Viewings to commence from Friday 31st January 2025.

An exquisite example of German Huf Haus architecture blending modern contemporary design with innovative post, beam and glass construction to provide both an impressive and flexible arrangement of spacious living accommodation over ground and first floors.

Constructed in 2003, this attractive home stands on a mature, professionally landscaped, private and south westerly facing plot of around a one third of an acre. It is situated on the popular south side of town and within a pleasant cul de sac location.

Approached via metal entrance gates, this CHAIN FREE home has ample parking plus a substantial detached double width garage with a rear workshop/storage area.

The accommodation features an entrance lobby with hallway, a cloakroom and utility. An impressive open plan social living space featuring a fitted kitchen with Miele appliances plus generous dining and sitting areas with direct garden access and views over the garden, patio and terraces. In addition there is a generous sized home office plus a large separate family room. The vast vaulted landing with central staircase is a particular feature of the property. This provides views down to the living area and access to the four, similar sized double bedrooms with vaulted ceilings and access to external front and rear balconies. There is also a large family bathroom and an en-suite to the master bedroom.

The extensive windows and doors are double glazed plus many have fitted shutters, awnings and screens. The property features gas fired under floor central heating to both the ground and first floors. Whilst well presented, the property in our opinion is "tired" and presently requires updating and refitting.

An early viewing is highly recommended in order to appreciate this fabulous family home.
