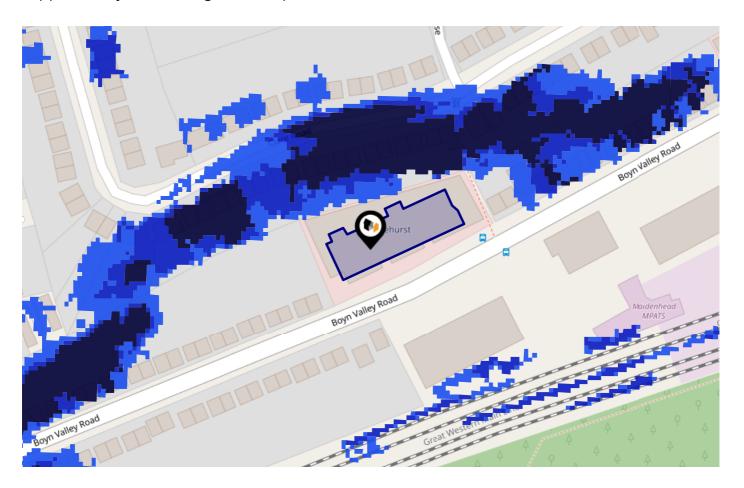

- **High Risk -** an area which has a chance of flooding of greater than 1 in 30 (3.3%) in any one year.
- **Medium Risk -** an area which has a chance of flooding of greater than 1 in 100 (1.0%) in any one year.
- **Low Risk -** an area which has a chance of flooding of greater than 1 in 1000 (0.1%) in any one year.
- **Very Low Risk -** an area in which the risk is below 1 in 1000 (0.1%) in any one year.

## Flood Risk **Surface Water - Climate Change**

This map shows the future chance of flooding **between 2040 and 2060** where rainwater has nowhere to drain. This kind of flooding can occur far from rivers or seas. The government climate change models cannot predict exactly when the chance of flooding will go up. It could happen at any time during the time period.

#### Risk Rating: Very low

The map does not contain sufficient information for it to be used to determine flood risk to individual properties, but it does give you an indication of whether your area may be affected by surface water flooding at this risk level.

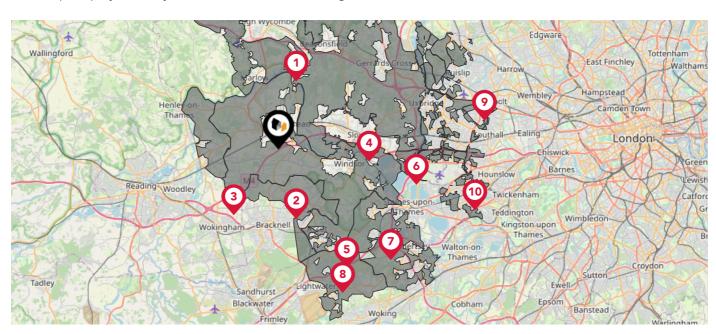

- **High Risk** an area which has a chance of flooding of greater than 1 in 30 (3.3%) in any one year.
- Medium Risk an area which has a chance of flooding of greater than 1 in 100 (1.0%) in any one year.
- **Low Risk -** an area which has a chance of flooding of greater than 1 in 1000 (0.1%) in any one year.
- **Very Low Risk -** an area in which the risk is below 1 in 1000 (0.1%) in any one year.

Communication Masts

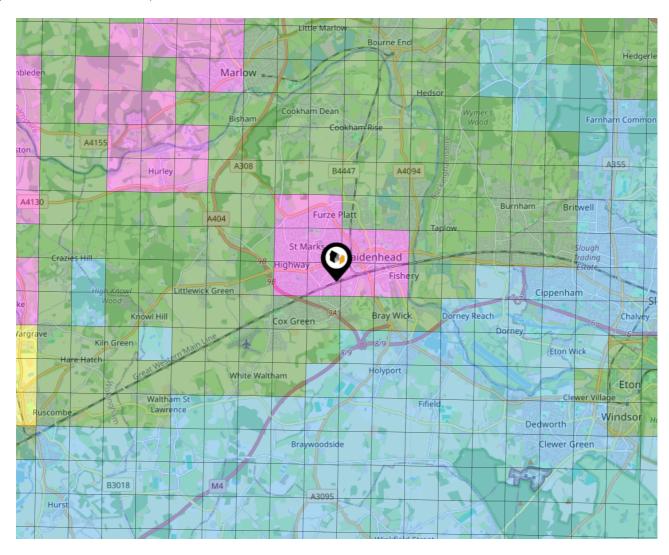

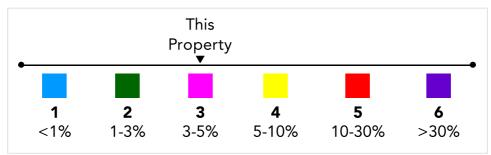

### Environment Radon Gas

#### What is Radon?

Radon is a natural radioactive gas, which enters buildings from the ground. Exposure to high concentrations increases the risk of lung cancer. The UK Health Security Agency (UKHSA) recommends that radon levels should be reduced in homes where the annual average is at or above 200 becquerels per cubic metre (200 Bq/m3).

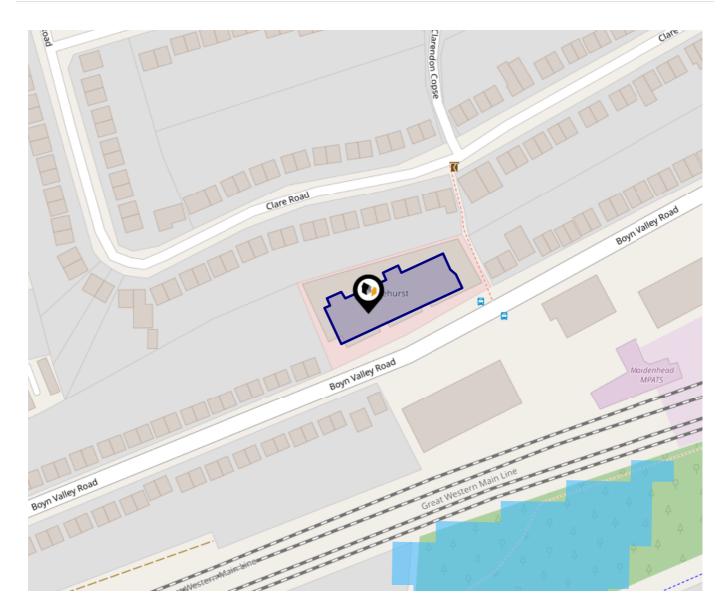

## Local Area Road Noise

This data indicates the level of noise according to the strategic noise mapping of road sources within areas with a population of at least 100,000 people (agglomerations) and along major traffic routes. This indicates a 24 hour annual average noise level with separate weightings for the evening and night periods.

Noise levels are modelled on a 10m grid at a receptor height of 4m above ground, polygons are then produced by merging neighbouring cells within the following noise classes:

- 75.0+ dB
- 70.0-74.9 dB
- 65.0-69.9 dB
- 60.0-64.9 dB
- 55.0-59.9 dB

### Avocado Property About Us

#### **Avocado Property**

We are proud to be different, we want to create a legacy as the business that positively disrupted the industry and challenged the estate agent status quo.

Our clients all get direct access to business partners who live locally and are part of their local community. We work with local businesses to help promote their companies free of charge and we give back to teachers, nurses and armed forces servicemen/women.

We are passionate about changing the industry, passionate about helping people move on to the next chapter in their lives and passionate about property.

## Avocado Property **Data Quality**

We are committed to comprehensive property data being made available upfront to make the home buying and selling process quicker, easier and cheaper. This is why we have partnered with Sprift, the UK's leading supplier of property-specific data.

### Contains public sector information licensed under the Open Government License v3.0
