BUILD HOMES

# Callum Park.

Nine serviced building plots for custom homes

Lower Halstow, Kent, ME9 7TY

# Build your own home.

Did you know that millions of people in the UK express a desire to build their own homes every year, but due to the scarcity of permitted building plots less than 3% of people realise these ambitions?

At Callum Park, much of the difficult and riskier elements of building a home has been done for you. Land has been acquired, planning permission secured, the site has been serviced with roads and utilities, and each new home's groundworks and foundations will be installed before sales completion.

# A new community.

The site in Lower Halstow is situated on high ground overlooking the Thames Estuary and has been used as a riding school for more than quarter of a century. Planning permission, architectural and structural design work has been secured for nine executive sized custom build plots.

The local developer worked closely with the planning officers to create a vision with house designs that are in keeping with the countryside setting. Therefore, a selection of pre-approved house designs has been applied to each plot, and they can be extensively customised by plot buyers, including amending their size, layout and specification to suit tastes and budgets. By designing core house designs, we can make the planning process associated to building new home devoid of buyer risk and much more affordable.

WELCOME TO

# Luxury country living.

# On your doorstep.

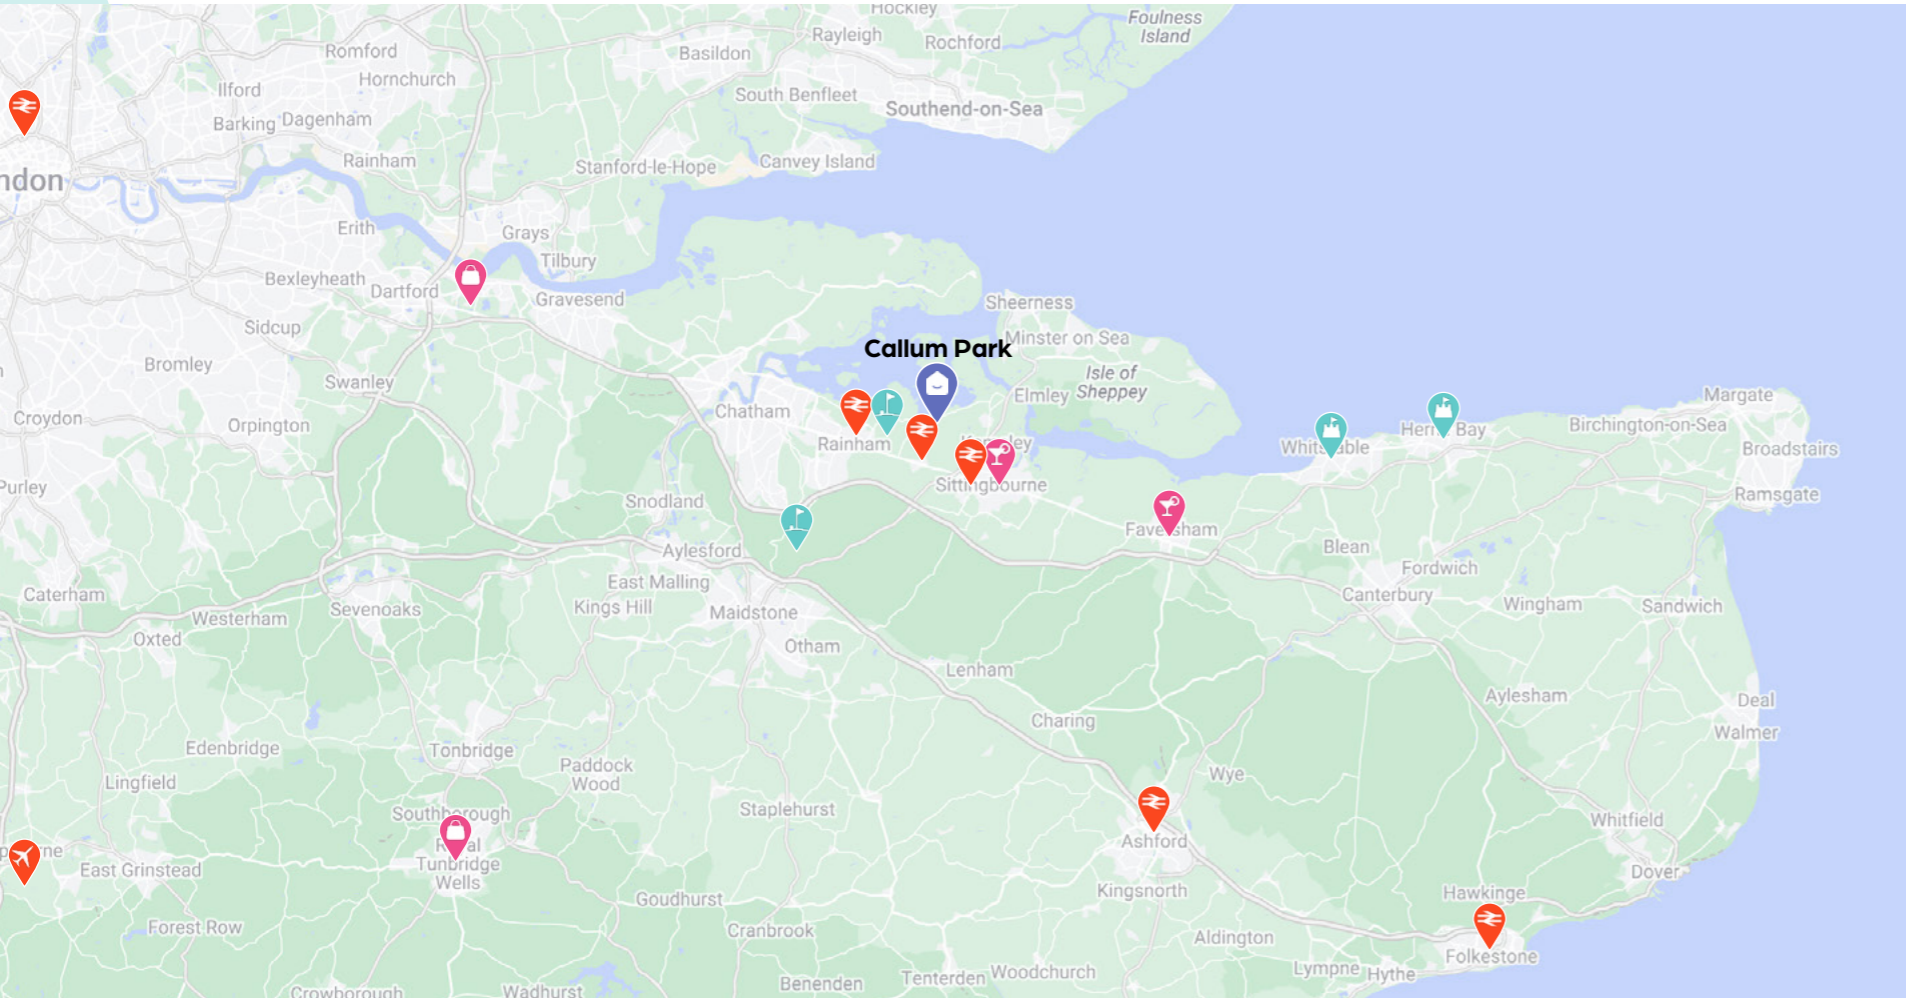

Located just a short drive from the towns of Rainham, Maidstone and Sittingbourne, Lower Halstow is a hidden gem, with a peaceful and tranquil setting that is perfect for those who enjoy the great outdoors. The village is surrounded by beautiful countryside, including picturesque orchards, stunning nature reserves, and peaceful woodland, river and coastal walks including the renowned Saxon Shore Way.

When it comes to amenities, Lower Halstow has everything you need. The village has a primary school, a village hall, and a church. You'll also find a local shop, and a fantastic award winning pub, The Three Tuns, which offers great food and a warm welcome.

For those who enjoy sports and fitness, there is a selection of sports clubs and gyms locally as well as neighbouring village cricket and football clubs. Numerous golf courses are just a short drive away. If you're a fan of water sports, the village is located a stones throw away from the River Medway where you can enjoy kayaking, sailing, fishing. Lower Halstow Yacht Club is on your doorstep.

For those who love to shop, the premier destination of Bluewater Shopping Centre is only 35 minutes drive away. The nearby town of Sittingbourne have a range of high street shops, supermarkets, and independent boutiques. The town also has a cinema, theatre, and a selection of restaurants, cafés, and bars.

# Site information.

Callum Park offers nine large serviced building plots, including two smaller plots for cottage living and seven larger ones for luxury country living. The development benefits from electronic security gates at the site's entrance and landscaped communal grounds that sit adjacent to the extended private tree lined boulevard that meanders off the main road to the secluded, private site.

Plot	Plot Size	Max House GIA*	Garage GIA	Plot Price	Est. Total Project Cost	Est. End GDV**

# Why build your own home?

## Create something unique to you

Design your home to reflect you and how you want to live.

## Financial control

You're holding the purse strings, so you can prioritise your spending on what is most important. Perhaps custom interiors are most important, or use of sustainable materials. Maybe you want a larger home, or a smaller one that's manageable in later life.

## Go green

You can work with your contractor to incorporate the latest renewables to make your home sustainable and cost-effective in the longer term.

## Get involved

You can choose to input into the delivery of your home, reducing the over cost of delivery. Perhaps you will roll your sleeves up to put down flooring or paint the walls. You can do as much or as little as you like.

# The process.

Building your home at Callum Park has been designed to be as smooth and stress-free as possible. Often, the area of most risk for a self-build is the ground. However, purchasing a plot at Callum Park means the developer will prepare your plot and foundations, so you're ready to start building!

**The hard work is done for you!**

The developer will complete these steps on your behalf, allowing you to start building quicker.

# Your home, your choice.

Callum Park gives you the flexibility to design a home that suits you and your lifestyle.

# Frequently asked questions.

The process of building your home at Callum Park has been made as smooth and stress free as possible, however we understand the responsibility of building a home will be a first for most buyers, so there is bound to be questions about how it works.

## Should I build my own home?

Self-building isn't for everyone. It is worth exploring if:

- You can't find a home that meets your requirements, whether they relate to the environment, family or employment.
- You feel other options aren't of the architectural or build quality you want to achieve
- You are prepared to wait while your ideal home is being built

It may not be right for you if:

- You need to move in straight away
- You don't have the time it will require to build your home

## What are the benefits of building my home at Callum Park?

The main benefits are:

- Freedom to create your home just as you want it, with the benefit of professional support along the way
- Quality design and building to create a happier, healthier and more environmentally conscious home
- Remove key barriers to self-building, including, finding land, planning risk and groundworks/servicing
- Groundworks and enabling works such as electric entrance gates and site servicing has significantly reduced the build time and risk to building a new home.

## How do I purchase a plot?

In the same way you would buy a house. Once you have completed your reservation and secured your finance, you will need to appoint a solicitor to act on your behalf. Our solicitor will send out the paperwork and once yours is happy, they will exchange contracts, and request the 15% deposit is paid. After we complete the groundworks for your new home, including its foundations, you will pay the remaining 85%, less the reservation fee.

## Can I get a mortgage?

Yes, we've partnered with BuildStore Mortgage Services. They are the UK's leading experts in self-build mortgage finance, insurances and warranties. There is an array of mortgage options available, and your adviser will recommend which product is best for your individual circumstances. They will also support you to arrange your Site Insurance, which you will need in place before you start building.

## Are there other financial incentives or benefits?

Yes! As a self-builder you will be entitled to a significant discount on the Stamp Duty Land Tax as you only pay it against the plot price, not the total cost of your home. This will save you up to £50,000 depending on which plot you buy.

A VAT refund is available on all materials and services you purchase throughout your self-build journey.

## How long does it take?

This can differ depending on the builder you choose to appoint, and the complexities of any design choices or customisation you make. However, you should plan for 8 to 12-months to secure your preferred designs and have them built out by one of introduced build partners.

## Can we modify the existing house designs, and how does this affect the planning permission?

Modifications can be made to the current plans within the scope of the existing planning permission. Our appointed Architects, Allan Corfield Architects (ACA) will support you to make these changes and prepare your new drawings for Building Regs, enabling a builder to cost their construction.

Should you want to make more extensive changes to house elevations, these can be handled by ACA on your behalf, and an amendment to the planning application must be sought.

## What is the potential re-sale value of a self-built home?

Self-build homes typically re-sell at a significant premium. This is due to their bespoke nature, modern specification and layouts that align with how people want to live.

If we have not answered your question, please ask us to at [hello@custombuildhomes.co.uk](mailto:hello@custombuildhomes.co.uk) and we'll get back to you.

# Financing your new home.

The payment process for a custom build home differs from a traditional new build home – which you pay for when your home has been built.

As your new home at Callum Park will be built to meet your own individual style and requirements, payments are made at several stages throughout the build process.

Custom Build Homes partners with BuildStore Mortgage Services to guide you through this process. Their advisors will help you set your budget, arrange the right mortgage product for you and manage all stage payments on your behalf.

## Why BuildStore?

It's quite simple – BuildStore are the only self build specialists who offer:

- The right finance for you, based on both your financial needs and requirements of your project
- Unmatchable expert knowledge about every aspect of self build, under one roof and just a phone call away
- Practical help and support, including complimentary consultations

Upon your offer being made, Custom Build Homes will introduce you to a friendly BuildStore advisor, they will financially qualify you for the development and help you set your budget. Once your offer has been formally accepted, they will help you arrange your mortgage offer, if required. Typically you can access funding of up to 85% of the plot cost and your build costs combined.

Please note – Your home may be repossessed if you do not keep up with repayments on your mortgage.

# How to reserve.

- Contact Custom Build Homes to discuss availability.
- Once you have decided on your plot you will be required to send a written offer via email.
- If accepted your Sales Coordinator will process your reservation including; taking you through our affordability check and taking payment of the Reservation Fee, which is £5,000.
- Once this is completed we can then help you to start creating your perfect home.
