Potential the Property Offers

While the property does require some investment, it presents a fantastic opportunity to design and create a home tailored exactly to your tastes. To maximise its value, one suggestion would be to remove the wall between the front lounge and dining room, creating a spacious open-plan kitchen with either a peninsula bar or central island; perfect for entertaining family and friends. This layout would not only provide sea views from the kitchen but also allow natural light to flood into the rear of the flat.

Additionally, the section of the hallway adjacent to the bedroom could potentially be reconfigured to accommodate an en-suite. There is also scope to add a balustrade around the perimeter of the garage roof, transforming it into a south-facing terrace with panoramic views. If these improvements were carried out, we would anticipate the property's value reaching approximately £675,000.
