Location

80 old street is located in one of the most vibrant and fashionable mixed-use districts in central London and is home to the third largest cluster of technology companies in the world; the 'tech city cluster' surrounding old street roundabout is located just a few hundred metres to the east of 80 old street and is regarded as Europe's leading technology centre. The immediate area has seen a large influx of TMT firms relocating from traditional West End or City locations, including Amazon, TripAdvisor, Airbnb, Soundcloud and Groupon as well as the opening of an innovation centre by Cisco and an incubator hub by Google. Major local tech occupiers now include Google, MindCandy, Farfetch and Adobe.
