## DESCRIPTION

Northolt 68 is a two-storey industrial/warehouse building which has undergone a complete refurbishment programme. It provides accommodation over two floors within a fully gated, secure yard area suitable for both loading and parking.

The front elevation incorporates four loading bays complete with dock levelling positions with a level access loading door available to the rear of the property. Internally the building offers two floors of storage/warehouse accommodation with ancillary office and welfare space situated to the ground level. The building benefits from a goods lift with a loading capacity of 6 tonnes. In addition, there are two apertures within the first-floor slab to allow fork lift operation between both floors. The property sits on a broadly rectangular site of circa 1.22 acres, with frontage to the Grand Union Canal.
