## THE GRAND TOUR

Upon entering, the central hallway provides access to all living spaces. At the front of the property are the bedrooms: the largest of the three is situated to the right, featuring a large uPVC double-glazed window to the front and an updated radiator below. This spacious room accommodates a double bed and offers additional storage options. The two smaller bedrooms are on the opposite side of the hallway. The first is a double bedroom located at the front of the property, complete with carpeted flooring. Next door, a slightly smaller room is currently set up as a single bedroom, with a side-facing window and wall-mounted radiator. The main living area is further down the hallway and benefits from a historic extension, enhancing its versatility. This space opens with a sitting room that flows seamlessly into a dining room extension, which includes uPVC sliding doors leading to the rear garden. From the dining room, the kitchen is accessible, as is the central hallway. The kitchen features a range of wall and base-mounted storage units and accommodates freestanding appliances such as a fridge/freezer, oven, hob, and plumbing for a washing machine. This area has the potential to be made more open-plan if desired. Completing the interior is the three-piece family bathroom suite, also accessed from the central hallway. This generously sized bathroom features a fully tiled surround and flooring, a white suite, a wall-mounted radiator, an internal storage cupboard, and a shower over the bath.
