REFURBISHED INDUSTRIAL / MANUFACTURING UNIT

- High Quality refurbished industrial / manufacturing unit
- Prominent location fronting the Heads of the Valley Road
- Statement glazed headquarter offices and entrance
- Strategically located on the Heads of the Valleys Road
- 24 hour access, 365 days of the year
- 7.5m clear internal height

LOCATION

The property is strategically located on Rassau Industrial Estate adjacent to the A465 (Heads of the Valleys Road) in the heart of the South Wales Valleys.

The A465 has under-gone significant improvement works to create 40 km of high-quality dual carriageway between Abergavenny and Hirwaun, enhancing the connections to Swansea and the West Midlands and improving both travel time, reliability and resilience. The route to the east of Ebbw Vale is complete. The final two stages, to the west, will be completed in summer 2025.

The unit is located under half a mile from the nearest junction to the A456 which connects the site with Ebbw Vale approximately 3 miles to the South of the estate and Merthyr 6 miles to the West where the A470 dual carriage way provides access South to J32 of the M4 Motorway.

The unit is well located so that an occupier can benefit and build relationships with Coleg Gwent and their new High Value Engineering Centre (HiVE) which is due to welcome its first pupils in Autumn 2024.

DESCRIPTION

The unit has been comprehensively refurbished throughout and includes the introduction of a new high quality glazed offices/showroom space to the front of the unit providing an excellent headquarter appearance to the property.

The main unit is of portal frame construction with elevations of blockwork at the lower levels with metal profile cladding to the elevations. The roof incorporates translucent panels providing excellent natural light to the warehouse floor.

The unit benefits from a main warehouse and ramped access to a secondary warehouse, 2 storey offices with welfare facilities and secure yard.

Externally the property has substantial space for parking, loading and vehicle circulation space.
