TRANSFORMING AN HISTORIC
BUILDING INTO LUXURY HOMES

THE OLD SCHOOL

NORTH CREAKE, NORTH NORFOLK

Dating back to 1883, The Old School has been a central and functional feature of the village for well over a century.

For most of The Old School's history it provided for the education of the children of North Creake and then when the school closed in 1962 it offered space for various ventures, including an art gallery. Having fallen into disrepair in recent years it was saved by the current owners, McNamara Country Homes.

With more than 50 years of experience in North Norfolk, the McNamara name has become synonymous with the sympathetic conversion and refurbishment of unloved and unused

rural properties which have often been left to nature.

With no loss to the historic relevance of this Victorian school, they have now created three beautiful and individual homes which amplify the core character and past of the this building's purpose, whilst at the same time seamlessly combining contemporary interiors to perfectly complement such a special property.

All three properties have two generous double bedroom suites, and unique and different ground floor footprints. They all feature elegant limed oak parquet flooring as well as tasteful kitchen designs.

First Floor

Ground Floor

NUMBER ONE

Number One is at the southern end of the building and not only features the builder's date stamp on the gable end, but also retains the original hand pump; it's easy to imagine schoolchildren refreshing themselves under it after a breathless break-time in the summer sunshine.

Step through what was the original main school entrance where many a hat and coat were once hung up and into the wonderful open-plan living space.

At the far end is the kitchen with a useful island which is perfect for both food prep or as a breakfast bar; where better for a morning catch-up over coffee or for your guests to lean on whilst enjoying a G&T as you prepare supper?

In the centre of the room is a dining area and then the remainder is given over to a seating area which naturally focuses on the fireplace, originally bricked over but now in use after its discovery during the refurbishment.

Upstairs there are two large double bedroom suites, both with stylish and sumptuous showers and whilst the bedroom to the front is the slightly larger of the two, the bedroom to the rear also has a delightful dressing room.

Ground Floor

Open Plan Ground Floor 38'7" x 16'4" (11.76m x 4.98m)

First Floor

Bedroom 1 21'7" x 15'7" (6.58m x 4.75m)

Bedroom 2 12'5" x 10'2" (3.78m x 3.10m)

Approx. Total Floor Area 1,299 sq. ft (120.74 sq. m)

NUMBER TWO

Number Two has a very different layout with its entrance on the northern side of the building. This is an entrance hall which not only affords enough space for the guest WC, but also a separate utility room.

In the centre of the property is a substantial kitchen/breakfast room with an island, which whilst incredibly useful for food preparation - or as a breakfast bar - lends itself as the ideal spot to sip a morning coffee, or savour a fine wine whilst dinner neatly sees to itself. There are also french doors leading off this room out to the garden beyond.

At the back of the property there is an equally proportioned reception room with a log burner to one corner and two sets of french doors out to the garden providing free flowing access between these two principal living rooms during the summer months.

Upstairs there are two generous double bedroom suites, the larger of which has fitted wardrobes.

Ground Floor	
Kitchen/Dining Room	27'0" x 16'11" (8.23m x 5.16m)
Sitting Room	20'8" x 12'4" (6.30m x 3.76m)
First Floor	
Bedroom 1	20'11" x 15'1" (6.38m x 4.60m)
Bedroom 2	20'11" x 12'4" (6.38m x 3.76m)
Approx. Total Floor Area	1,371sq. ft (147.64 sq. m)

NUMBER THREE

Number Three is on the southern side of the building and is entered by the other original school front door.

What was once the large entrance porch, where many a child hung their hat and coat, remains an entrance hall but has now gained a ground floor guest WC.

The ground floor is almost equally divided between two very well-proportioned rooms. To the front is the kitchen/dining room with the kitchen units arranged along one side of the room and ample space in the centre for a large dining table.

Beyond this is the reception room with its corner log-burner providing a cosy focus for those long dark winter's nights, as well as two sets of french windows leading straight out onto the south-facing garden and perfect for opening up on balmy summer's days and letting the cool country breeze waft through.

Much like the ground floor, upstairs there are two equally proportioned and equally generous double bedroom suites. Plot three really is the perfect example of a properly balanced home.

Ground Floor	
Kitchen/Dining Room	19'8" x 17'0" (5.99m x 5.18m)
Sitting Room	21'0" x 12'7" (6.40m x 3.84m)
First Floor	
Bedroom 1	20'10" x 12'3" (6.35m x 3.73m)
Bedroom 2	15'2" x 12'10" (4.62m x 3.91m)
Approx. Total Floor Area	1,295 sq. ft (120.32 sq. m)
