SITUATION

THE PROPERTY

The Beach House is a substantial coastal villa, originally built in 1908 for a sea captain, offering breath taking, far-reaching views across to St Ives Bay.

Upon entering through the front sunroom, you are welcomed into a grand hallway showcasing elegant period features, including ornate archways, intricate corning, and tessellated tiled flooring.

Off the central hallway are four spacious double bedrooms, one of which boasts spectacular sea views. The generous sitting room, filled with natural light, seamlessly connects to a recently added conservatory, creating an exceptional space to appreciate the property's coastal setting year-round. A glazed wooden partition leads into an additional sitting room, complete with a wood-burning stove, enhancing the home's warmth and charm.

Further along the hallway, you'll find a shower room and a family bathroom, before reaching the impressive 27ft country-style kitchen. This inviting space features classic shaker units, a range cooker, and all the character of a traditional Cornish country kitchen. Adjacent to the kitchen is a large utility/pantry storage room and an additional washroom.

A staircase from the central hallway rises to the first floor, where four more large double bedrooms enjoy elevated coastal views. This level is served by a family bathroom.

A separate external staircase provides independent access to the first floor, adding a high degree of flexibility to the accommodation, whether for multi-generational living, holiday rental potential, or guest quarters.

OUTSIDE

The property is approached via its own private driveway, leading to a spacious rear parking area, capable of accommodating multiple vehicles.

To the front of The Big Beach House, a large lawned garden provides uninterrupted coastal views, creating a stunning and peaceful outdoor setting. One side of the garden is bordered by elderflower trees, offering natural privacy during the summer months.

A large timber summer house is perfectly positioned to take full advantage of the breathtaking sea views year-round. Additionally, a block-built garage offers versatile space, ideal for storage, a studio, or even additional accommodation, subject to the necessary consents.

At the rear, an additional block garage and separate outdoor storage areas provide ample space for beach equipment, water sports gear, or general storage, enhancing the home's practicality and coastal lifestyle appeal.

A scenic view of a coastal area. In the foreground, a wooden picnic table sits on a grassy field. Behind the table is a row of tall, green, spiky plants. In the middle ground, a calm body of water stretches across the frame. In the background, a hillside covered in houses and buildings is visible under a bright blue sky with scattered white clouds.
