Mine Entry

- ✕ Adit
- ✕ Gutter Pit
- ✕ Shaft

The Coal Authority has records of over 175,000 mine entries within the UK captured in the National Coal Mining database, derived from sources including abandonment plans, geological and topographical plans.

Coal mining activity is recorded as far back as the 13th century, but prior to 1872 there was no requirement to deposit abandonment plans. It is therefore believed there may be many unrecorded mine entries of which the Authority has no information or knowledge. These entries do not, therefore, appear within the Authority's national dataset as shown on this map.

This map displays nearby official conservation areas. Every local authority in England has at least one conservation area. Most are designated by the Council as the local planning authority, though Historic England and the Secretary of State also have the power to create them.

This map displays the noise levels from nearby network rail and HS1 railway routes that affect this property...

Rail Noise Data

This data indicates the level of noise according to the strategic noise mapping of rail sources within areas with a population of at least 100,000 people (agglomerations) and along Network Rail and HS1 traffic routes.

The data indicates the annual average noise levels for the 16-hour period between 0700 - 2300.

Noise levels are modelled on a 10m grid at a receptor height of 4m above ground, polygons are then produced by merging neighbouring cells within the following noise classes:

5		75.0+ dB	■
4		70.0-74.9 dB	■
3		65.0-69.9 dB	■
2		60.0-64.9 dB	■
1		55.0-59.9 dB	■

What is Radon?

Radon is a natural radioactive gas, which enters buildings from the ground. Exposure to high concentrations increases the risk of lung cancer. The UK Health Security Agency (UKHSA) recommends that radon levels should be reduced in homes where the annual average is at or above 200 becquerels per cubic metre (200 Bq/m3).

This data indicates the level of noise according to the strategic noise mapping of road sources within areas with a population of at least 100,000 people (agglomerations) and along major traffic routes. This indicates a 24 hour annual average noise level with separate weightings for the evening and night periods.

Noise levels are modelled on a 10m grid at a receptor height of 4m above ground, polygons are then produced by merging neighbouring cells within the following noise classes:

- 75.0+ dB
- 70.0-74.9 dB
- 65.0-69.9 dB

Estate Agency is changing and moving away from the traditional High Street which is why I have set up my own agency where I can use my vast levels of experience and offer a truly personal, one to one service, to make the whole process as smooth and stress free as possible for my clients. I pride myself on giving good, honest and sensible advice and will be with you every step of the way, from the initial valuation, to conducting the viewings, negotiating the sale and handing over the keys on completion day.

As I pride myself on my quality service and attention to detail, I only keep a limited number of properties on the market at any one time to ensure I give my utmost attention to my customers, their property, potential buyers and offer you a higher level of service that I feel each customer deserves.

Testimonial 1

We approached Scott when it came to the point of selling our home. After considering a few options, Scott's professional yet friendly approach confirmed we had chosen well. This was my first time selling, and the support given from the start to the end of journey was fantastic. I will have no hesitation in choosing Scott when the time comes to move home again. Absolute professional.

Testimonial 2

Scott was instrumental in us achieving what we wanted out of the sale of our property. He was informative, honest and excellent at communicating throughout the process. As first time sellers we were unsure about what to expect and had an air of anxiety about the process however Scott gave us constant reassurance, really held our hands throughout the whole thing and went over and above to over deliver on our expectations. Highly recommend!

Testimonial 3

Scott has been an absolute savior for us in selling our rental property. He was so knowledgeable and self motivated. He succeeded in providing us with a quick and stress free sale where other agents had failed us. Thank you Scott, you will forever be our go to man for anything home related.

Testimonial 4

My house was on the market for a year with no success. I used Scott to inject some belief into actually selling our home. It was well worth the switch and we sold in a few weeks with two offers!
