# INVEST AT THE SOURCE OF LONDON'S GROWTH

Three Waters sits within London's fastest-growing area.<sup>1</sup> Over half of the Capital's population now live east of Tower Bridge.<sup>2</sup>

East London is a beacon for the most ambitious City workers, creatives and entrepreneurs, all demanding competitively-priced homes with rapid journey times.

London's shifting epicentre makes for strong capital growth prospects.

In nearby Stratford property prices have risen by 82% in the last five years alone.<sup>3</sup>

In Bromley-by-Bow house prices have outperformed the wider Tower Hamlets market during the past decade, climbing 67%, compared to 54% for the wider borough.<sup>4</sup>

In neighbouring West Ham property values are set to rise more than 35% by 2021.<sup>5</sup>

# BOW CREEK IS WHERE INVESTMENT MEETS RETURN

Where public and private finance converge, smart property buyers follow.

TfL, Tower Hamlets Council and the London Legacy Development Corporation are investing over £9m to upgrade the area's transport infrastructure.<sup>1</sup> Tower Hamlets Council is creating a new district centre that will bring new shops, offices, a hotel, a school and riverside park space.

Now, creating opportunity out of the optimism, Mount Anvil and Peabody are investing in E3.

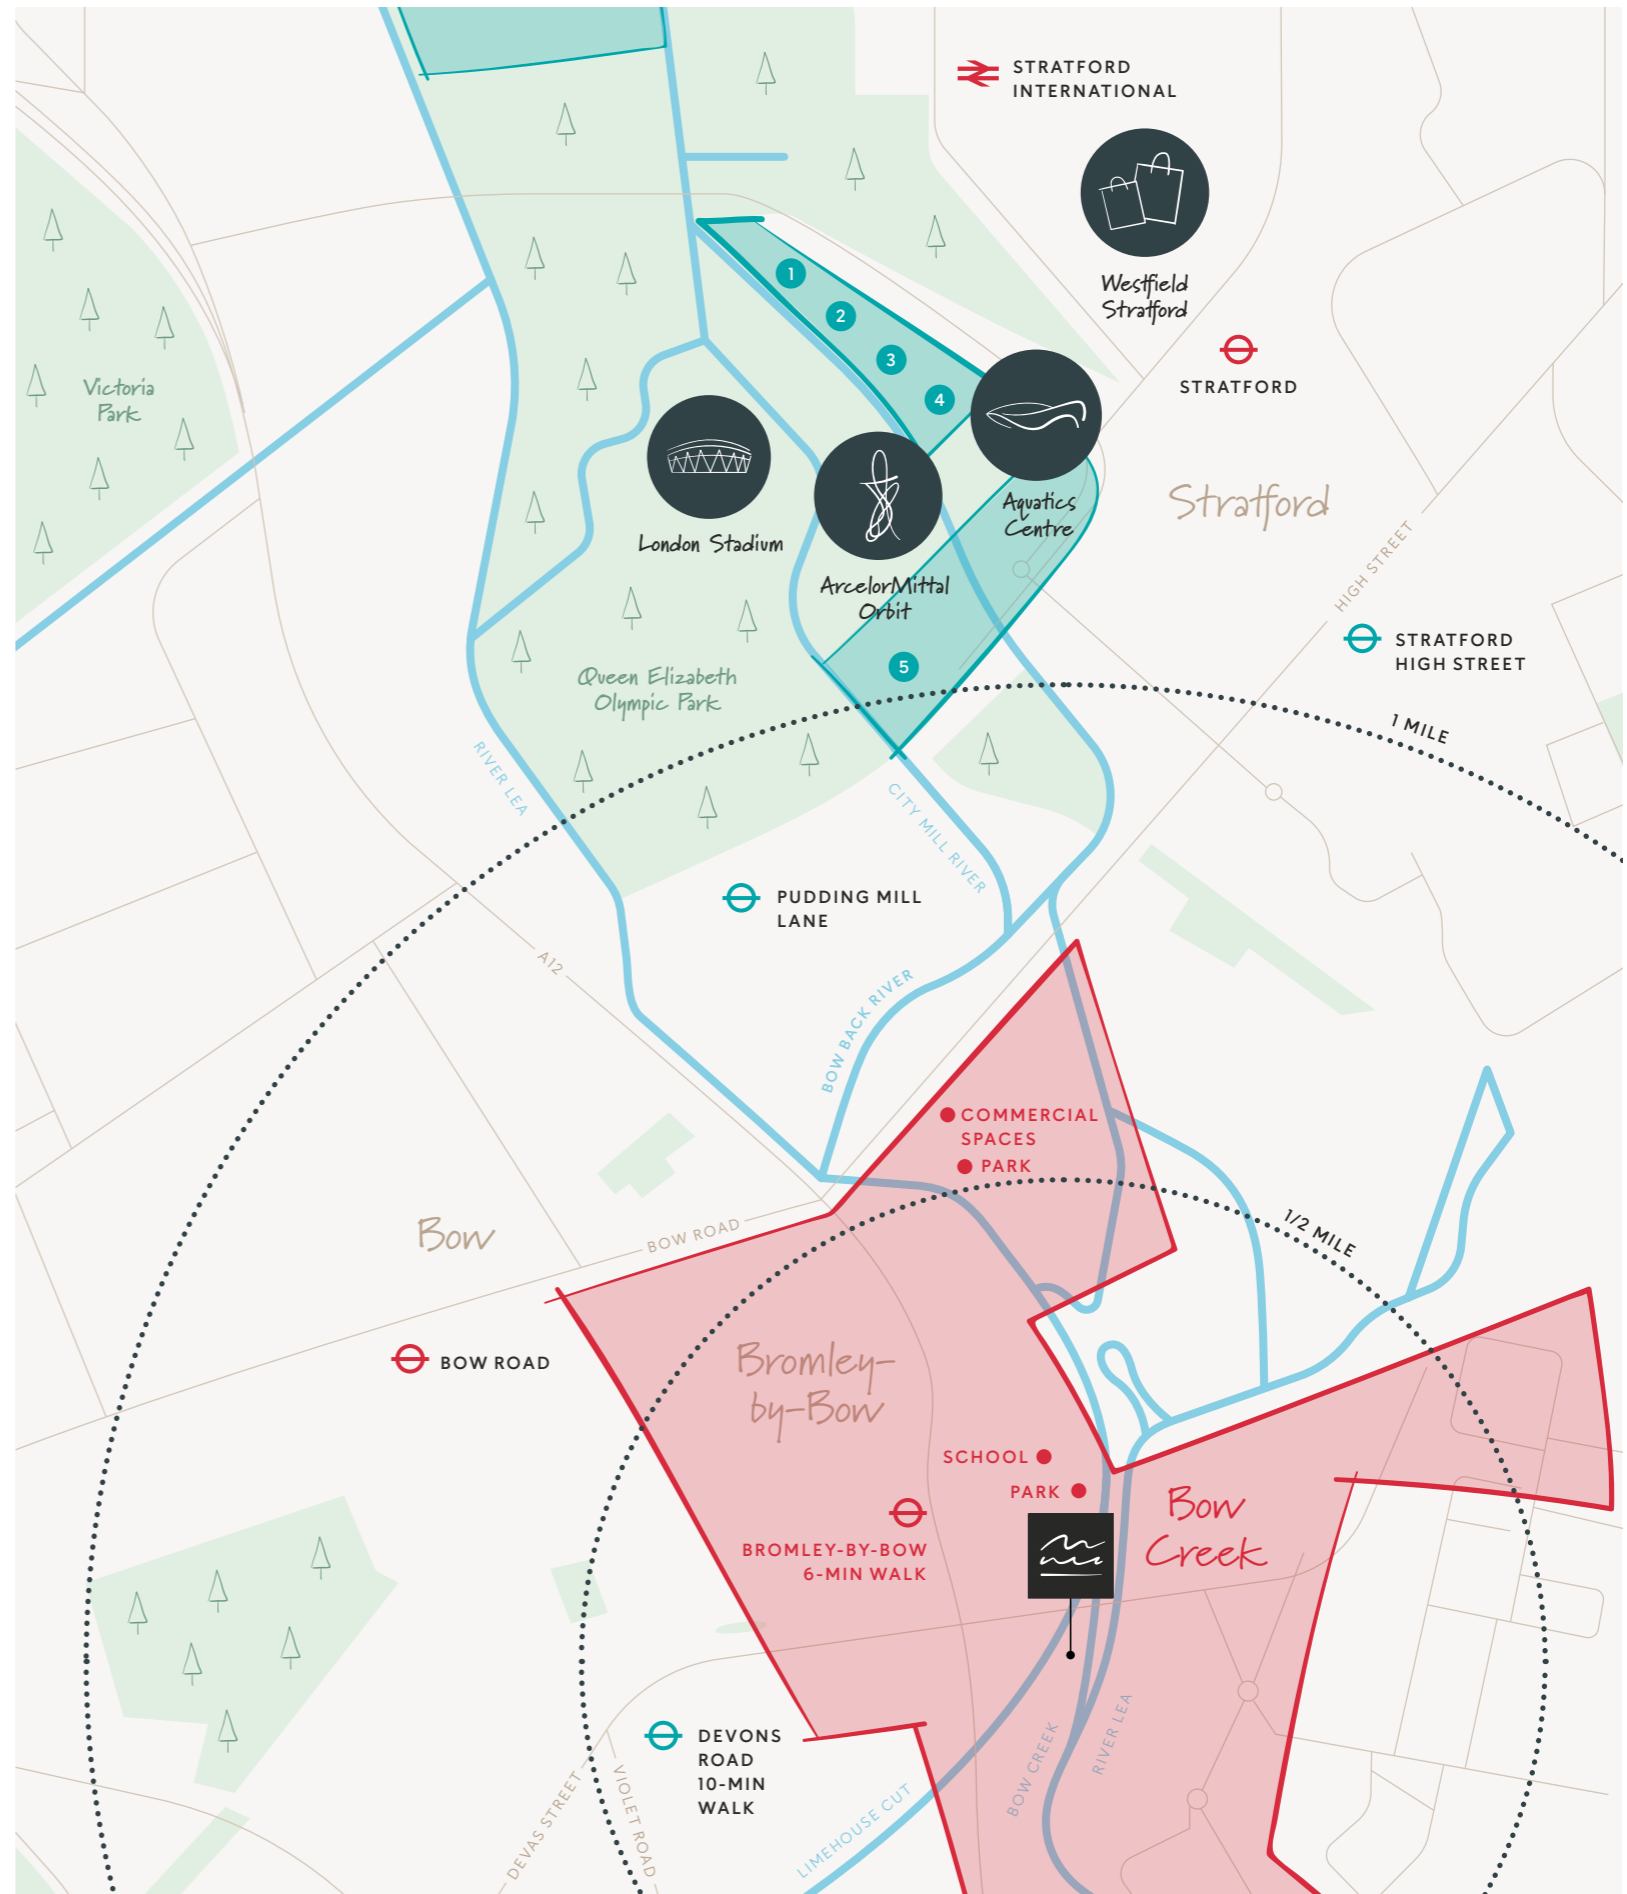

It all adds up to a great investment in a borough that's burgeoning as well as buzzing.

**+2.3x**

Mount Anvil's track record is for building homes that grow in price faster than local new build averages – by up to 2.3x.<sup>2</sup>

## INSPIRED BY HISTORY, MADE FOR THE FUTURE

Three new buildings rise above the meeting point of the River Lea, Bow Creek and the Limehouse Cut. The architecture reflects the industrial heritage of this conservation area. Traditional red brick façades and pitched roofs echo the historic wharves and warehouses of the east London context.

Every aspect of Three Waters has been designed to make the most of the waterfront location. The raised garden, the roof terrace, the private balconies, even the three buildings themselves; each element is cleverly arranged to offer you far-reaching views of the water and the City.

# CRAFTED BY THE WATER

These are smart spaces, crafted to work and to last. We've made considered design decisions to help you, your family and your tenants thrive here:

- ~ Geometric lines typify the interior, bringing order and balance.
- ~ Materials selected to make architectural and historic sense, combined distinctively on the statement flooring.
- ~ Projected balconies that maximise your views of the City and the water.

“ We were thinking about how we could create a calm setting when you’re entertaining friends, which led us to integrated appliances, clean lines and natural oak-effect splashbacks.

The floor’s the star, here. A herringbone pattern where wood-effect gives way to concrete-effect. A splash of personality to update a classic finish, and right in-keeping with the waterside architecture. ”

**NATALIE SLACK**

# EXTRAORDINARY CRAFT AS STANDARD

We've crafted communal spaces to help your life flow smoothly.

The lobby connects you with the outdoors, with a hanging garden bringing the flora in and stairs taking you down to the waterside itself. It's a stunning space, designed as a welcome home for you and a wow moment for your guests.

Even the hallway's hand-crafted – the often overlooked postbox corridor has been reimagined to reflect the architecture of the surrounding buildings.

The 24-hour concierge will connect you with whatever you need for a hassle-free day – greeting guests, handling packages, a friendly face whenever you're home.

Booking the screening room for you and your guests means entertainment on an epic scale. State-of-the-art technology and expansive seating bring a night in front of a sporting event or a film to a new level.

“We wanted the screening room to facilitate a great night in, not just a great viewing experience – so this adjacent social space gives you a place to host drinks (and a fridge to keep them in).”

## FIND THE ONE IN THREE WATERS

Discover your future home in one of our studio, one, two and three-bedroom apartments.

Part of creating thoughtful, design-led homes that discerning people fall in love with is making settling into life here as straightforward as possible.

That's why a Mount Anvil Customer Experience Manager will be with you from the moment you exchange contracts – helping you step through the process and keeping you informed of how the building work is going.

Once you're all moved in, you're looked after by a two-year fixtures and fittings warranty (part of the broader ten-year NHBC Buildmark Warranty). That means that if anything needs a touch of TLC or you or a tenant have an issue with say, an appliance, we're on hand to sort it hassle-free.
