Previously a mixture of outbuilding and barns for George Cottage, George Street, this detached barn conversion measures 2045 Sqft /190 Sqm and provides living accommodation over two levels.

Upon entering the property through the main barn, you enter an elegant porch which in turn leads you through to the main living space. The main living space is within the main barn and benefits from vaulted ceilings with exposed wooden beams, a mixture of Velux and wooden framed windows providing an abundance of natural light and a mezzanine floor, perfect for an office or snug. Off the main living space is an inner hallway which leads through to the generous utility area and ground floor family bathroom suite. Within the inner hallway are stairs leading up to the first floor which houses the master bedroom suite, with an en-suite shower room. Continuing from the inner hall is a generous office/formal dining room and further on, a spacious kitchen/breakfast room benefitting from exposed beams, pantry, shaker style units and space for whitegoods. The property benefits from two substantial outbuildings, a carport and large shed which could potentially be incorporated into the existing footprint subject to the relevant planning consents being granted.

Externally – The sweeping gravel laid driveway provides off road parking for several vehicles. The large courtyard garden located between the main barn and the kitchen/breakfast area is laid predominantly to hardstanding and has an array of mature, raised flower beds, a real oasis for those who are keen on gardening.
