BORN IN CORNWALL

In the heart of Cornwall's most popular seaside town, we have created a new kind of peace. An unforgettable location with staggering views. A curated sensory experience of everything we love most about Newquay.

A slice of heaven awaits the intrepid. With its own beach access incorporating private steps to the sand, carved into the granite bedrock, this is your chance to own a piece of a landmark Cornish view.

A commanding location above Great Western beach sit 19 luxurious clifftop properties boasting sensational views across the inspirational coastline. Rugged landscapes are enjoyed effortlessly while listening to the rustle of the palms and breaking waves beneath, all from within the refined comfort of your home.

An aerial photograph of a modern, multi-story resort building with a grey facade and stone accents, situated on a cliffside. The building features large windows and a central courtyard with palm trees. In the foreground, there is a parking lot and a wooden fence. The background shows a wide, sandy beach with people, waves breaking on the shore, and a clear blue ocean extending to a distant cliffline under a bright sky.

your clifftop paradise awaits

WELCOME

Re-imagined from its previous life as the site of the Trebarwith Hotel, Gwel Trebarwith renews this forgotten corner of Neqquay in tremendous fashion. A diverse offering of 16 new build properties along with three renovated dwellings all set within their own grounds, high above the golden sands of Great Western. Accessible via your own private steps, the miles of Newquay's beaches are all at your fingertips whenever you choose to enjoy them, whether it's the serenity of a sunrise shared only with the waves, or a sunset from the water as you await your next wave.

Just as Gwel Trebarwith sits within the border between ocean and land, our buildings embrace the gap between modern construction and renewable energy. Formed from a robust architectural design, including locally sourced Cornish stone exteriors and with a strong focus on thermally efficient design, our homes are built for 21st century living.

As the world becomes more environmentally aware and energy costs rise, the value of a modern construction centred on energy conservation and efficiency becomes all the more valuable. From inception, all of our new homes have been designed to offer a comfortable, manageable habitat for all of our occupants, catering for all of your needs from the moment you arrive.

Featuring a host of renewable components designed to work in harmony with the buildings aid in reducing your impact on the wider world whilst maintaining all the creature comforts you would expect.

it's all yours

THIS IS YOUR DESTINATION

Set within the heart of Cornwall's thriving hub of Newquay, Gwel Trebarwith is a centrally located, prime development.

The reinvention of this location has been extensive and uncompromising in its detailing and servicing. From within the securely gated development, there are private steps to Great Western beach, accessed from a private pathway, straight out of your front door. A secluded rear patio area delivers the perfect place to watch the waves roll in as you take in this magnificent location in all its glory.

Getting here couldn't be easier, with major travel routes by car, rail and train all within 10 miles, not to mention touching distance of The South West Coast Path, with which the development shares a boundary.

Be prepared to enjoy the diverse offerings of Cornwall's largest town coupled with eleven beaches within the area - Gwel Trebarwith is your destination.

sit back and relax

IT IS IN OUR FABRIC

THE AIR YOU BREATHE

Utilising the air tight construction of the buildings, fresh, pre heated air circulates around habitable rooms, delivering fantastic air quality for you and your guests, 24 hours a day, automatically by way of individual Mechanical Ventilation Heat Recovery systems. Filtering the incoming air and passing it through a heat exchanger (warmed by the outgoing air), the system harvests over 95% of the energy in the extracted air, offering inhabitants a cleaner, more environmentally friendly approach to air handling.

AIR TO HEAT

Air Source Heat Pumps service all of our new build homes at Gwel Trebarwith, these incredibly efficient units provide year round heating and hot water without any combustion or emissions. Harnessing ambient energy in the air and turning it into heat is at the forefront of the global movement away from fossil fuels and carbon emissions, we embrace that movement. In harmony with nature, coupled with a highly insulated construction, these units provide the most environmentally sympathetic way to heat your home. Each area of the home benefits from a hardwired thermostat with individual controls to enable maximum comfort without wasting heat where it is not required.

MORE THAN LIGHT

Drenched with light in every room, full height double glazed, argon filled windows offer yet another nod to sustainability with very efficient units offering the best in modern design whilst ensuring the precious heat you produce is not lost. Additionally, low energy LED lighting fixtures throughout offer a low impact, maximum output return on every kilowatt consumed. Coupled with a smart home system that delivers flexibility and control in every room. With smart lighting controls and presence sensors in communal areas, your house knows where to save energy and how to keep you comfortable.

ARRIVE AND THRIVE

Our homes are designed to be enjoyed by one and all, with adaptable designs suitable for varying arrangements and alternate living spaces. Furthermore, they are inclusive of all the modern conveniences you would expect from a premium development. With fully fitted kitchens and appliance packs, including boiling hot water taps and quartz stone worktops, durable oak flooring and large format tiling surrounding the en suites and bathrooms. Bring your belongings and you'll be ready to move in on day one.

SECURE FOR SURE

Whether you're arriving for the first time or returning to your home, ease of access whilst maintaining high standards of security is part and parcel of our development. With remote controlled security gates to the parking area at the rear of the development as well as video intercom systems, to ensure your home is safe and secure. Pedestrian access gates are also security enabled for peace of mind, however you arrive.

DELIGHT IN DETAIL

THE HEART OF THE HOME

Far more than cooking, we know how important the kitchen is to life in a happy home. That's why we have gone the extra mile in terms of quality, and fixtures. We have partnered with leading manufacturer, Mayflower Kitchens to bring you a fully specified facility to enjoy and create. Complete with appliance packs, Calacatta quartz worktops accompanied by Qooker boiling water taps await.

WASH AND SHINE

Complimenting each property are the en suite shower rooms and bathrooms which are adorned in large format porcelain tiles, recessed cabinetry and under-basin storage units. High quality Duravit and Crosswater items fulfil all of the sanitary and brass wares. Furthermore all properties enjoy an external shower for washing out your wetsuit or cleaning off the dog.

CALM UNDER FOOT

Enjoy luxurious floor coverings. Hard wearing, responsibly sourced engineered oak flooring, porcelain floor tiles, high quality underlay and carpets all come as standard throughout all of our homes. All floor treatments are tested for suitability to our underfloor heating system, so you can sit back and enjoy.

THE GREAT OUTDOORS

We know it's not all about our beautiful homes and incredible views. Landscaped gardens surround Gwel Trebarwith, with meandering paths and various tiers of communal garden space to enjoy. Every property has a minimum of one balcony or outside space for the ground floor properties.

PEACE OF MIND

Our homes are all warranted by an insurance backed policy for 10 years to cover any structural defects in that period. Furthermore, the initial two year period of that warranty covers snagging defects across the property. Our specification carries proprietary equipment throughout meaning that the items are from know brands which also hold their own independent warranties for you as a homeowner.
