Our property is located on the seafront, in the town of Santa Eulalia del Río, one of the quietest and best communicated areas of the island of Ibiza, where you can enjoy the sun, the white sand and the turquoise waters.

In addition to the beautiful beaches and coves near Santa Eulalia, the town has other attractions such as its old quarter or the pleasant area of the marina and the promenade, as well as the only river in the Balearic Islands.

It is also a renowned gastronomic destination.

The beach of Santa Eulalia, quiet and familiar, is located a few meters away from the property and has all the essential services.

Perfect location with the sea at your feet

Waves Marina by Ncalma

Homes is a unique development of 32 luxury 2, 3 and 4 bedroom properties built in a waterfront residential building next to the marina.

With easy access to the beach, a rooftop infinity pool, private security and a very pleasant climate all year round, it offers an excellent opportunity to invest and enjoy the island at the same time.

The homes at Waves Marina have very large and bright spaces, open to the outside, allowing you to enjoy breathtaking sea views with absolute privacy.

Our mission is to promote design real estate developments, very efficient in space and maintenance and with many services on request.

We believe in product customization, so that our clients can decide which services to invest in.

Uniquely designed properties, inspired by the Mediterranean Sea
