Agent's Notes 2

As the site has potential for residential development, the owners are looking to have a contractual agreement in place for overage that will only be payable if the land is developed. It is calculated as a percentage of uplift in the value of the land if developed, including conversion of the outbuildings into residential accommodation. The sellers are prepared to negotiate an up-front payment to replace any overage being due if preferred.

Please note we have not tested any apparatus, fixtures, fittings, or services. Interested parties must undertake their own investigation into the working order of these items. All measurements are approximate and photographs provided for guidance only.
