Villiers Cottage, 11 Villiers Road, Southsea, PO5 2HG

A truly exceptional and unique opportunity with enormous potential: enjoying a delightful backwater location in the very HEART OF SOUTHSEA TOWN CENTRE, and standing upon a large corner plot, this DETACHED 5 DOUBLE BEDROOM CHARACTER RESIDENCE boasts well-screened gardens, ample off-street parking, garden room, and mews garage with useful loft room. NOW REQUIRING GENERAL REFURBISHMENT, it is presented as a desirable and hugely rewarding blank canvas for an incoming family seeking a home of genuine quality and distinction. Villiers Road runs between Palmerston Road and Lennox Road South, parallel to Clarence Parade, with "Villiers Cottage" being positioned at the junction with The Vale. This charming and sought-after Conservation Area address, tucked away yet very convenient, is a level walk of just a few minutes from Southsea Shopping Centre and The Seafront with a wide range of public amenities close at hand. Recorded as being once owned by Thomas Ellis Owen, the renowned architect responsible for much of early-Victorian Southsea, and extensively remodelled by him in 1851 from an earlier building (hence the absence of Listing), "Villiers Cottage" is of striking design, its rendered elevations incorporating bold bay windows and arched porch, all under a pitched and tiled roof. A high boundary and a number of mature trees grant a good degree of seclusion to both the house and its plot, the latter extending to some 80ft x 50ft overall and featuring a useful garden room together with an attached mews garage and car port with loft room.

The subject of modernisation in the 1980s, "Villiers Cottage" will, as stated, now benefit from a further programme of up-dating, the undertaking of which will create a 1st-class home ideally suited to the needs of the modern family. Full details are given as follows and early enquiry is urged to appreciate the calibre of this opportunity:
