Date of inspection: 14th April 2025

1. INFORMATION AND SCOPE OF INSPECTION

This section tells you about the type, accommodation, neighbourhood, age and construction of the property. It also tells you about the extent of the inspection and highlights anything that the surveyor could not inspect.

All references to visual inspection refer to an inspection from within the property without the need to move any obstructions and externally from ground level within the site and adjoining public areas. Any references to left or right are taken facing the front of the property.

The inspection is carried out without causing damage to the building or its contents and without endangering the occupiers or the surveyor. Heavy furniture, stored items and insulation are not moved. Unless identified in the report the surveyor will assume that no harmful or hazardous materials or techniques have been used in the construction. The presence or possible consequences of any site contamination will not be researched.

Services such as TV/cable connection, internet connection, swimming pools and other leisure facilities etc. were not inspected or reported on.

Description

Eastbank comprises an original cottage with three storey extension to the rear and an attached garage.
The property includes a total of 4.38 acres.

Accommodation

Original Cottage - Ground Floor: Sitting Room, Kitchen/Dining Room, Bedroom, Bathroom, Vestibule, Hall.
Extension – Ground Floor: Sitting Room, Kitchen/Dining Room, Entrance Vestibule.
Extension – First Floor: Bedroom, Shower Room, Open mezzanine area.
Extension – Second Floor: Bedroom/Mezzanine.

Gross internal floor area (m²)

The gross internal floor area of the property is approximately 293m².

Neighbourhood and location

The property is situated in a rural location in Orkney. All the usual amenities are available in Stromness and Kirkwall.
Orkney is well connected to mainland Scotland with regular sea and air services.

Age	<p>The age of the original cottage is not known, but is likely to be around 100 years old.</p> <p>It is understood that the extension was added in 1995, with the cottage renovated at the same time.</p>
Weather	<p>The weather was cool with showers, following a period of changeable weather. The report should be read in context of these weather conditions.</p>
Chimney stacks	<p>Stone built chimney stacks to both gables of the original cottage.</p> <p>Both stacks are rendered, with concrete copes and single clay chimney cans.</p> <p><i>Visually inspected with the aid of binoculars where appropriate.</i></p>
Roofing including roof space	<p>Pitched timber framed roof structures.</p> <p>Slate effect tiles to the original cottage; fibre cement slates to the extension.</p> <p>Accessible roof space to the original cottage; timber sarking boards and fibreglass insulation to the ceiling joists.</p> <p>The ceiling linings to the extension are fitted at rafter level.</p> <p><i>Sloping roofs were visually inspected with the aid of binoculars where appropriate.</i></p>
Rainwater fittings	<p>uPVC gutters and downpipes.</p> <p><i>Visually inspected with the aid of binoculars where appropriate.</i></p>
Main walls	<p>External walls to the original cottage are stone built; assumed concrete cavity block-work to the extension, with a steel structural frame.</p> <p><i>Visually inspected with the aid of binoculars where appropriate.</i></p> <p><i>Foundations and concealed parts were not exposed or inspected</i></p>
Windows, external doors and joinery	<p>uPVC double glazed windows and external doors.</p> <p>Timber fascia boards.</p> <p><i>Internal and external doors were opened and closed where keys were available.</i></p> <p><i>Random windows were opened and closed where possible.</i></p> <p><i>Doors and windows were not forced open.</i></p>

External decorations

The timber fascia boards are painted.

Visually inspected.

Conservatories / porches

There are Entrance Porches to the front elevation of the Cottage, and forming the link between the cottage and extension.

Visually inspected.

Communal areas

There are no communal areas.

Circulation areas visually inspected.

Garages and permanent outbuildings

There is a garage attached to the southern gable of the Cottage, consisting of a concrete floor, block-work walls, pitched roof clad with fibre-cement sheets, steel up & over garage door, timber single glazed windows and boarded timber door.

Internal dimensions approx. 8.5m x 6.0m.

There is also an aluminium framed greenhouse attached to the rear elevation of the Cottage.

Visually inspected.

Outside areas and boundaries

The site extends to approximately 4.38 acres, according to the Title Deed Plan, and is mostly laid to grass.

Tar and gravel parking areas.

Concrete paths around the house.

Visually inspected.

Ceilings

Plasterboard ceilings to the Cottage.

Sloping ceilings to the Extension are lined with timber boarding.

Visually inspected from floor level.

Internal walls

Timber framed internal partitions, lined with plasterboard.

Visually inspected from floor level.

Using a moisture meter, walls were randomly tested for dampness where considered appropriate.

Floors

Suspended timber ground floor to the Cottage; concrete ground floor to the Extension.
Part of the opening in the first floor was filled in during 2015 to create additional useable floor space. These works were covered by a Building Warrant.

Internal joinery and kitchen fittings

Fitted floor and wall units to both Kitchens.
Softwood skirtings and facings.
Timber window cills and plywood ingoes.
Plywood doors to the Cottage; glazed softwood doors to the Extension.
Boarded wardrobe doors.

Built-in cupboards were looked into but no stored items were moved.

Kitchen units were visually inspected excluding appliances.

Chimney breasts and fireplaces

There are no chimney breasts or fireplaces.

Visually inspected. No testing of the flues or fittings was carried out.

Internal decorations

Internal walls and plasterboard ceilings are emulsioned.
Woodwork is varnished or painted.

Tiled splashbacks to the Kitchen in the Cottage; upstands to the Extension Kitchen.

Shower panelling to the Cottage Shower Room; wall tiles to the Extension Shower Room.

Floor coverings include carpet, laminate and timber floor boards.

Visually inspected.

Cellars

There are no cellars.

Visually inspected where there was safe and purpose-built access.

Electricity

The property is served by a mains electricity supply to distribution boards and dual tariff meters.
Extractor hoods to both Kitchens.
Extractor fans to both Shower Rooms.

Accessible parts of the wiring were visually inspected without removing fittings. No tests whatsoever were carried out to the system or appliances. Visual inspection does not assess any services to make sure they work properly and efficiently and meet modern standards. If any services are turned off, the surveyor will state that in the report and will not turn them on.

Gas

There is no gas installation.

Water, plumbing and bathroom fittings

The water supply is assumed to be from the mains.
The pipework, where visible, is of copper and UPVC construction.

Sanitary ware includes:

Cottage Kitchen: 1.5 bowl stainless steel sink and drainer.

Extension Kitchen: 1.5 bowl stainless steel sink and drainer.

Cottage Bathroom: bath with mixer shower above, wash-hand basin, WC.

Extension Shower Room: mixer shower with shower tray, wash-hand basin, WC.

Visual inspection of the accessible pipework, water tanks, cylinders and fittings without removing any insulation. No tests whatsoever were carried out to the system or appliances.

Heating and hot water

The property is heated by electric storage heaters and air to air units.

Oil fired stove in the Cottage Kitchen, which is understood to heat the domestic hot water.

Plastic oil tank in the garage.

The hot water cylinder is in a cupboard in the garage.

Electric focal point heater in the Extension Sitting Room.

Accessible parts of the system were visually inspected apart from communal systems, which were not inspected. No tests whatsoever were carried out to the system or appliances.

Drainage

The property is understood to connect to a private septic tank on site.

Drainage covers etc were not lifted.

Neither drains nor drainage systems were tested.

Any additional limits to inspection:

At the time of our inspection the property was occupied and furnished, with floors fully covered throughout.

Pitched roof coverings were inspected from ground level; a detailed inspection of condition was not undertaken.

An inspection for Japanese Knotweed or other invasive plant species was not carried out.

There was no access for inspection to behind wall linings.

The drainage system was not open to inspection.

High levels of Radon gas have been recorded in areas of Orkney.

Sectional diagram showing elements of a typical house

Reference may be made in this report to some or all of the above component parts of the property. This diagram may assist you in locating and understanding these terms.

2. CONDITION

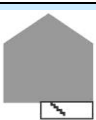

This section identifies problems and tells you about the urgency of any repairs by using one of three categories.

Category 3		Category 2	Category 1
Urgent repairs or replacement are needed now. Failure to deal with them may cause problems to other parts of the property or cause a safety hazard. Estimates for repairs or replacement are needed now.		Repairs or replacement requiring future attention, but estimates are still advised.	No immediate action or repair is needed.
 Structural movement			
Repair category		1	
Notes:		No significant defects noted.	
 Dampness, rot and infestation			
Repair category		1	
Notes:		No significant defects noted.	
 Chimney stacks			
Repair category:		1	
Notes:		Disused chimneys should be fitted with ventilated caps.	
 Roofing including roof space			
Repair category:		1	
Notes:		Signs of historic woodworm activity. It is understood this has been treated.	
 Rainwater fittings			
Repair category:		1	
Notes:		No significant defects noted.	
 Main walls			
Repair category:		1	
Notes:		No significant defects noted.	
 Windows, external doors and joinery			
Repair category:		1	
Notes:		Window handles loose in places.	

SINGLE SURVEY

	External decorations
Repair category:	1
Notes:	No significant defects noted.
	Conservatories / porches
Repair category:	1
Notes:	No significant defects noted.
	Communal areas
Repair category:	N/A
Notes:	There are no communal areas.
	Garages and permanent outbuildings
Repair category:	2
Notes:	Signs of woodworm activity noted to the roof timbers. Fibre cement roof sheets appear weathered but serviceable.
	Outside areas and boundaries
Repair category:	2
Notes:	Cracks noted to external boundary walls, with signs of previous repairs.
	Ceilings
Repair category:	1
Notes:	No significant defects noted.
	Internal walls
Repair category:	1
Notes:	No significant defects noted.
	Floors including sub-floors
Repair category:	1
Notes:	No significant defects noted.
	Internal joinery and kitchen fittings
Repair category:	1
Notes:	No significant defects noted.

SINGLE SURVEY

	Chimney breasts and fireplaces
Repair category:	N/A
Notes:	There are no chimney breasts or fireplaces.
	Internal decorations
Repair category:	1
Notes:	No significant defects noted.
	Cellars
Repair category:	N/A
Notes:	There are no cellars.
	Electricity
Repair category:	1
Notes:	Advise that the installation be checked and tested. There is no evidence of recent testing and failure to service and test increases safety risks.
	Gas
Repair category:	N/A
Notes:	There is no gas installation.
	Water, plumbing and bathroom fittings
Repair category:	1
Notes:	No significant defects noted.
	Heating and hot water
Repair category:	1
Notes:	No significant defects noted.
	Drainage
Repair category:	1
Notes:	No significant defects noted.

SINGLE SURVEY

Set out below is a summary of the condition of the property which is provided for reference only. You should refer to the comments above for detailed information.

Structural movement	1
Dampness, rot and infestation	1
Chimney stacks	1
Roofing including roof space	1
Rainwater fittings	1
Main walls	1
Windows, external doors and joinery	1
External decorations	1
Conservatories / porches	1
Communal areas	N/A
Garages and permanent outbuildings	2
Outside areas and boundaries	2
Ceilings	1
Internal walls	1
Floors including sub-floors	1
Internal joinery and kitchen fittings	1
Chimney breasts and fireplaces	N/A
Internal decorations	1
Cellars	N/A
Electricity	1
Gas	N/A
Water, plumbing and bathroom fittings	1
Heating and hot water	1
Drainage	1

Repair Categories

Category 3:

Urgent Repairs or replacement are needed now. Failure to deal with them may cause problems to other parts of the property or cause a safety hazard. Estimates for repairs or replacement are needed now.

Category 2:

Repairs or replacement requiring future attention, but estimates are still advised.

Category 1:

No immediate action or repair is needed.

Remember

The cost of repairs may influence the amount someone is prepared to pay for the property. We recommend that relevant estimates and reports are obtained in your own name.

Warning

If left unattended, even for a relatively short period, Category 2 repairs can rapidly develop into more serious Category 3 repairs. The existence of Category 2 or Category 3 repairs may have an adverse effect on marketability, value and the sale price ultimately achieved for the property. This is particularly true during slow market conditions where the effect can be considerable.

3. ACCESSIBILITY INFORMATION

Guidance Notes on Accessibility Information

Three steps or fewer to a main entrance door of the property: In flatted developments the 'main entrance' would be the flat's own entrance door, not the external door to the communal stair. The 'three steps or fewer' are counted from external ground level to the flat's entrance door. Where a lift is present, the count is based on the number of steps climbed when using the lift.

Unrestricted parking within 25 metres: For this purpose, 'Unrestricted parking' includes parking available by means of a parking permit. Restricted parking includes: Parking that is subject to parking restrictions, as indicated by the presence of solid yellow, red or white lines at the edge of the road or by a parking control sign, parking meters or other coin-operated machines.

1. Which floor(s) is the living accommodation on?	Ground, First and Second
2. Are there three steps or fewer to a main entrance door of the property?	Yes
3. Is there a lift to the main entrance door of the property?	No
4. Are all door openings greater than 750mm?	No
5. Is there a toilet on the same level as the living room and kitchen?	Yes
6. Is there a toilet on the same level as a bedroom?	Yes
7. Are all rooms on the same level with no internal steps or stairs?	No
8. Is there unrestricted parking within 25 metres of an entrance door to the building?	Yes

4. VALUATION AND CONVEYANCER ISSUES

This section highlights information that should be checked with a solicitor or licensed conveyancer. It also gives an opinion of market value and an estimated re-instatement cost for insurance purposes.

Matters for a solicitor or licensed conveyancer

Check

- Rights and responsibilities for mutual parts, shared fences and walls etc.
- That the Title is clean and Heritable with no onerous burdens or conditions.
- Ownership and responsibilities for the boundary treatments.

Estimated re-instatement cost for insurance purposes

£600,000 (Six Hundred Thousand Pounds).

Valuation and market comments

The market value of the property as described in this report is £335,000 (Three Hundred and Thirty-Five Thousand Pounds).

This figure assumes vacant possession and that the property is unaffected by adverse planning proposals, onerous burdens, title restrictions and servitude rights.

Signed

Energy Performance Certificate (EPC)

Scotland

Dwellings

EASKBANK, STENNESS, STROMNESS, KW16 3EY

Dwelling type: Detached house
Date of assessment: 06 April 2023
Date of certificate: 06 April 2023
Total floor area: 289 m²
Primary Energy Indicator: 383 kWh/m²/year

Reference number: 0763-1017-9204-2087-1204
Type of assessment: RdSAP, existing dwelling
Approved Organisation: Elmhurst
Main heating and fuel: Air source heat pump, warm air, electric

You can use this document to:

- Compare current ratings of properties to see which are more energy efficient and environmentally friendly
- Find out how to save energy and money and also reduce CO₂ emissions by improving your home

Estimated energy costs for your home for 3 years*

£28,017

See your recommendations report for more information

Over 3 years you could save*

£2,223

* based upon the cost of energy for heating, hot water, lighting and ventilation, calculated using standard assumptions

Very energy efficient - lower running costs

Current	Potential
48	67

Energy Efficiency Rating

This graph shows the current efficiency of your home, taking into account both energy efficiency and fuel costs. The higher this rating, the lower your fuel bills are likely to be.

Your current rating is **band E (48)**. The average rating for EPCs in Scotland is **band D (61)**.

The potential rating shows the effect of undertaking all of the improvement measures listed within your recommendations report.

Not energy efficient - higher running costs

Very environmentally friendly - lower CO₂ emissions

Current	Potential
42	55

Environmental Impact (CO₂) Rating

This graph shows the effect of your home on the environment in terms of carbon dioxide (CO₂) emissions. The higher the rating, the less impact it has on the environment.

Your current rating is **band E (42)**. The average rating for EPCs in Scotland is **band D (59)**.

The potential rating shows the effect of undertaking all of the improvement measures listed within your recommendations report.

Not environmentally friendly - higher CO₂ emissions

Top actions you can take to save money and make your home more efficient

Recommended measures	Indicative cost	Typical savings over 3 years
1 Floor insulation (suspended floor)	£800 - £1,200	£447.00
2 Floor insulation (solid floor)	£4,000 - £6,000	£726.00
3 Low energy lighting	£90	£594.00

A full list of recommended improvement measures for your home, together with more information on potential cost and savings and advice to help you carry out improvements can be found in your recommendations report.

To find out more about the recommended measures and other actions you could take today to stop wasting energy and money, visit [greenerscotland.org](https://www.greenerscotland.org) or contact Home Energy Scotland on 0808 808 2282.

THIS PAGE IS THE ENERGY PERFORMANCE CERTIFICATE WHICH MUST BE AFFIXED TO THE DWELLING AND NOT BE REMOVED UNLESS IT IS REPLACED WITH AN UPDATED CERTIFICATE

Summary of the energy performance related features of this home

This table sets out the results of the survey which lists the current energy-related features of this home. Each element is assessed by the national calculation methodology; 1 star = very poor (least efficient), 2 stars = poor, 3 stars = average, 4 stars = good and 5 stars = very good (most efficient). The assessment does not take into consideration the condition of an element and how well it is working. 'Assumed' means that the insulation could not be inspected and an assumption has been made in the methodology, based on age and type of construction.

Element	Description	Energy Efficiency	Environmental
Walls	Sandstone or limestone, as built, insulated (assumed)	★★★★☆	★★★★☆
	Cavity wall, as built, insulated (assumed)	★★★★☆	★★★★☆
Roof	Pitched, 200 mm loft insulation	★★★★☆	★★★★☆
	Pitched, insulated (assumed)	★★★☆☆	★★★☆☆
	Roof room(s), insulated (assumed)	★★★★☆	★★★★☆
Floor	Suspended, limited insulation (assumed)	—	—
	Solid, limited insulation (assumed)	—	—
Windows	Fully double glazed	★★★☆☆	★★★☆☆
Main heating	Air source heat pump, warm air, electric	★★☆☆☆	★★★★☆
	Electric storage heaters	★★★☆☆	★★☆☆☆
Main heating controls	Time and temperature zone control	★★★★★	★★★★★
	Manual charge control	★★☆☆☆	★★☆☆☆
Secondary heating	Room heaters, electric	—	—
Hot water	Oil range cooker, no cylinder thermostat	★★☆☆☆	★★☆☆☆
Lighting	Low energy lighting in 14% of fixed outlets	★★☆☆☆	★★☆☆☆

The energy efficiency rating of your home

Your Energy Efficiency Rating is calculated using the standard UK methodology, RdSAP. This calculates energy used for heating, hot water, lighting and ventilation and then applies fuel costs to that energy use to give an overall rating for your home. The rating is given on a scale of 1 to 100. Other than the cost of fuel for electrical appliances and for cooking, a building with a rating of 100 would cost almost nothing to run.

As we all use our homes in different ways, the energy rating is calculated using standard occupancy assumptions which may be different from the way you use it. The rating also uses national weather information to allow comparison between buildings in different parts of Scotland. However, to make information more relevant to your home, local weather data is used to calculate your energy use, CO₂ emissions, running costs and the savings possible from making improvements.

The impact of your home on the environment

One of the biggest contributors to global warming is carbon dioxide. The energy we use for heating, lighting and power in our homes produces over a quarter of the UK's carbon dioxide emissions. Different fuels produce different amounts of carbon dioxide for every kilowatt hour (kWh) of energy used. The Environmental Impact Rating of your home is calculated by applying these 'carbon factors' for the fuels you use to your overall energy use.

The calculated emissions for your home are 67 kg CO₂/m²/yr.

The average Scottish household produces about 6 tonnes of carbon dioxide every year. Based on this assessment, heating and lighting this home currently produces approximately 19 tonnes of carbon dioxide every year. Adopting recommendations in this report can reduce emissions and protect the environment. If you were to install all of these recommendations this could reduce emissions by 4 tonnes per year. You could reduce emissions even more by switching to renewable energy sources.

Estimated energy costs for this home

	Current energy costs	Potential energy costs	Potential future savings
Heating	£24,630 over 3 years	£23,988 over 3 years	
Hot water	£1,617 over 3 years	£852 over 3 years	
Lighting	£1,770 over 3 years	£954 over 3 years	
Totals	£28,017	£25,794	

These figures show how much the average household would spend in this property for heating, lighting and hot water. This excludes energy use for running appliances such as TVs, computers and cookers, and the benefits of any electricity generated by this home (for example, from photovoltaic panels). The potential savings in energy costs show the effect of undertaking all of the recommended measures listed below.

Recommendations for improvement

The measures below will improve the energy and environmental performance of this dwelling. The performance ratings after improvements listed below are cumulative; that is, they assume the improvements have been installed in the order that they appear in the table. Further information about the recommended measures and other simple actions to take today to save money is available from the Home Energy Scotland hotline which can be contacted on 0808 808 2282. Before carrying out work, make sure that the appropriate permissions are obtained, where necessary. This may include permission from a landlord (if you are a tenant) or the need to get a Building Warrant for certain types of work.

Recommended measures	Indicative cost	Typical saving per year	Rating after improvement	
			Energy	Environment
1 Floor insulation (suspended floor)	£800 - £1,200	£149	E 49	E 42
2 Floor insulation (solid floor)	£4,000 - £6,000	£242	E 50	E 44
3 Low energy lighting for all fixed outlets	£90	£198	E 51	E 44
4 Solar water heating	£4,000 - £6,000	£153	E 54	E 46
5 Solar photovoltaic panels, 2.5 kWp	£3,500 - £5,500	£628	D 58	E 49
6 Wind turbine	£15,000 - £25,000	£1403	D 67	D 55

Choosing the right improvement package

For free and impartial advice on choosing suitable measures for your property, contact the Home Energy Scotland hotline on 0808 808 2282 or go to www.greenerscotland.org.

About the recommended measures to improve your home's performance rating

This section offers additional information and advice on the recommended improvement measures for your home

1 Floor insulation (suspended floor)

Insulation of a floor will significantly reduce heat loss; this will improve levels of comfort, reduce energy use and lower fuel bills. Suspended floors can often be insulated from below but must have adequate ventilation to prevent dampness; seek advice about this if unsure. Further information about floor insulation is available from many sources including www.energysavingtrust.org.uk/scotland/Insulation/Floor-insulation. Building regulations generally apply to this work so it is best to check with your local authority building standards department.

2 Floor insulation (solid floor)

Insulation of a floor will significantly reduce heat loss; this will improve levels of comfort, reduce energy use and lower fuel bills. Insulating solid floors can present challenges; insulation laid on top of existing solid floors may impact on existing doors and finishes whilst lifting of a solid floor to insert insulation below will require consideration of the potential effect on both structural stability and damp proofing. It is advised to seek advice from a Chartered Structural Engineer or a registered Architect about this if unsure. Further information about floor insulation is available from many sources including www.energysavingtrust.org.uk/scotland/Insulation/Floor-insulation. Building regulations generally apply to this work and may also require a building warrant so it is best to check with your local authority building standards department.

3 Low energy lighting

Replacement of traditional light bulbs with energy saving bulbs will reduce lighting costs over the lifetime of the bulb, and they last many times longer than ordinary light bulbs. Low energy lamps and fittings are now commonplace and readily available. Information on energy efficiency lighting can be found from a wide range of organisations, including the Energy Saving Trust (<http://www.energysavingtrust.org.uk/home-energy-efficiency/lighting>).

4 Solar water heating

A solar water heating panel, usually fixed to the roof, uses the sun to pre-heat the hot water supply. This can significantly reduce the demand on the heating system to provide hot water and hence save fuel and money. Planning permission might be required, building regulations generally apply to this work and a building warrant may be required, so it is best to check these with your local authority. You could be eligible for Renewable Heat Incentive payments which could appreciably increase the savings beyond those shown on your EPC, provided that both the product and the installer are certified by the Microgeneration Certification Scheme (or equivalent). Details of local MCS installers are available at www.microgenerationcertification.org.

5 Solar photovoltaic (PV) panels

A solar PV system is one which converts light directly into electricity via panels placed on the roof with no waste and no emissions. This electricity is used throughout the home in the same way as the electricity purchased from an energy supplier. Planning permission might be required, building regulations generally apply to this work and a building warrant may be required, so it is best to check with your local authority. The assessment does not include the effect of any Feed-in Tariff which could appreciably increase the savings that are shown on this EPC for solar photovoltaic panels, provided that both the product and the installer are certified by the Microgeneration Certification Scheme (or equivalent). Details of local MCS installers are available at www.microgenerationcertification.org.

6 Wind turbine

A wind turbine provides electricity from wind energy. This electricity is used throughout the home in the same way as the electricity purchased from an energy supplier. Wind turbines are not suitable for all properties. The system's effectiveness depends on local wind speeds and the presence of nearby obstructions, and a site survey should be undertaken by an accredited installer. Planning permission might be required and building regulations generally apply to this work and a building warrant may be required, so it is best to check these with your local authority. The assessment does not include the effect of any Feed-in Tariff which could appreciably increase the savings that are shown on this EPC for a wind turbine, provided that both the product and the installer are certified by the Microgeneration Certification Scheme (or equivalent). Details of local MCS installers are available at www.microgenerationcertification.org.

Low and zero carbon energy sources

Low and zero carbon (LZC) energy sources are sources of energy that release either very little or no carbon dioxide into the atmosphere when they are used. Installing these sources may help reduce energy bills as well as cutting carbon.

LZC energy sources present:

- Air source heat pump

Your home's heat demand

In this section, you can see how much energy you might need to heat your home and provide hot water. These are estimates showing how an average household uses energy. These estimates may not reflect your actual energy use, which could be higher or lower. You might spend more money on heating and hot water if your house is less energy efficient. The table below shows the potential benefit of having your loft and walls insulated. Visit <https://energysavingtrust.org.uk/energy-at-home> for more information.

Heat demand	Existing dwelling	Impact of loft insulation	Impact of cavity wall insulation	Impact of solid wall insulation
Space heating (kWh per year)	39,230	N/A	N/A	N/A
Water heating (kWh per year)	3,598			

About this document

This Recommendations Report and the accompanying Energy Performance Certificate are valid for a maximum of ten years. These documents cease to be valid where superseded by a more recent assessment of the same building carried out by a member of an Approved Organisation.

The Energy Performance Certificate and this Recommendations Report for this building were produced following an energy assessment undertaken by an assessor accredited by Elmhurst (www.elmhurstenergy.co.uk), an Approved Organisation Appointed by Scottish Ministers. The certificate has been produced under the Energy Performance of Buildings (Scotland) Regulations 2008 from data lodged to the Scottish EPC register. You can verify the validity of this document by visiting www.scottishepcregister.org.uk and entering the report reference number (RRN) printed at the top of this page.

Assessor's name:	Mr. William Groundwater
Assessor membership number:	EES/018633
Company name/trading name:	William Groundwater
Address:	Castlehowe Sower Road Orkney Orphir KW17 2RE
Phone number:	01856 811765
Email address:	billy@orkneysurveying.co.uk
Related party disclosure:	No related party

If you have any concerns regarding the content of this report or the service provided by your assessor you should in the first instance raise these matters with your assessor and with the Approved Organisation to which they belong. All Approved Organisations are required to publish their complaints and disciplinary procedures and details can be found online at the web address given above.

Use of this energy performance information

Once lodged by your EPC assessor, this Energy Performance Certificate and Recommendations Report are available to view online at www.scottishepcregister.org.uk, with the facility to search for any single record by entering the property address. This gives everyone access to any current, valid EPC except where a property has a Green Deal Plan, in which case the report reference number (RRN) must first be provided. The energy performance data in these documents, together with other building information gathered during the assessment is held on the Scottish EPC Register and is available to authorised recipients, including organisations delivering energy efficiency and carbon reduction initiatives on behalf of the Scottish and UK governments. A range of data from all assessments undertaken in Scotland is also published periodically by the Scottish Government. Further information on these matters and on Energy Performance Certificates in general, can be found at www.gov.scot/epc.

Advice and support to improve this property

There is support available, which could help you carry out some of the improvements recommended for this property on page 3 and stop wasting energy and money. For more information, visit [greener-scotland.org](https://www.greener-scotland.org) or contact Home Energy Scotland on 0808 808 2282.

Home Energy Scotland's independent and expert advisors can offer free and impartial advice on all aspects of energy efficiency, renewable energy and more.

property questionnaire

Property Address	Eastbank, Bridge of Waithe, Stenness, orkney KW16 3ey
Seller(s)	
Completion date of Property Questionnaire	16.4.2025

Note for sellers

- Please complete this form carefully. It is important your answers are correct.
- The information in your answers will help ensure that the sale of your house goes smoothly. Please answer each question with as much detailed information as you can.
- If anything changes after you fill in this questionnaire but before the date of entry for the sale of your house, tell you solicitor or estate agent immediately.

Information to be given to prospective buyer(s)

1.	Length of Ownership
	How long have you owned the property? <input type="text" value="11yrs"/>
2.	Council Tax
	Which Council Tax band is your property in? <input type="checkbox"/> A <input type="checkbox"/> B <input type="checkbox"/> C <input checked="" type="checkbox"/> D <input type="checkbox"/> E <input type="checkbox"/> F <input type="checkbox"/> G <input type="checkbox"/> H
3.	Parking
	What are the arrangements for parking at your property? (Please tick all that apply) Garage <input checked="" type="checkbox"/> Allocated parking space <input type="checkbox"/> Driveway <input checked="" type="checkbox"/> On street <input type="checkbox"/> Resident Permit <input type="checkbox"/> Metered parking <input type="checkbox"/> Shared parking <input type="checkbox"/> Other (please specify) <input type="text"/>

property questionnaire

4.	Conservation area	
	Is your property in a designated Conservation Area (that is an area of special architectural or historical interest, the character or appearance of which it is desirable to preserve or enhance)?	No
5.	Listed buildings	
	Is your property a Listed Building, or contained within one (that is a building recognised and approved as being of special architectural or historical interest)?	No
6.	Alterations/Additions/Extensions	
a.	<p>(i) During your time in the property, have you carried out any structural alterations, additions or extensions (for example provision of an extra bath/shower room, toilet or bedroom)? <u>If you have answered yes</u>, please describe below the changes which you have made:</p> <div style="border: 1px solid black; padding: 5px; margin: 5px 0;"> <p>Alterations to reduce first floor balcony Creation of vehicular access and parking.</p> </div> <p>(ii) Did you obtain planning permission, building warrant, completion certificate and other consents for this work? <u>If you have answered yes</u>, the relevant documents will be needed by the purchaser and you should give them to your solicitor as soon as possible for checking. If you do not have the documents yourself, please note below who has these documents and your solicitor or estate agent will arrange to obtain them.</p>	<p>Yes</p> <p>Yes</p>
b.	<p>Have you had replacement windows, doors, patio doors or double-glazing installed in your property? If you have answered yes, please answer the three questions below:</p> <p>(i) Were the replacements the same shape and type as the ones you replaced?</p> <p>(ii) Did this work involve any changes to the window or door openings?</p> <p>(iii) Please describe the changes made to the windows doors, or patio doors (with approximate dates when the work was completed):</p> <div style="border: 1px solid black; height: 40px; margin-top: 5px;"></div>	<p>No</p> <p>Please select</p> <p>Please select</p>

property questionnaire

7.	Central heating	
	<p>Is there a central heating system in your property? (Note: a partial central heating system is one which does not heat all the main rooms of the property — the main living room, the bedroom(s), the hall and the bathroom).</p> <p><u>If you have answered yes or partial</u> – what kind of central heating is there?</p> <div style="border: 1px solid black; padding: 5px; margin: 5px 0;">Air source heat pumps and Storage heaters</div> <p>(examples: gas-fired, solid fuel, electric storage heating, gas-warm air).</p> <p>If you have answered yes, please answer the three questions below:</p>	Yes
	<p>(i) When was your central heating system or partial central heating system installed?</p> <div style="border: 1px solid black; padding: 5px; margin: 5px 0;">2015</div> <p>(ii) Do you have a maintenance contract for the central heating system?</p> <p>If you have answered yes, please give details of the company with which you have a maintenance contract:</p> <div style="border: 1px solid black; height: 30px; margin: 5px 0;"></div> <p>(iii) When was your maintenance agreement last renewed? (Please provide the month and year).</p> <div style="border: 1px solid black; height: 30px; margin: 5px 0;"></div>	No
8.	Energy Performance Certificate	
	Does your property have an Energy Performance Certificate, which is less than 10 years old?	Yes
9.	Issues that may have affected your property	
a.	<p>Has there been any storm, flood, fire or other structural damage to your property while you have owned it?</p> <p><u>If you have answered yes</u>, is the damage the subject of any outstanding insurance claim?</p>	<p>No</p> <p>Please select</p>

property questionnaire

b.	<p>Are you aware of the existence of asbestos in your property?</p> <p><u>If you have answered yes</u>, please give details:</p> <div data-bbox="172 327 1168 416" style="border: 1px solid black; height: 40px; margin-top: 10px;"></div>	No																								
10.	Services																									
a.	<p>Please tick which services are connected to your property and give details of the supplier:</p> <table border="1" data-bbox="172 629 1182 1346"> <thead> <tr> <th>Services</th> <th>Connected</th> <th>Supplier</th> </tr> </thead> <tbody> <tr> <td>Gas or liquid petroleum gas</td> <td><input type="checkbox"/></td> <td><div data-bbox="908 703 1176 752" style="border: 1px solid black; height: 22px;"></div></td> </tr> <tr> <td>Water mains or private water supply</td> <td><input checked="" type="checkbox"/></td> <td><div data-bbox="908 797 1176 848" style="border: 1px solid black; padding: 2px;">scottish water</div></td> </tr> <tr> <td>Electricity</td> <td><input checked="" type="checkbox"/></td> <td><div data-bbox="908 898 1176 949" style="border: 1px solid black; padding: 2px;">ovo energy</div></td> </tr> <tr> <td>Mains drainage</td> <td><input type="checkbox"/></td> <td><div data-bbox="908 999 1176 1048" style="border: 1px solid black; height: 22px;"></div></td> </tr> <tr> <td>Telephone</td> <td><input checked="" type="checkbox"/></td> <td><div data-bbox="908 1093 1176 1144" style="border: 1px solid black; padding: 2px;">bt</div></td> </tr> <tr> <td>Cable TV or satellite</td> <td><input type="checkbox"/></td> <td><div data-bbox="908 1193 1176 1245" style="border: 1px solid black; height: 22px;"></div></td> </tr> <tr> <td>Broadband</td> <td><input checked="" type="checkbox"/></td> <td><div data-bbox="908 1294 1176 1346" style="border: 1px solid black; padding: 2px;">bt</div></td> </tr> </tbody> </table>	Services	Connected	Supplier	Gas or liquid petroleum gas	<input type="checkbox"/>	<div data-bbox="908 703 1176 752" style="border: 1px solid black; height: 22px;"></div>	Water mains or private water supply	<input checked="" type="checkbox"/>	<div data-bbox="908 797 1176 848" style="border: 1px solid black; padding: 2px;">scottish water</div>	Electricity	<input checked="" type="checkbox"/>	<div data-bbox="908 898 1176 949" style="border: 1px solid black; padding: 2px;">ovo energy</div>	Mains drainage	<input type="checkbox"/>	<div data-bbox="908 999 1176 1048" style="border: 1px solid black; height: 22px;"></div>	Telephone	<input checked="" type="checkbox"/>	<div data-bbox="908 1093 1176 1144" style="border: 1px solid black; padding: 2px;">bt</div>	Cable TV or satellite	<input type="checkbox"/>	<div data-bbox="908 1193 1176 1245" style="border: 1px solid black; height: 22px;"></div>	Broadband	<input checked="" type="checkbox"/>	<div data-bbox="908 1294 1176 1346" style="border: 1px solid black; padding: 2px;">bt</div>

c.	<p><u>If you have answered yes</u> to 13(a) or (b), do you have any guarantees relating to this work?</p> <p><u>If you have answered yes</u> these guarantees will be needed by the purchaser and should be given to your solicitor as soon as possible for checking. If you do not have them yourself <u>please write below who has these documents</u> and your solicitor or estate agent will arrange for them to be obtained. You will also need to provide a description of the work carried out. This may be shown in the original estimate. Guarantees are held by:</p> <div data-bbox="172 1460 1165 1559" style="border: 1px solid black; padding: 5px;"> we have the original. solicitor has a copy </div>	Yes

property questionnaire

14.	Guarantees	
a.	<p>Are there any guarantees or warranties for any of the following:</p> <ul style="list-style-type: none"> (i) Electrical work (ii) Roofing (iii) Central heating (iv) National House Building Council (NHBC) (v) Damp course (vi) Any other work or installations (for example, cavity wall insulation, underpinning, indemnity policy) 	<p>No</p> <p>No</p> <p>No</p> <p>No</p> <p>No</p> <p>No</p>
b.	<p>If you have answered yes or 'with title deeds', please give details of the work or installations to which the guarantee(s) relate(s):</p> <div style="border: 1px solid black; height: 70px; width: 100%;"></div>	
c.	<p>Are there any outstanding claims under any of the guarantees listed above?</p> <p><u>If you have answered yes</u>, please give details:</p> <div style="border: 1px solid black; height: 70px; width: 100%;"></div>	No
15.	Boundaries	
	<p>So far as you are aware, has any boundary of your property been moved in the last 10 years?</p> <p><u>If you have answered yes</u>, please give details:</p> <div style="border: 1px solid black; height: 70px; width: 100%;"></div>	No

property questionnaire

16.	Notices that affect your property	
	In the past three years have you ever received a notice:	
a.	advising that the owner of a neighbouring property has made a planning application?	No
b.	that affects your property in some other way?	No
c.	that requires you to do any maintenance, repairs or improvements to your property?	No
	<u>If you have answered yes to any of a–c above</u> , please give the notices to your solicitor or estate agent, including any notices which arrive at any time before the date of entry of the purchaser of your property.	

Declaration by the seller(s)/or other authorised body or person(s)

I/We confirm that the information in this form is true and correct to the best of my/our knowledge and belief.

Signature(s): _____

Date: _____

PART 1 – GENERAL

1.1 THE SURVEYORS

The Seller has engaged the Surveyors to provide the Single Survey Report. The Seller has also engaged the Surveyors to provide an Energy Report in the format prescribed by the accredited Energy Company.

Once the Seller has conditionally accepted an offer to purchase made in writing, the Purchaser's lender or conveyancer may request that the Surveyors provide general comment on standard appropriate supplementary documentation. In the event of a significant amount of documentation being provided to the Surveyors, an additional fee may be incurred by the Purchaser. Any additional fee will be agreed in writing.

If information is provided to the Surveyors during the conveyancing process which materially affects the valuation stated in the Report, the Surveyors reserve the right to reconsider the valuation. Where the Surveyors require to amend the valuation in consequence of such information, they will issue an amended Report to the Seller. It is the responsibility of the Seller to ensure that the amended Report and generic Mortgage Valuation Report are transmitted to every prospective Purchaser.

The individual Surveyor will be a member of the Royal Institution of Chartered Surveyors who is competent to survey, value and report upon Residential Property.¹

If the Surveyors have had a previous business relationship within the past two years with the Seller or Sellers Agent or relative to the property, they will be obliged to indicate this by ticking the adjacent box. ☐

The Surveyors have a written complaints handling procedure. This is available from the offices of the Surveyors at the address stated.

1.2 THE REPORT

The Surveyors will not provide an amended Report on the Property, except to correct factual inaccuracies.

The Report will identify the nature and source of information relied upon in its preparation.

The Surveyor shall provide a Market Value of the Property, unless the condition of the Property is such that it would be inappropriate to do so. A final decision on whether a loan will be granted rests with the Lender who may impose retentions in line with their lending criteria. The date of condition and value of the property will be the date of inspection.

Prior to 1 December 2008, Purchasers have normally obtained their own report from their chosen Surveyor. By contrast, a Single Survey is instructed by the Seller and made available to all potential Purchasers in expectation that the successful Purchaser will have relied upon it. The Royal Institution of Chartered Surveyors rules require disclosure of any potential conflict of interest when acting for the Seller and the Purchaser in the same transaction. The Single Survey may give rise to a conflict of interest and if this is of concern to any party they are advised to seek their own independent advice.

The/-

¹ Which shall be in accordance with the current RICS Valuation Standards (The Red Book) and RICS Rules of Conduct.

The Report and any expressions or assessments in it are not intended as advice to the Seller or Purchaser or any other person in relation to an asking price or any other sales or marketing decisions.

The Report is based solely on the Property and is not to be relied upon in any manner whatsoever when considering the valuation or condition of any other property.

If certain minor matters are mentioned in the Report it should not be assumed that the Property is free of other minor defects.

Neither the whole nor any part of the Report may be published in any way, reproduced or distributed by any party other than the Seller, prospective purchasers and the Purchaser and their respective professional advisers without the prior written consent of the Surveyors.

1.3 LIABILITY

The Report is prepared with the skill and care reasonably to be expected of a competent residential surveyor who is a member of the Royal Institution of Chartered Surveyors.

The Report is addressed to the Seller and was prepared in the expectation that it (or a complete copy) along with these Terms and Conditions (or a complete copy) would (or, as the case might be, would have been) be disclosed and delivered to

- the Seller;
- any person(s) noting an interest in purchasing the Property from the Seller;
- any person(s) who make(s) (or on whose behalf is made) an offer to purchase the Property, whether or not that offer is accepted by the Seller;
- the Purchaser; and
- the professional advisers of any of these.

The Surveyors acknowledge that their duty of skill and care in relation to the Report is owed to the Seller and to the Purchaser. The Surveyors accept no responsibility or liability whatsoever in relation to the Report to persons other than the Seller and the Purchaser. The Seller and Purchaser should be aware that if a Lender seeks to rely on this Report they do so at their own risk. In particular, the Surveyors accept no responsibility or liability whatsoever to any Lender in relation to the Report. Any such Lender relies upon the Report entirely at their own risk.

1.4 INTELLECTUAL PROPERTY

Any intellectual property rights whatsoever (including copyright) in and to the Report, excluding the headings and rubrics, are the exclusive property of the Surveyors and shall remain their exclusive property unless they assign the same to any other party in writing.

1.5 PAYMENT

The Surveyors are entitled to refrain from delivering the Report to anyone until the fee and other charges for it notified to the Seller have been paid. Additional fees will be charged for subsequent inspections and Reports.

1.6 CANCELLATION

The Seller will be entitled to cancel the inspection by notifying the Surveyor's office at any time before the day of the inspection. /-

The Surveyor will be entitled not to proceed with the inspection (and will so report promptly to the Seller) if after arriving at the property, the Surveyor concludes that it is of a type of construction of which the surveyor has insufficient specialist knowledge to be able to provide the inspection satisfactorily. The Surveyor will also be entitled not to proceed if after arriving at the property, the surveyor concludes that the property is exempt under Part 3 of The Housing (Scotland) Act 2006 as detailed in the (Prescribed Documents) Regulations 2008. If there is a potential threat to their health or personal safety, the inspection may be postponed or cancelled, at the Surveyor's discretion.

In the case of cancellation or the inspection not proceeding, the Surveyor will refund any fees paid by the Seller for the inspection and Report, except for expenses reasonably incurred and any fee due in light of the final paragraph of this section.

In the case of cancellation by the Seller, for whatever reason, after the inspection has taken place but before a written report is issued, the Surveyor will be entitled to raise an Invoice equivalent to 80% of the agreed fee.

1.7 PRECEDENCE

If there is any incompatibility between these Terms and Conditions and the Report, these Terms and Conditions take precedence.

1.8 DEFINITIONS

- the "Lender" is the party who has provided or intends or proposes to provide financial assistance to the Purchaser towards the purchase of the Property and in whose favour a standard security will be granted over the Property;
- the "Market Value" is *The estimated amount for which a Property should exchange on the date of valuation between a willing buyer and a willing seller in an arm's length transaction after proper marketing wherein the parties had each acted knowledgeably, prudently and without compulsion;*
- the "Property" is the property which forms the subject of the Report;
- the "Purchaser" is the person (or persons) who enters into a contract to buy the Property from the Seller;
- a "prospective Purchaser" is anyone considering buying the Property.
- the "Report" is the report, of the kind described in Part 2 of these Terms and Conditions and in the form set out in part 1 of Schedule 1 of the Housing (Scotland) Act 2006 (Prescribed Documents) Regulations 2008;
- the "Seller" is/are the proprietor(s) of the Property;
- the "Surveyor" is the author of the Report on the Property; and
- the "Surveyors" are the firm or company of which the Surveyor is an employee, director, member or partner (unless the Surveyor is not an employee, director, member of partner, when the "Surveyors" means the Surveyor) whose details are set out at the head of the Report.
- the "Energy Report" is the advice given by the accredited Energy Company, based on information collected by the Surveyor during the Inspection, and also includes an Energy Performance Certificate, in a Government approved format.

² Which shall be in accordance with the current RICS Valuation Standards (the Red Book) and RICS Rules of Conduct

PART 2 – DESCRIPTION OF THE REPORT

2.1 THE SERVICE

The Single Survey is a Report by an independent Surveyor, prepared in an objective way regarding the condition and value of the Property on the day of the inspection, and who is a member of the Royal Institution of Chartered Surveyors. It includes an Energy Report as required by Statute and this is in the format of the accredited Energy Company.

2.2 THE INSPECTION

The Inspection is a general surface examination of those parts of the Property which are accessible: in other words, *visible and readily available for examination from ground and floor levels, without risk of causing damage to the Property or injury to the Surveyor.*

All references to visual inspection refer to an inspection from within the property at floor level and from ground level within the site and adjoining public areas, without the need to move any obstructions. Any references to left or right are taken facing the front of the property.

The Inspection is carried out with the Seller's permission, without causing damage to the building or contents. Furniture, stored items and insulation are not moved.

Unless identified in the report the Surveyor will assume that no harmful or hazardous materials have been used in the construction. The presence or possible consequences of any site contamination will not be researched.

The Surveyor will not carry out an asbestos inspection, and will not be acting as an asbestos inspector in completing a Single Survey of properties that may fall within the Control of Asbestos in the Workplace Regulations. In the case of flats it will be assumed that there is a duty holder, as defined in the Regulations and that a Register of Asbestos and effective Management Plan is in place, which does not require any expenditure, or pose a significant risk to health. No enquiry of the duty holder will be made.

2.3 THE REPORT

The Report will be prepared by the Surveyor who carried out the property inspection and will describe various aspects of the property as defined by the headings of the Single Survey report with the comments being general and unbiased. The report on the location, style and condition of the property, will be concise and will be restricted to matters that could have a material effect upon value and will omit items that, in the Surveyors opinion, are not significant. If certain minor matters are mentioned, it should not be interpreted that the property is free of any other minor defects.

Throughout the report, the following repair categories will be used to give an overall opinion of the state of repair and condition of the property.

2.3.1 Category 3: Urgent repairs or replacement are needed now. Failure to deal with them may cause problems to other parts of the property or cause a safety hazard. Estimates for repairs or replacement are needed now.

2.3.2 Category 2: Repairs or replacement requiring future attention, but estimates are still advised.

2.3.3 Category 1: No immediate action or repair is needed.

WARNING: /-

WARNING: If left unattended, even for a relatively short period, Category 2 repairs can rapidly develop into more serious Category 3 repairs. The existence of Category 2 or Category 3 repairs may have an adverse effect on marketability, value and the sale price ultimately achieved for the property. This is particularly true during slow market conditions when the effect can be considerable. Parts of the property, which cannot be seen or accessed, will not be reported upon and this will be stated. If the Surveyor suspects that a defect may exist within an unexposed area and which could have a material effect upon the value, he may recommend further investigation by specialist contractors.

2.4 SERVICES

Surveyors are not equipped or qualified to test the services and therefore no comment can be interpreted as implying that the design, installation and function of the services are in accordance/compliance with regulations, safety and efficiency expectations. However, comment is made where there is cause to suspect significant defects or shortcomings with the installations. No tests are made of any services or appliances.

2.5 ACCESSIBILITY

A section is included to help identify the basic information interested parties need to know to decide whether to view a property.

2.6 ENERGY REPORT

A section is included that makes provision for an Energy Report, relative to the property. The Surveyor will collect physical data from the property and provide such data in a format required by an accredited Energy Company. The Surveyor cannot of course accept liability for any advice given by the Energy Company.

2.7 VALUATION AND CONVEYANCER ISSUES

The last section of the Report contains matters considered relevant to the Conveyancer (Solicitor). It also contains the Surveyor's opinion both of the market value of the property and of the re-instatement cost, as defined below.

Market Value "The estimated amount for which a property should exchange on the date of valuation within a willing buyer and a willing seller in an arms-length transaction after proper marketing wherein the parties had each acted knowledgeably, prudently and without compulsion." In arriving at the opinion of the Market Value the Surveyor also makes various standard assumptions covering, for example, vacant possession; tenure and other legal considerations; contamination and hazardous materials; the condition of un-inspected parts; the right to use mains services; and the exclusion of curtains, carpets etc from the valuation. In the case of flats, the following further assumptions are made that:

- *There are rights of access and exit over all communal roadways, corridors, stairways etc and to use communal grounds, parking areas, and other facilities;
- *There are no particularly troublesome or unusual legal restrictions;
- *There is no current dispute between the occupiers of the flats or any outstanding claims or losses; and the costs of repairs to the building are shared among the co-proprietors on an equitable basis.

Any additional assumption, or any found not to apply, is reported.

"Re-instatement cost" /-

"Re-instatement cost" *is an estimate for insurance purposes of the current cost of rebuilding the Property in its present form* unless otherwise stated. This includes the cost of rebuilding the garage and permanent outbuildings, site clearance and professional fees, but excludes VAT (except on fees).

Sellers or prospective Purchasers may consider it prudent to instruct a reinspection and revaluation after a period of 12 weeks (or sooner if appropriate) to reflect changing circumstances in the market and/or in the physical condition of the Property.
