Available with no ongoing chain the accommodation briefly comprises entrance hall, cloakroom, kitchen/diner, half landing with access to a lounge, further half landing with access to a bedroom and bathroom, and then a top floor landing with two bedrooms, the master bedroom having an en-suite shower room. There is marked off-road parking for two vehicles at the front of the house and an enclosed two tiered rear garden with paved patio area and lawn.

A modern split level end of terraced house occupying an elevated position and enjoying some fabulous far reaching views across Barnstaple town and beyond to open countryside. The house is in need of some general updating and upgrading, yet offers a tremendous opportunity for someone to stamp their own identity onto their new home. Available with no ongoing chain the accommodation briefly comprises an entrance hall, cloakroom, kitchen/diner, half landing with access to a lounge, further half landing with access to a bedroom and bathroom, and then a top floor landing with two bedrooms, the master bedroom having an en-suite shower room. There is marked off-road parking for two vehicles at the front of the house and an enclosed two tiered rear garden with paved patio area and lawn. The town itself offers a good range of local & national retailers, whilst the area is renowned for it's breathtaking and varied coastline with superb sandy beaches such as those found at Saunton and Woolacombe, contrasting dramatic top vistas such as those around Hartland and the Northern Devon coast.

Ground Floor

First Floor

Energy performance certificate (EPC)

5 Hawley Manor
BARNSTAPLE
EX32 8AP

Energy rating

C

Valid until: 2 July 2034

Certificate number: 2928-1612-1118-5674-6841

Property type: End-terrace house

Total floor area: 81 square metres

Rules on letting this property

Properties can be let if they have an energy rating from A to E.

You can read [guidance for landlords on the regulations and exemptions](https://www.gov.uk/guidance/domestic-private-rented-property-minimum-energy-efficiency-standard-landlord-guidance) (<https://www.gov.uk/guidance/domestic-private-rented-property-minimum-energy-efficiency-standard-landlord-guidance>).

Energy rating and score

This property's energy rating is C. It has the potential to be B.

[See how to improve this property's energy efficiency.](#)

The graph shows this property's current and potential energy rating.

Properties get a rating from A (best) to G (worst) and a score. The better the rating and score, the lower your energy bills are likely to be.

For properties in England and Wales:

the average energy rating is D
the average energy score is 60

Score	Energy rating	Current	Potential
92+	A		
81-91	B		84 B
69-80	C	73 C	
55-68	D		
39-54	E		
21-38	F		
1-20	G		

Breakdown of property's energy performance

Features in this property

Features get a rating from very good to very poor, based on how energy efficient they are. Ratings are not based on how well features work or their condition.

Assumed ratings are based on the property's age and type. They are used for features the assessor could not inspect.

Feature	Description	Rating
Wall	Cavity wall, as built, insulated (assumed)	Good
Roof	Pitched, 150 mm loft insulation	Good
Window	Fully double glazed	Average
Main heating	Boiler and radiators, mains gas	Good
Main heating control	Programmer, room thermostat and TRVs	Good
Hot water	From main system	Good
Lighting	Low energy lighting in 78% of fixed outlets	Very good
Floor	Solid, limited insulation (assumed)	N/A
Secondary heating	None	N/A

Primary energy use

The primary energy use for this property per year is 170 kilowatt hours per square metre (kWh/m²).

How this affects your energy bills

An average household would need to spend **£1,006 per year on heating, hot water and lighting** in this property. These costs usually make up the majority of your energy bills.

You could **save £57 per year** if you complete the suggested steps for improving this property's energy rating.

This is **based on average costs in 2024** when this EPC was created. People living at the property may use different amounts of energy for heating, hot water and lighting.

Heating this property

Estimated energy needed in this property is:

- 6,709 kWh per year for heating
 - 2,090 kWh per year for hot water
-

Impact on the environment

This property's environmental impact rating is C. It has the potential to be B.

Properties get a rating from A (best) to G (worst) on how much carbon dioxide (CO₂) they produce each year.

Carbon emissions

An average household produces 6 tonnes of CO₂

This property produces 2.4 tonnes of CO₂

This property's potential production 1.2 tonnes of CO₂

You could improve this property's CO₂ emissions by making the suggested changes. This will help to protect the environment.

These ratings are based on assumptions about average occupancy and energy use. People living at the property may use different amounts of energy.

Changes you could make

Step	Typical installation cost	Typical yearly saving
1. Solar water heating	£4,000 - £6,000	£57
2. Solar photovoltaic panels	£3,500 - £5,500	£554

Help paying for energy improvements

You might be able to get a grant from the [Boiler Upgrade Scheme \(https://www.gov.uk/apply-boiler-upgrade-scheme\)](https://www.gov.uk/apply-boiler-upgrade-scheme). This will help you buy a more efficient, low carbon heating system for this property.
