SC0869

Ready as an HMO investment or to refurbish as a beautiful family home, this generously proportioned five bedroom double fronted Victorian terraced house is located on the borders of Finsbury Park and Crouch End.

The property currently measures over 2000 Sq.Ft. with the potential to extend further to the rear and into the roof space, as other houses have done so along the road. Retaining a number of period features, this property could become one of the outstanding houses in the area.
