KIDWELLY

## KIDWELLY AND SURROUNDINGS

*The Old Mill Parkview Drive sits in the beautiful small Welsh town of Kidwelly, at the mouth of the Gwendraeth Valley on the A484 between Carmarthen and Llanelli. Kidwelly Railway Station offers direct services to London Paddington and Manchester Piccadilly eastbound and Pembroke Dock, Fishguard and Milford Haven to the west.*

Kidwelly Castle provides an imposing backdrop in the heart of the town. Locally there are numerous attractions, including the Industrial Museum, Fos Las Racecourse and the coastal pathway to Parc y Scarlets the home of the Scarlets rugby team. Nearby is the Pembrey Peninsula which extends into Carmarthen Bay. The Peninsula, which is an Area of Outstanding Natural Beauty, is a vast mixture of beach and woodland and offers a number of facilities, including a championship golf course, Burry Port harbour for fishing and yachting, and Pembrey Country Park, which has become the leading tourist attraction in Wales. This 500-acre site offers visitors and residents an expanse of blue flag sandy beach, forests and picnic areas and is a haven for wildlife. For those who enjoy a more active lifestyle, there are a wealth of activities on offer which include pitch and putt, dry ski slope, toboggan run, crazy golf and cycle hire – to name a few. The National Botanical Gardens, also nearby, have been voted the number one wonder of Wales and is a magnificent example of a horticultural site which will appeal to all ages.

Carmarthen Town is the County Town of Carmarthenshire. It offers a host of amenities and eateries, and the surrounding area offers a wealth of things to do. Carmarthen is also seen as the gateway to Pembrokeshire, with travel times to Tenby and Saundersfoot of around 30 minutes.

A beautiful home inside and out, our bungalow is a joy to live in, offering plenty of space and light throughout. Full of thoughtful additions, it has a curved bay window in the spacious lounge, built in storage in the hall and two double bedrooms plus a third bedroom with garden views. Designed with entertaining and relaxation in mind, the kitchen/dining room opens into a bright sunroom with direct outdoors access – enabling you to enjoy your garden whatever the weather. A peaceful haven in which to unwind, the design of this home nods to tradition but also feels fresh and modern, with top quality fixtures and fittings throughout.

**Commitment to Future Standards:**

NGD aligns with the Future Homes Standard, integrating the NHBC 2025 Housebuilding Standards. Our warranty provider is underwritten by Trustmark.

**Focus on Carbon Reduction:**

We are dedicated to reducing our carbon footprint by sourcing construction materials locally, supporting the local economy, and incorporating environmentally friendly technologies, including:

Air source heat pumps.  
Solar panels for heating and electricity.  
Electric vehicle charging points.

These measures not only promote sustainability but also lower energy costs for homeowners.

**Comfort and Energy Efficiency:**

NGD homes are thoughtfully designed with underfloor heating to maintain a consistent and cozy indoor temperature.

**Safety and Accessibility:**

Our homes prioritise ease of living with features such as automatic lighting in bathrooms and cloakrooms to ensure safe nighttime access.

## MEET NGD

*New Generation Developments (NGD) formed in 2017 and, whilst in our first generation of home building, we come with a wealth of experience covering a wide range of construction disciplines, all gathered during 50 years of commercial and domestic construction development work. Clients have included major energy companies, blue light services across South and Mid Wales and local authorities, concentrating on their stock rationalisation programmes, further education facilities throughout Wales, major asbestos removal works, constructing bespoke facilities, school maintenance programmes and re-designs of existing stock to accommodate energy efficient proposals.*

Our experience has led us to expand into the residential house building sector. Our objectives are to supply high end small developments of between 5 – 30 homes, in popular locations. Our homes are traditionally built and energy efficient. We are able to offer some flexibility to our customers to personalise their homes, in collaboration with planning regulations and warranty guidelines. All our homes come with a 10-year Build Zone warranty. NGD is proud to contract local contractors wherever possible.

The intimate nature of the company is also reflected in the close relationship we have with our subcontractors, suppliers, consultants and all of the professionals we rely upon to deliver the consistently high standards our customers deserve. We believe in building trust with our clients. Key to this is constructing homes to the standards and desires of the client.
