Drainage and Electricity;

The George main building has a private water supply from the Aylburton natural spring, confirmation to follow.

Each building has gas fired central heating to radiators.

Notes;

A local architect has provided a quotation to draw up a scheme and to draw up Land Registry plans showing how the site could be divided for the benefit of further development.

Disability Discrimination Act;

The Disability Discrimination Act, 1995 outlines the requirement that service providers may have to make 'reasonable adjustments' in relation to the physical features of their property to overcome physical barriers to enable access for disabled people.

Following our brief inspection of the property, we were not aware of any major issues that would give a user of this building opportunity to make a claim against the owner under the Act.

Planning Permission;

In the years 1992/1993, it appears that several applications were made to the Forest of Dean District Council for alterations, car parking and outbuildings of which alterations have taken place assuming planning permission has been

granted. As with all property purchases, we advise your legal representatives confirming the legal aspect of planning etc.

Assumptions - Fixtures and Fittings;

For the purposes of this marketing guide, we have made allowances for an overall assessment of the value of normal inventory of fixtures, fittings and effects contained with the premises.

In order to obtain an accurate assessment of value of these items it would be necessary to commission a detailed inventory to include the valuation of individual items in situ, this will be in conjunction with the current tenant.

We have also made the following assumptions:

- *that no items are subject to hire/lease purchase
- *that all items are owned outright
- *that all electrical items comply with safety regulations and that all fabric complies with fire retardant regulations
