## Coal Mining

This map displays nearby coal mine entrances and their classifications.

Leaflet | Contains British Geological Survey materials © UKRI 2025

### Mine Entry

✗     Adit
✗     Gutter Pit
✗     Shaft

The Coal Authority has records of over 175,000 mine entries within the UK captured in the National Coal Mining database, derived from sources including abandonment plans, geological and topographical plans.

Coal mining activity is recorded as far back as the 13th century, but prior to 1872 there was no requirement to deposit abandonment plans. It is therefore believed there may be many unrecorded mine entries of which the Authority has no information or knowledge. These entries do not, therefore, appear within the Authority's national dataset as shown on this map.

This map displays the noise levels from nearby network rail and HS1 railway routes that affect this property...

## Rail Noise Data

This data indicates the level of noise according to the strategic noise mapping of rail sources within areas with a population of at least 100,000 people (agglomerations) and along Network Rail and HS1 traffic routes.

The data indicates the annual average noise levels for the 16-hour period between 0700 - 2300.

Noise levels are modelled on a 10m grid at a receptor height of 4m above ground, polygons are then produced by merging neighbouring cells within the following noise classes:

| 5 | 75.0+ dB | 🟥 |
|---|----------|----|
| 4 | 70.0-74.9 dB | 🟧 |
| 3 | 65.0-69.9 dB | 🟨 |

## Radon Gas

### What is Radon?

Radon is a natural radioactive gas, which enters buildings from the ground. Exposure to high concentrations increases the risk of lung cancer. The UK Health Security Agency (UKHSA) recommends that radon levels should be reduced in homes where the annual average is at or above 200 becquerels per cubic metre (200 Bq/m3).

## NEIL JOHNSON PROPERTY AGENTS

Neil Johnson Property Agents is a distinguished independent firm dedicated to providing personalised and expert property services. With a rich background in the property industry dating back to 2001, I have assisted hundreds, if not thousands, of individuals in moving to their ideal homes. Drawing upon years of experience and in-depth knowledge of the market, I have established my own company with a steadfast commitment to easing the often-daunting process of moving.

**Testimonial 1** ★★★★★

Neil has been an absolute star - he takes the time to explain his services and what you may need to do to your home prior to putting it on the market, in order to maximise the sale price. He is trustworthy, hugely experienced and an excellent communicator. I wouldn't hesitate to recommend him to family and friends.

**Testimonial 2** ★★★★★

Neil acted for me on the potential sale of my house. I found him professional, informative and very supportive. Excellent communication and works hard to achieve your requirements. Would not hesitate to use him again or recommend him to potential sellers.

**Testimonial 3** ★★★★★

I found Neil very professional, keeping in contact with me updating me on progress and willing to go the extra mile. Nothing was too much trouble. Highly recommend him.

**Testimonial 4** ★★★★★

A well deserved 5 stars. Neil helped with the purchase of our new house. We were kept well informed thought out, he even chased the estate agents selling our house to give me the much needed updates i was not getting and was the main person pushing the chain through. I wish we used him to sell our house. We have recommended Neil to two others, who are now selling their properties through him. Definitely would recommended.
