Property details

DESCRIPTION

These beautiful 1, 2, 3 and 4 bed homes have been designed to provide you with sustainable living. The technology and systems they use help reduce carbon emissions, reduce energy bills, and emit, on average, at least 20% less CO² than a typical new build. Perfect for both families and first-time buyers.

Solar PV Panels

Cornovii Homes really wants to help its customers save money on their electric bills. That's why they install solar PV panels as standard to all their homes at Ellesmere Wharf. They will be reducing your energy bills from the moment you move into your new home. All you need to do is simply get in touch with your electricity supplier and register for a Feed-in Tariff (subject to availability).

All the homes at Ellesmere Wharf are rated A for energy efficiency. All Cornovii homes come with an Energy Performance Certificate (EPC) containing information about the property's predicted energy use and typical costs.

Hive Thermostat

Ring Doorbell

Cornovii want to give our customers peace of mind. Therefore, they fit a Ring doorbell to all their homes. With its built-in video camera, you will always know exactly who is at your front door!

Own or thinking of owning an electric vehicle. Well good news! Your home already has the facility to fit an EV charger. This enables you to fit up to a 7KW rapid charger when you need it.

There is an annual service charge for each home for 2023/2024 this is £488.01 per annum and we would recommend this is verified during pre contract enquiries.

LOCATION

Ellesmere Wharf can be found in the most idyllic semi-rural location in the thriving market town of Ellesmere, also known as 'Shropshire's Lake District.' Situated alongside the Shropshire Union Canal and only a short walk from the centre of the town Cornovii's new homes at Ellesmere Wharf can be found in the most idyllic semi-rural location in the thriving market town of Ellesmere, also known as 'Shropshire's Lake District.'
