COMMUNAL WORKS

The owners of the block of flats became aware that common repairs were required in order to bring the building into good repair. A Tenement Condition Survey was undertaken in September 2024 on behalf of joint owners, which is available on request. An exhaustive list of recommended works was provided, and it is estimated to costs in the region of £58,000 to complete all of the recommended works which would be shared between the eight proprietors. However, grant funding is available from the Local Authority and an owners' association is required to be constituted in order to access the funding. Discussions are ongoing with the Local Authority and owners regarding the grant funding, the owners' association and also the level of repairs to be carried out. A purchaser will require to be party to these discussions upon completion.
