THE PROPERTY

Highcroft is a magnificent home offering over 3,000 sq. ft. of adaptable living space, surrounded by large wrap-around gardens and enjoying partial views of the bay. The property comprises a four-bedroom main residence and a two-bedroom annexe. Alternatively, it can function as a generous six-bedroom family home with three living rooms, two dining areas, a conservatory, and three bathrooms—offering exceptional flexibility for multi-generational living or home working.

THE ACCOMMODATION

The spacious and adaptable layout is the result of three significant extensions since its original construction as a bungalow in the late 1950s. In 1977, a first floor was added; in 1994, a grand entrance hall and large sitting room with vaulted ceilings and a wood burner were constructed; and in 2013, the current owners added a substantial annexe, which remains connected to the main house via an internal door. Many rooms, especially the south-facing bedrooms, benefit from views over the rooftops and trees toward Falmouth Bay.

THE EXTERIOR

The property is enveloped by gardens and a driveway, offering the opportunity to designate a separate private garden for the annexe while maintaining full privacy for the main residence. The grounds are predominantly level and ideal for families, pet owners, and gardening enthusiasts, with expansive lawns, beautifully maintained flower beds, and mature borders. The south-facing side of the main house features a slightly elevated deck, a tranquil pond, and access to the garden from both the conservatory and the main sitting room. A wide driveway provides ample parking for several vehicles, as well as boats or motorhomes, and is accessed via a private lane owned by the neighbouring property. Highcroft benefits from a fully established and undisputed vehicular right of way.

SOLAR PANELS AND HEATING

The entire property is equipped with well-maintained oil-fired central heating systems, with separate systems for the main house and the annexe. Recently installed solar panels generate an annual income of approximately £700–£800 (in addition to free electricity when in use). A smart energy management system has also been installed, which redirects surplus power to heat the water. All windows and doors are double glazed, and the annexe was built to 2013 building regulations, incorporating high levels of insulation throughout.
