THE URBAN
NEIGHBOURHOOD
WITH SOUL

A new and vibrant neighbourhood located in Greengate; an area steeped in industrial heritage in Manchester city centre.

Defined by high-quality public realm including a newly landscaped park, a tree-lined boulevard and square, opening up to frame Collier Street Baths, a beautiful Grade II* listed building. Colliers Yard blends existing heritage with twenty-first century architecture crossing old streets with new paths.

WHAT OUR PURCHASERS SAY

In 2019 I was looking to invest in property for the first time. Being raised and based in Manchester, it was a no-brainer to invest in the city of my home. I was on the hunt for a reputable developer who was building iconic new builds, following weeks of research online and walking around the surrounding areas of the city of Manchester, I came across Renaker. I realised quickly they were the developers of Deansgate Square, which now forms a very impressive landscape of Manchester today.

I can now say I am the happy owner of two apartments at Crown Street. I would highly recommend buying from Renaker as they did deliver an impeccable product. I would also shout out Sarah Holt, who was amazing during and after completion answering any questions I had.

Christmas Market at Deansgate Square

I am a lucky owner of an apartment at Deansgate Square. I have moved to Manchester due to starting clinical years at Wythenshawe Hospital. Hence, I was looking for a place that would be central, allowing me to enjoy the city life, yet close to key routes making commuting extremely accessible. Deansgate Square has it all and even more, starting with its absolutely amazing facilities and finishing with the outstanding level of service and care provided by the onsite team. I absolutely love Manchester for how vibrant and diverse it is and living here makes me feel at the right place and simply happy. I was not certain of what to expect since I did not get a chance to view the property prior to moving in, but now I can most certainly say that choosing this development was the best possible decision I could have made.

20m Swimming Pool at Deansgate Square

I was looking for an apartment that met several requirements: 3 bedrooms, great views, character, balcony, parking, preferably near a river or canal and in the city centre or very near by. I had never considered buying off-plan, but the Renaker Team made the experience so much easier than I'd ever imagined.

From being introduced to the development, viewing the show home to purchase, ongoing communications, to moving in has been a positive pleasure. All queries were answered promptly and I was updated regularly on progress. The property was also ready on time and I know many developments in the city experienced long delays.

The development is unique and stands out in the surrounding area. It's in a beautiful location next to the canal and historical Castlefield yet minutes away from the city centre. The facilities are great.

Jackie
Purchaser (Owner-Occupier) at Castle Wharf

After viewing numerous properties in Manchester with various developers and estate agents, I decided to purchase an apartment at Castle Wharf as the location, build quality and building facilities all matched my requirements for a new home. Also, the overall process of purchasing through to completion and handover from Renaker has been of a highly professional and friendly nature. I have had a smooth, trouble-free and pleasing experience with Renaker.

BUILT ON HISTORY

At Colliers Yard, there is something new to discover around every corner. Collier Street Baths, for starters. Opened by Manchester and Salford Baths and Laundry Company Inc. in 1855, the Grade II* Italianate building served as a public baths for the city of Manchester, and was designed by Thomas Worthington, considered one of Manchester's greatest 19th century architects. It later became a matchbox factory. This architectural gem will now create an inspiring backdrop for a new public square, Collier Square.

Forming the core of Colliers Yard, the new tree-lined public square will reframe the iconic baths to celebrate its historic importance, whilst simultaneously offering an exciting area for residents and locals to enjoy. Lined with independent retail and leisure operators, Collier Square will be a spectacular place to meet, relax and savour the outdoors.

THE ARCHITECT

THE VISION

Our concept for Bankside delivers a tall, slender residential tower with its glazed façade complementing a solid, highly detailed and tactile brick podium. Its powerful architectural expression will integrate with the other new buildings in the Masterplan to produce a bold and progressive urban environment.

The tower's façade is unique and visually dynamic. A continuous sequence of four-storey vertically stacked layers with recessed horizontal banding, combined with an overlaid irregular geometric grid, create a super-scaling of the traditional and familiar layering of individual floors, whilst providing character and originality, and being identifiable as part of a family of towers within the Colliers Yard neighbourhood.

Stonehenge Exhibition & Visitor Centre, UK

Manchester Civil Justice Centre, UK

Mandarin Oriental Hotel, London, UK

The design language of the podium maintains rhythm across the elevations and takes cues from the historic context and neighbouring buildings, Collier Street Baths, where openings are vertically proportioned and include deep set backs within the façade. By stepping down towards this building of historic importance, the podium 'frames' the baths at the head of a newly developed tree-lined roadway, aptly named 'Bankside Boulevard'. Recessed openings and terraces within the podium are also incorporated to promote activity above street level, whilst an enlarged ground storey provides flexibility for different types of commercial use, such as shopfronts with glazed frontages, creating a more 'civic' scale appropriate to the primary street frontage of the boulevard.

To complete the vision, a key component of the extensive public realm strategy in the overall Greengate Masterplan is a new, beautiful landscaped public park, called 'Greengate Park'. Bankside makes a strong contribution to the public realm within the area, continuing the boulevard further west and forming a key part of a new public square, Collier Square, in front of Collier Street Baths, which significantly increases the number of trees in the area to define Colliers Yard as a truly green location.

NAOMI CLEAVER

CREATING THE VISION

My love affair with Manchester began with The Smiths, peaked when I married my Mancunian husband and endures through my design work in the city. In that short(ish) time I've witnessed Manchester emerge from a cauldron of creativity into a glossy international destination.

Designing the interiors for Bankside, in collaboration with Project Studio, has been a chance to revisit the authentic soul of Manchester. In celebration of the many workshops that once characterised the location, spaces are crafted with bridle leather, metalwork and mercerised cottons, while the lavish tiling that adorned the neighbourhood Grade II* listed Collier Street Baths is memorialised in our use of jewel-coloured hand-made ceramics.

The alchemy of material and craft that defines this site is further enriched through our collaborations with local artisans.

Creativity comes in many forms, and no more so than in Bankside's locale. The performative arts are central to the special energy in this part of Salford, where the renowned Blueprint Studios, host to artists from The Three Degrees to Elbow, have inspired us to design a first in a residential scheme like Bankside; a collection of "content creation suites".

Amidst the stories we're telling of the site through design, we've relished creating a "stage" for the stories of future residents.

CREATING COMMUNITIES

We are leading the creation of another new residential district, New Jackson, located at the southern end of Deansgate within the city.

Momentum has already been established through the delivery of the iconic Deansgate Square, Crown Street Victoria Residence and Elizabeth Tower; with The Blade and Three60, both currently under construction and to follow over the next three years.

Once complete, the community will not only transform the city skyline with residential towers, however, it will also be surrounded with high-quality public realm including: local independent restaurants, bars, cafes and shops, a public park, medical facility and a primary school - all connected by several new pedestrian and cycle pathways, focused on creating sustainable travel routes for the local community.

RENAKER

CREATION OF NEIGHBOURHOODS

FOR THE LONG TERM

We understand that creating new neighbourhoods includes a great responsibility to get the balance right between residential development, commercial uses, green spaces and social infrastructure, to create sustainable communities that stand the test of time.

General Store, Flourish at Deansgate Square

Delivery of large scale, accessible and attractive public realm is at the core of all our developments. Careful consideration is taken in ensuring we offer something different, whether this be a more suburban style soft green park or more civic hardstanding spaces that properly address a riverside. In this way, we are providing residents of the neighbourhoods and the surrounding local community with new and different spaces to enjoy.

We also take a carefully curated approach with all our commercial operators ensuring they are local, independent businesses, in order to provide the right offering while enhancing the local area.

WORKING WITH THE LOCAL COMMUNITY

As part of our commitment to building sustainable communities, we have appointed a Resident Experience & Events Manager. Their role is to help bring life to the development, working closely with our on-site teams and commercial partners, to create a year-round programme of exciting events which aim to enliven the spaces for residents, and the public alike to enjoy.
