Earl Shilton Independent Chapel comprises a significant detached church building of traditional red brick construction under a pitched, tiled roof. A later flat-roofed, two storey rear extension provides additional accommodation. A date stone indicates that the main part of the property was constructed in 1824.

The property has frontage to High Street and a hardstanding area to the front separates it from the road. A generous tarmacked hardstanding to the rear (accessed from Alexander Avenue) provides ample parking for a number of vehicles. Beyond this lies the grave yard.
