THE YEAR WE  
STARTED MAKING  
DREAM HOMES A REALITY

**At Springfield Gardens, we are not only able to offer you a desirable location, but we are also dedicated to building quality new homes that stand the test of time.**

Visit one of our developments built 10 years ago and see how the community has developed along with the landscaping and house type designs. As one of the leading privately-owned house builders in the country, our success is based on strong traditions of quality, value for money and a genuine desire to build homes that give our customers years of pleasure.

The company is still owned by John Bloor who is actively involved within the day to day running of the business to ensure the high quality we pride ourselves on is achieved on all our homes.

Our approach to the design of every new location we produce goes far beyond the provision of superior homes for today's varied lifestyle. We make every effort to conserve the natural balance of each location including the conservation of wildlife and the preservation of natural features.

Care and consideration is also taken to ensure that the environmental impact of every new home we build is kept to a minimum.

Whichever home you choose, you will find that our homes with their high specification, provide not only maximum comfort, but greater freedom of movement.

Plus, reserve a Bloor home in the early stages of construction and you will have the freedom of choice to select from our range of finishes for your kitchen, bathroom and en suite facilities.

Once reserved, you will be able to take advantage of "Your Choice" which allows you to choose additional fixtures and fittings to personalise your new Bloor home, or upgrade to a higher specification from the standard range used on this development at an extra cost.

We are proud to be building in Ash Green, bringing quality homes and developing communities.
