Coal Mining

This map displays nearby coal mine entrances and their classifications.
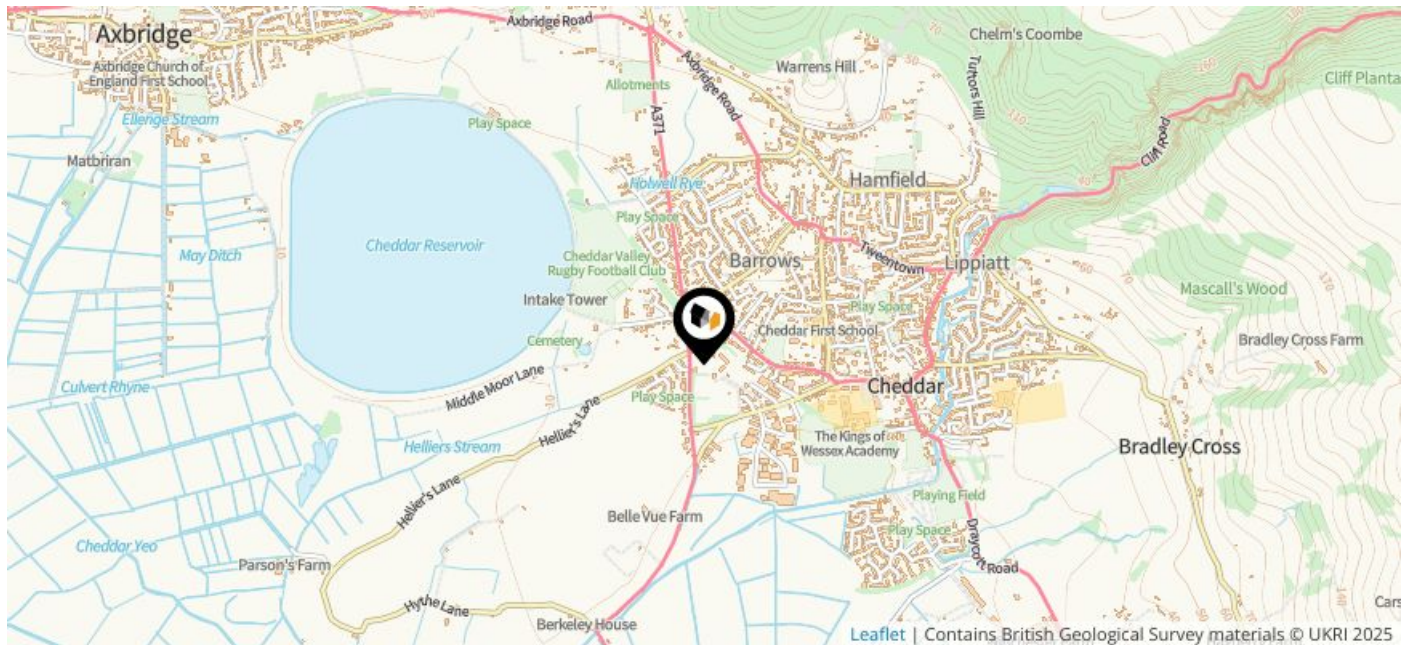

Mine Entry

✕ Adit
✕ Gutter Pit
✕ Shaft

The Coal Authority has records of over 175,000 mine entries within the UK captured in the National Coal Mining database, derived from sources including abandonment plans, geological and topographical plans.

Coal mining activity is recorded as far back as the 13th century, but prior to 1872 there was no requirement to deposit abandonment plans. It is therefore believed there may be many unrecorded mine entries of which the Authority has no information or knowledge. These entries do not, therefore, appear within the Authority's national dataset as shown on this map.

Rail Noise

This map displays the noise levels from nearby network rail and HS1 railway routes that affect this property...
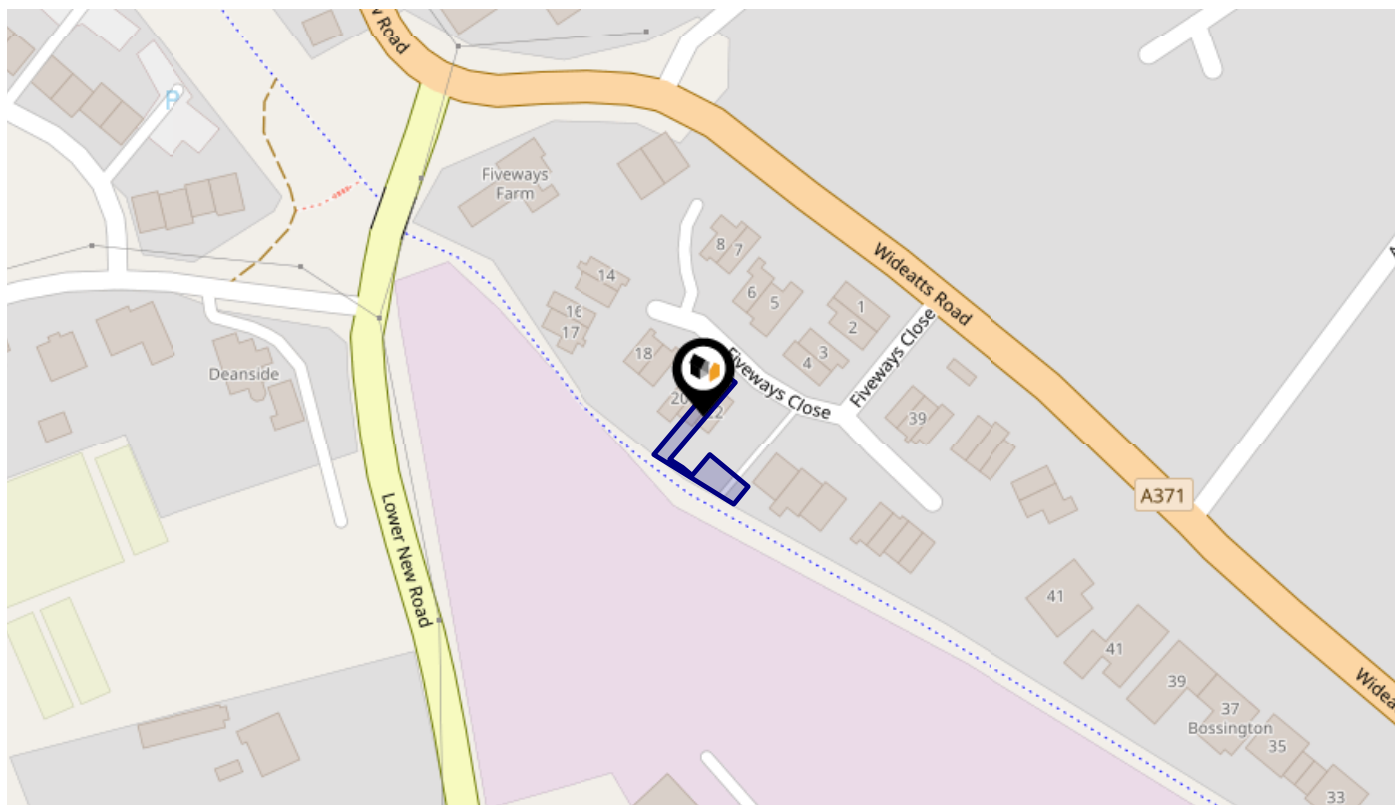

Rail Noise Data

This data indicates the level of noise according to the strategic noise mapping of rail sources within areas with a population of at least 100,000 people (agglomerations) and along Network Rail and HS1 traffic routes.

The data indicates the annual average noise levels for the 16-hour period between 0700 - 2300.

Noise levels are modelled on a 10m grid at a receptor height of 4m above ground, polygons are then produced by merging neighbouring cells within the following noise classes:
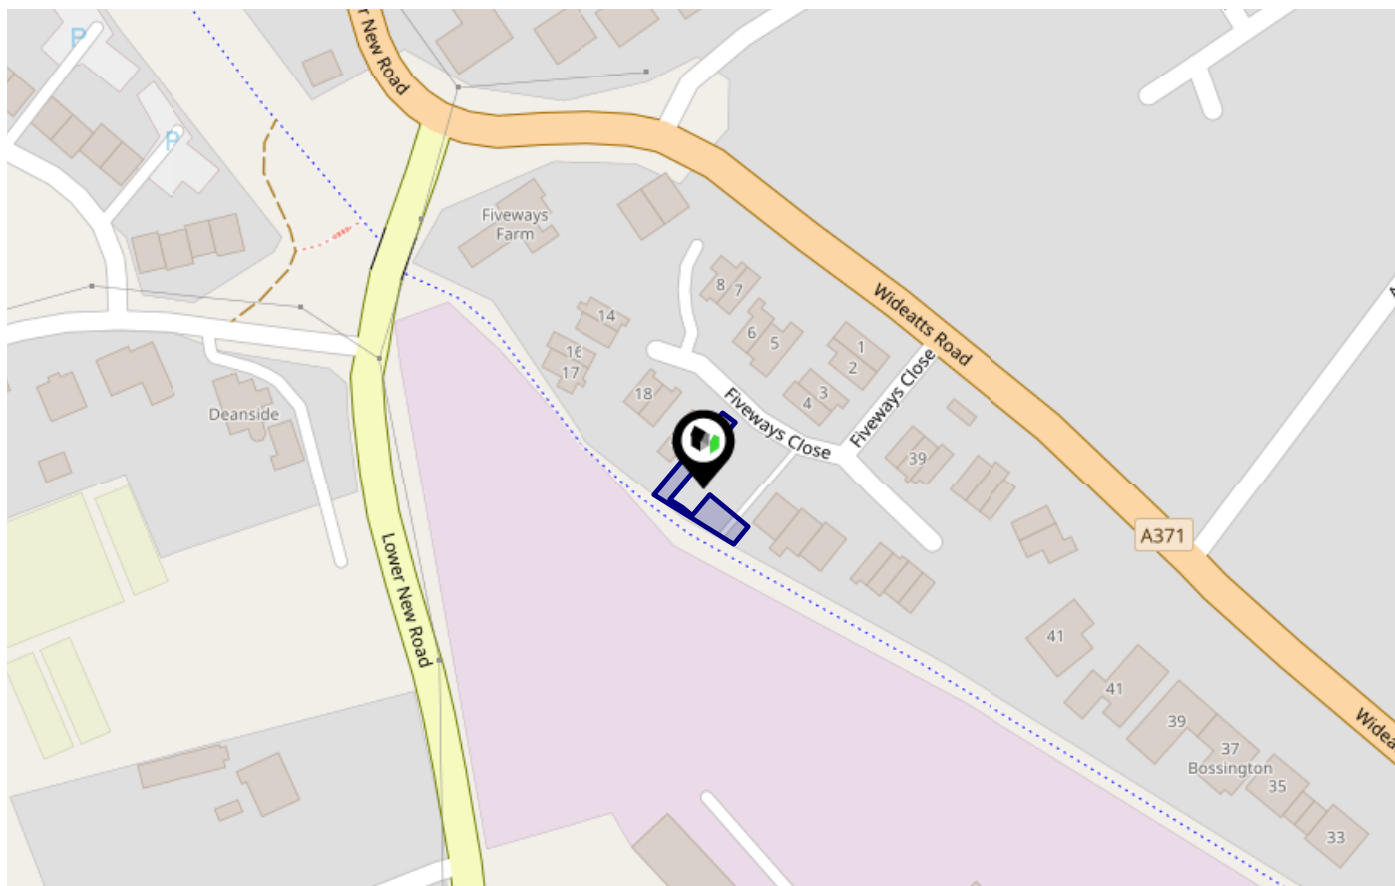

5	75.0+ dB	🟥
4	70.0-74.9 dB	🟧
3	65.0-69.9 dB	🟨
2	60.0-64.9 dB	🟩

Radon Gas

What is Radon?

Radon is a natural radioactive gas, which enters buildings from the ground. Exposure to high concentrations increases the risk of lung cancer. The UK Health Security Agency (UKHSA) recommends that radon levels should be reduced in homes where the annual average is at or above 200 becquerels per cubic metre (200 Bq/m3).

Testimonials

Testimonial 1

★★★★★

We highly recommend Cooper and Tanner Cheddar. We had Mackenzie throughout our purchase, we also met Sally a couple of times. Even though we had to pull out of the first house; Mackenzie helped us with a knew place within the price and area of Cheddar that we were after. Communication was good throughout the process and on completion.

Testimonial 2

★★★★★

I would highly recommend Cooper & Tanner in Cheddar. The team were always very professional, friendly & helpful. They found us a property in Cheddar which was exactly what we were looking for. Christopher & Jackie were excellent, they answered all of our questions & queries. The purchase ran smoothly & the whole experience was great. Thank you so much to everyone at Cooper & Tanner Cheddar, we are very grateful for all your help & support.

Testimonial 3

★★★★★

What a fantastic agency! We recently bought a house and had a wonderful experience with these guys. A particular special mention to Jackie, Chris and Mackenzie who were incredibly efficient, understanding and just generally brilliant! Thank you so much for helping us purchase our beautiful home.

Testimonial 4

★★★★★

I bought a flat through Cooper and Tanner in Cheddar, and the whole experience was great. I had an early viewing on a property just about to go onto the market which was perfect for me. Carol handled my questions quickly, and when Carol wasn't in the office Chris picked them up and answered them. Professional, friendly, helpful. Would recommend.
