Summary

Approached via private driveway, the home provides a substantial level of off road parking for multiple vehicles and conveniently has access to the rear down one side. The Entrance hall is light and inviting, tempting you through to the modern, refitted Kitchen. This is open plan to the ground floor extension which is used as a stunning Lounge area, complete with sky-light and bi-folding doors which when fully opened, bring the outside in - superb when entertaining with guests and relatives.

Both Bedrooms are lovely size doubles and as part of the renovation works, the Bathroom was completely overhauled and now provides both a walk in shower and free standing bath. For additional convenience, there is also a separate cloakroom.

Buyers who love their outdoor space, won't be disappointed. A large patio terrace opens out to a generous, lawned garden which leads to a versatile, multi room cabin at the foot of the plot.

The setting for this home provides a wonderful blend of two Worlds. On one hand, it caters for those who want the convenience of having an abundance of amenities close by and with a village mini supermarket, post office and bus stop nearby - you are well looked after but this is just the tip of the iceberg for there are even more facilities available to you just down the road in Meopham, Borough Green and Longfield - all of which have their own Rail Stations. And on the other hand, this location has long been a favourite among buyers wishing to escape the hustle & bustle of larger, built up areas and with access along tree lined roads and a real 'feel' of being in a semi rural location, it's easy to understand to why this village remains so popular.
