A brief overview of the accommodation includes three double bedrooms, two bathrooms, lounge, open aspect kitchen with family room/dining room, orangery/garden room, and utility. Externally the large plot boasts beautiful gardens to front, sides and rear, a private drive, and detached garage. Due to this property having bedrooms and bathrooms on both floors, it is particularly suitable for those who require single storey living.

Living Space

A central entrance hall welcomes you into the home and gives the first impression of the beautifully presented interiors, where a touch of period character meets contemporary style.

To the right of the hall is the heart of the home – the open aspect kitchen and family room/dining room. The kitchen benefits from underfloor heating and is in impeccable condition. The premium design perfectly matches the countryside aesthetic, with shaker style cabinetry, a contrast worktop and a range of integrated appliances. The premium cooking appliances are Smeg, featuring a double oven, five-ring gas hob and matching extractor hood. Other appliances include dishwasher and a large traditional style white sink with swan neck mixer tap. The breakfast bar allows the space to seamlessly flow into the reception room which creates an attractive social space, ideal for both everyday life and when hosting family and friends. Due to its generous size there is plenty of circulation space and an allocated spot for a freestanding fridge-freezer.

The stylish and well-crafted interior design continues in the family room/dining room where the country cottage feel and contemporary styling continues, featuring an engineered oak floor, natural stone fireplace with log burner, and three windows with shutters which afford a fresh, bright and airy ambience.

The lounge across the hall is also presented in immaculate condition and its large size is highly practical for family life. A gas fire sits within another natural stone fireplace here and adds to the cosy feel.

Located at the rear of the property on the ground floor is yet another practical space that makes this home an excellent choice for modern family life. The garden room is a beautifully bright space where you can sit back and enjoy the greenery of the garden year-round. It is an ideal hobby room or home working space, or if you have little ones it would be a handy playroom!

Particularly suitable for family life and for those who enjoy spending time outdoors is the utility room. It provides a good amount of extra storage space, plumbing for the washer/dryer, an extra sink, and it is ideal for keeping wet paws and muddy boots after strolls in the neighbouring countryside.

Bedrooms & Bathrooms – Ground Floor

To the ground floor is one of three large double bedrooms, which may appeal to those who require single storey living or are potentially downsizing and ‘future proofing’. The ground floor bedroom is a great size and benefits from fitted wardrobes that are period in style but are of a contemporary, premium finish.

Also on the ground floor is the main bathroom, which like all the rooms is well-proportioned and boasts a generous size. The stylish, high-quality finish is evident here too. The five-piece suite includes a freestanding feature bathtub sat in front of an exposed brick-tiled feature wall, a large walk-in shower, and a matching wash basin, bidet and WC set which also features integrated storage.

Bedrooms & Bathrooms – First Floor

Upstairs are two more double bedrooms presented in pristine condition, the largest of which features another comprehensive range of fitted wardrobes. The bedrooms upstairs are well positioned to enjoy views of the scenic surrounds, with Winter Hill visible from both bedroom windows.

The shower room on this floor is fully tiled to and has a fresh, bright design, with a three-piece suite comprising a walk-in shower, and a WC and wash basin unit with additional integrated storage.
