Frequently asked questions.

The process of building your home at Houndkirk View has been made as smooth and stress free as possible, however we understand the responsibility of building a home will be a first for most buyers, so there is bound to be questions about how it works.

Should I build my own home?

Self-building isn't for everyone. It is worth exploring if:

- You can't find a home that meets your requirements, whether they relate to the environment, family or employment.
- You feel other options aren't of the architectural or build quality you want to achieve
- You are prepared to wait while your ideal home is being built

It may not be right for you if:

- You need to move in straight away
- You don't have the time it will require to build your home

What are the benefits of building my home at Houndkirk View?

The main benefits are:

- Freedom to create your home just as you want it, with the benefit of professional support along the way
- Quality design and building to create a happier, healthier and more environmentally conscious home
- Remove key barriers to self-building, including, finding land and planning risk

How do I purchase a plot?

In the same way you would buy a house. Once you have completed your reservation and secured your finance, you will need to appoint a solicitor to act on your behalf. Our solicitor will send out the paperwork and once yours is happy, they will exchange contracts, and request the 10% deposit is paid. After we complete the groundworks for your new home, including its foundations, you will pay the remaining 85%, less the reservation fee.

Can I get a mortgage?

Yes, we've partnered with BuildStore Mortgage Services. They are the UK's leading experts in self-build mortgage finance, insurances and warranties. There is an array of mortgage options available, and your adviser will recommend which product is best for your individual circumstances. They will also support you to arrange your Site Insurance, which you will need in place before you start building.

Are there other financial incentives or benefits?

Yes! As a self-builder you will be entitled to a significant discount on the Stamp Duty Land Tax as you only pay it against the plot price, not the total cost of your home. This will save you up to £22,000 depending on which plot you buy.

A VAT refund is available on all materials and services you purchase throughout your self-build journey.

How long does it take?

This can differ depending on the builder you choose to appoint, and the complexities of any design choices or customisation you make. However, you should plan for 8 to 12-months to secure your preferred designs and have them built out.

Can we modify the existing house designs, and how does this affect the planning permission?

Modifications can be made to the current plans within the scope of the existing planning permission. CBH can connect you to one of our trusted Architects or you can use your own to make these changes.

Should you want to make more extensive changes to house design, an amendment to the planning application must be sought.

What is the potential re-sale value of a self-built home?

Self-build homes typically re-sale at a significant premium. This is due to their bespoke nature, modern specification and layouts that align with how people want to live.
