Living Space

A spacious hallway welcomes you inside with a double height ceiling creating a unique first impression, with original steels adding a touch of character. The hallway is noticeably larger than many other apartments in the mill which makes it extra practical allowing more storage.

The living space at no.115 gets plenty of natural light owing to its favourable orientation and large windows which frame lovely views of the leafy green surrounds, while the generous footprint and high ceilings continue the super spacious feel, and the exposed brick gives a nod to the building's industrial heritage. There's a great amount of space for both everyday life and when hosting family and friends, and the open plan layout offers flexibility in use in a true apartment style.

Within the kitchen the contemporary dark grey cabinetry adds a trendy contrast to the marble style worktop, and integrated appliances include an oven and hob with extractor, feature sink and mixer tap, plus ample space for a freestanding fridge-freezer.

Bedrooms & Bathroom

Like the living space each of the bedrooms is well proportioned and presented in excellent condition. The master bedroom boasts a particularly great size with fitted wardrobes and a part double height ceiling. The second bedroom is also a good sized double with a double height ceiling and great arched window with the same lovely views as the open plan living space. And the third bedroom is situated on the upper floor in a mezzanine configuration overlooking the open plan living, providing versatility in its use – perhaps a home office? Home gym? Or a mix of the two! Either way it's a valuable addition to an already generous apartment.

The bathroom is situated off the hallway and benefits from a sleek grey modern design featuring part tiled walls and a three-piece suite comprising a large walk-in shower with rainfall head, vanity basin with integral storage and WC.
