The building is situated on Brunswick Drive frontage and is a double fronted stone built, three storey (plus basement)-semi-detached Victorian property with recessed sash windows beneath a pitched, hipped and gabled slate tile roof. To the front of the dwelling, there are gardens comprising lawns with planting and hard surfaced footpaths are provided to the west, north and south. The integrated Garage and driveway is located at the front of the property with direct access from Brunswick Drive.

Energy Performance Certificates

The Domestic Minimum Energy Efficiency Standard (MEES) Regulations set a minimum energy efficiency level for domestic private rented properties. Since 1 April 2020, Landlords can no longer let or continue to let properties covered by the MEES Regulations if they have an EPC rating below E, unless they have a valid exemption in place.

The property is in a Conservation Area and there may be restrictions imposed on the works that can be undertaken to improve the energy efficiency of the building. In addition, there is a cost cap for EPC related works of £15,000 per property at which point, should the 'E' rating be unachievable, an exemption can be applied for which will last for 10 years. Further changes to EPC are set to be relevant from 2030, extending requirement for a 'C' rating to all existing tenancies.
